Papers In Logic And Ethics:

Papers in Logic and Ethics Arthur N. Prior, 1976 At the time of his death Arthur Prior was intending to publish a collection of essays as a sequel to Papers on Time and Tense P T Geach and A J P Kenny have collected from among his published and unpublished works a score of papers which are worth preserving Topics covered include existence and non existence possibility and necessity self reference and self perception the nature of inference and of intentionality and the autonomy of ethics All the essays display Prior s unique gift for the application of modern logical insights and techniques to traditional ethical and metaphysical problems The collection includes five hitherto unpublished papers On some Proofs of the Existence of God It Was to Be What is Logic What do General Statements Refer to Things and Stuff A complete bibliography of Prior s philosophical writings compiled by Olav Flo has been added as an appendix Publisher Conceptions of Truth Wolfgang Künne, 2003-06-06 Truth is one of the most debated topics in philosophy Wolfgang K nne presents a comprehensive critical examination of all major theories Conceptions of Truth is organized around a flow chart comprising sixteen key questions ranging from Is truth a property to Is truth epistemically constrained K nne expounds and engages with the ideas of many thinkers from Aristotle and the Stoics to Continental analytic philosophers like Bolzano Brentano and Kotarbinski to such leading figures in current debates as Dummett Putnam Wright and Horwich He explains many important distinctions between varieties of correspondence for example between different conceptions of making true between various kinds of eternalism and temporalism which have so far been neglected in the literature K nne argues that it is possible to give a satisfactory modest account of truth without invoking problematic notions like correspondence fact or meaning And he offers a novel argument to support the realist claim that truth outruns justifiability The clarity of exposition and the wealth of examples will make Conceptions of Truth an invaluable and stimulating guide for advanced students and scholars in metaphysics epistemology and the philosophy of language **Intensionality and Truth** Philip Hugly, C.

Sayward, 2012-12-06 Prior s view on intensionality and truth is based on the principle that sentences never name that what sentences say cannot be otherwise signified that a sentence says what it says whatever the type of its occurrence and that sentential quantification is neither eliminable substitutional nor referential The text defends each of these principles
