JACKET **Doug Wheeler** Doug Wheeler, 2020-01-07 Over five decades Doug Wheeler has pioneered the art of light and space His work powerfully explores the way we perceive empty space the way light can affect our perception and make emptiness feel full and dense From his early experiences flying across the desert with his father a doctor in Globe Arizona Wheeler developed a passion for the intensity and stillness of vast expanses seeing in them a whole new set of possibilities for visual art Although Wheeler began his career as a painter his wall mounted artworks soon began incorporating light as a medium and quickly gave way to an unprecedented art historical breakthrough his construction of an absolute light environment crafted in his studio in 1967 Since that unparalleled moment Wheeler s work has been exhibited widely all over

the world in the past decade with numerous major gallery and museum installations his reputation as the definitive light and space artist has been solidified This volume featuring new scholarship by renowned art historian Germano Celant traces the entire course of Wheeler s career to date from his first mature paintings to his immersive installations Writing on Wheeler s intense and direct engagement with the absoluteness in the optical fields he creates Celant provides a detailed account for Wheeler s development as one of the most original and influential artists of his generation Wheeler s work not only changes how we encounter reality after we see it but also how we envision what is possible more broadly in visual art **PANZA COLLECTION.** ,1985 **The Panza Collection** Giuseppe Panza di Biumo,Evelyn C. that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality **Panza** Evelyn Carol Hankins,2008
