*The Comparative Method Reviewed* Mark Durie, Malcolm Ross, 1996-05-16 Historical reconstruction of languages relies on the comparative method which itself depends on the notion of the regularity of change. The regularity of sound change is the famous Neogrammarian Hypothesis: sound change takes place according to laws that admit no exception. The comparative method however is not restricted to the consideration of sound change and neither is the assumption of regularity. Syntactic, morphological and semantic change are all amenable in varying degrees to comparative reconstruction and each type of change is constrained in ways that enable the researcher to distinguish between regular and more irregular changes. This volume draws together studies by scholars engaged in historical reconstruction, all focussing on the subject of regularity and irregularity in the comparative method. A wide range of languages are represented, including Chinese, Germanic and Austronesian.      *Language Isolates* Lyle Campbell, 2017-10-03 *Language Isolates* explores this fascinating group of languages that surprisingly comprise a third of the world's languages. Individual chapters, written by experts on these languages, examine the world's major language isolates and language isolates by geographic regions, with up-to-date descriptions of many, including previously unrecorded language isolates. Each language isolate represents a unique lineage and a unique window on what is possible in human language, making this an essential volume for anyone interested in understanding the diversity of languages and the very nature of human language. *Language Isolates* is key reading for professionals and students in linguistics and anthropology.      *The Sorrow of the Lonely and the Burning of the Dancers* E. Schieffelin, 2005-01-14 This classic ethnography, now in its second edition, describes the traditional way of life of the Kaluli, a tropical forest people of Papua New Guinea. The book takes as its focus the nostalgic and violent Gisalo ceremony, one of the most remarkable performances in the anthropological literature. Tracking the major symbolic and emotional themes of the ceremony to their sources in everyday Kaluli life, Schieffelin shows how the central values and passions of Kaluli experience are governed by the basic forms of social reciprocity. However, Gisalo reveals that social reciprocity is not limited to the dynamics of transaction, obligation and alliance. It emerges rather as a mode of symbolic action and performative form, embodying a cultural scenario which shapes Kaluli emotional experience and moral sensibility and permeates their understanding of the human condition.      ***A Grammar of Kewa, New Guinea*** Karl James Franklin, 1971 No Indigenous Australian content.      *A Study in Nascent Literacy* Donald H. Rubinstein, Daniel Carleton Gajdusek, 1970      *Approaches to Measuring Linguistic Differences* Lars Borin, Anju Saxena, 2013-10-14 The present volume collects contributions addressing different aspects of the measurement of linguistic differences, a topic which probably is as old as language itself but at the same time has acquired renewed interest over the last decade or so, reflecting a rapid development of data-intensive

computing in all fields of research including linguistics      *The Grammar of Discourse* Robert E. Longacre, 2013-11-21 In that The Anatomy of Speech Notions 1976 was the precursor to The Grammar of Discourse 1983 this revision embodies a third edition of some of the material that is found here The original intent of the 1976 volume was to construct a hierarchical arrangement of notional categories which find surface realization in the grammatical constructions of the various languages of the world The idea was to marshal the categories that every analyst regardless of theoretical bent had to take account of as cognitive entities The volume began with a couple of chapters on what was then popularly known as case grammar then expanded upward and downward to include other notional categories on other levels Chapters on discourse monologue and dialogue were buried in the center of the volume In the 1983 volume the chapters on monologue and dialogue discourse were moved to the fore of the book and the chapters on case grammar were made less prominent the volume was then renamed The Grammar of Discourse The current revision features more clearly than its predecessors the intersection of discourse and pragmatic concerns with grammatical structures on various levels It retains and expands much of the former material but includes new material reflecting current advances in such topics as salience clines for discourse rhetorical relations paragraph structures transitivity ergativity agency hierarchy and word order typologies      Papers in Australian Linguistics ,1978      *Papers in Philippine Linguistics* ,1979      Papers in Pidgin and Creole Linguistics ,1978      *Resources in Education* ,1997      Index to Pacific Linguistics, Series A-D, as at the End of 1970 Pacific Linguistics, 1971      **The Language of the Rao People, Grengabu, Madang Province, Papua New Guinea** John M.
