considering where museums have come from where they are today and where they are going Entirely new to this edition

Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible
