engine of the world economy the American way of life was exported to the whole of the West jazz fashion sound films industrial products telephones household appliances cars and the inventions that emerged every day seduced the European and Asian masses Dry Law becomes anachronistic outdated a symbol of the past of sacrifice and hardship Everyone wants to party and drink feeding the contraband The thugs and organized crime emerge immediately romanticized by cinema and literature Even Germany seems to be living a period of artistic and cultural splendor with its cabarets and show houses Behind this global economic miracle lurks an economic body that is taking its first steps still unaware of its enormous powers in practice the FED the American Federal Reserve in private hands since its creation in 1913 The war brought them enormous profits and benefits and their intervention probably reduced the effects of the 1921 crisis In that year they decided to take their first steps towards their ultimate goal control of the world economy by increasing the money supply intensively by feeding consumption by granting huge loans to the public and the banks Mechanisms were created that facilitated credit This easy and cheap money favored the emergence of a large number of banks whose main source of income was the stock exchange There was no state control the FED had complete freedom of action and the consequence was an explosion of consumption never before seen The opulent America revealed itself to the eyes of the whole world as the paradigm of freedoms of possibilities of enrichment and well being The values that drove it were those of success initiative and individual effort The group of international Jewish bankers owners of the FED had managed to dictate world financial policy for the first time and the world hallucinated by the Roaring Twenties ran wildly and optimistically to the top of the hill where a number glimmered 1929 **A new treatise on the use of the globes ...
