The Pandora's Box of the Roaring Twenties Ruben Ygua, 2025-08-20 Suddenly the brief crisis of 1921 was behind us From 1922 everyone had money they were prospering and the future looked wonderful for Americans That wave of growth reached Europe in 1924 the hard times the war and the suffering seemed to belong to the past A blind confidence in the capitalist system was imposed The United States became the engine of the world economy the American way of life was exported to the whole of the West jazz fashion sound films industrial products telephones household appliances cars and the inventions that emerged every day seduced the European and Asian masses Dry Law becomes anachronistic outdated a symbol of the past of sacrifice and hardship Everyone wants to party and drink feeding the contraband The thugs and organized crime emerge immediately romanticized by cinema and literature Even Germany seems to be living a period of artistic and cultural splendor with its cabarets and show houses Behind this global economic miracle lurks an economic body that is taking its first steps still unaware of its enormous powers in practice the FED the American Federal Reserve in private hands since its creation in 1913 The war brought them enormous profits and benefits and their intervention probably reduced the effects of the 1921 crisis In that year they decided to take their first steps towards their ultimate goal control of the world economy by increasing the money supply intensively by feeding consumption by granting huge loans to the public and the banks Mechanisms were created that facilitated credit This easy and cheap money favored the emergence of a large number of banks whose main source of income was the stock exchange There was no state control the FED had complete freedom of

action and the consequence was an explosion of consumption never before seen The opulent America revealed itself to the eyes of the whole world as the paradigm of freedoms of possibilities of enrichment and well being The values that drove it were those of success initiative and individual effort The group of international Jewish bankers owners of the FED had managed to dictate world financial policy for the first time and the world hallucinated by the Roaring Twenties ran wildly and optimistically to the top of the hill where a number glimmered 1929 Astronomical Register ,1866 **A new treatise on the use of the globes ... New edition. [The editors named in the preface as A. S. Taylor, R. A. Le Mesurier, and J. Middleton.]** Thomas KEITH (Teacher of Mathematics.),1869 *Tending Tomorrow* Leah Reesor-Keller,2024-06-25 The future is uncertain But flourishing doesn't have to be We know without a doubt that humans have power to change the earth in lasting ways Climate change is not a niche issue it is the unfolding story of our embodied lives As we join in with the groaning of creation we wonder how we and coming generations will make our home in a potentially inhospitable future In the face of environmental and social upheaval *Tending Tomorrow* lays out a path for Christians seeking courage and inspiration for the uncertain journey ahead Drawing on metaphors from the natural world author Leah Reesor Keller offers foundational transformative practices for leaders and communities to foster healthier cultures during a time of ecological devastation When we dig into the roots of faith and culture and envision new interactions and patterns we plant seeds of change Seeds that ignite courageous imagination Seeds that repair injustice Seeds that nurture a tomorrow where possibilities bloom and people and planet flourish
