**Memory Performance and Competencies** Franz E. Weinert,Wolfgang Schneider,1995 Research on memory development has accumulated over the past few years Given the number of relevant publications in the field it becomes increasingly difficult to keep track of major advances in specific areas of memory development This book illustrates 2 purposes to permit experts in the various subdomains of research in memory development to summarize recent findings concerning the respective roles of capacity strategies and knowledge in the acquisition of memory skills and to discuss cross cutting topics such as the influence of individual differences practical and educational implications and the potential of longitudinal studies      **Building Sustainable Peace** Arnim Langer,Graham K. Brown,2016-06-16 Countries emerging from civil war or protracted violence often face the daunting challenge of rebuilding their economy while simultaneously creating the political and social conditions for a stable peace The implicit assumption in the international community that rapid political democratisation along with economic liberalisation holds the key to sustainable peace is belied by the experiences of countries such as Iraq and Afghanistan Often the challenges of post conflict reconstruction revolve around the timing and sequencing of different reform that may have contradictory implications Drawing on a range of thematic studies and empirical cases this book examines how post conflict reconstruction policies can be better sequenced in order to promote sustainable peace The book provides evidence that many reforms that are often thought to be imperative in post conflict societies may be better considered as long term objectives and that the immediate imperative for such societies should be people centred policies      *Handbook of International Research in Mathematics Education* Lyn D.
