*Focus On: 100 Most Popular Vaudeville Performers* Wikipedia contributors, *The Papers of Will Rogers: From the Broadway stage to the national stage, September 1915-July 1928* Will Rogers, 2005-09-28. In the early years of his performing career, Will Rogers was a vaudeville performer of limited prominence. Around the age of thirty-five, however, this Oklahoma cowboy philosopher shed his role as local stage entertainer and moved toward fame as a Broadway star and nationally beloved humorist. This documentary history, volume four in the definitive five-volume *Papers of Will Rogers*, reveals Rogers's personal and professional transformation during what may have been the most productive period of his diverse career. Between 1915 and 1928, the years covered by this volume, Rogers developed his unique monologues of topical humor, sampled the relatively new medium of radio, and pursued a career in silent films. He also tried his voice in sound recordings, witnessed his work as a writer reach millions of readers of daily newspapers, became one of the most sought-after speakers on the dinner circuit, and embarked on a three-year tour of the nation's lecture halls. In addition to Rogers's personal correspondence with family members and friends, editors Steven K. Gragert and M. Jane Johansson present more than one hundred letters and telegrams to and from people Rogers touched both inside and outside public life, including prominent figures in politics, show business, literature, industry, government, publishing, and the arts. Much of this material, gleaned from private collections, interviews, manuscripts, and sound recordings, has never before been published. *Between the Covers, A Revue of Books Related to Will Rogers* Leland Wilson, 2017-01-16. *Between the Covers, A Revue of Books Related to Will Rogers* is a bibliography of more than one thousand Rogers-related books, including a summary and/or description of each book. Vaudeville, as it is commonly known today, began as a response to scandalous variety performances appealing mostly to adult male patrons. When former minstrel performer and balladeer Tony Pastor opened the Fourteenth Street Theatre in New York

in 1881 he was guided by a mission to provide family friendly variety shows in hopes of drawing in that portion of the audience women and children otherwise inherently excluded from variety bills prior to 1881 There he perfected a framework for family oriented amusements of the highest obtainable quality and style Historical Dictionary of Vaudeville contains a chronology an introduction an extensive bibliography and the dictionary section has more than 1 000 cross referenced entries on performing artists managers and agents theatre facilities and the terminology central to the history of vaudeville This book is an excellent resource for students researchers and anyone wanting to know more about vaudeville **John**

*Denisovan Origins* Andrew Collins, Gregory L. Little, 2019-09-03 Reveals the profound influence of the Denisovans and their hybrid descendants upon the flowering of human civilization around the world Traces the migrations of the sophisticated Denisovans and their interbreeding with Neanderthals and early human populations more

than 40 000 years ago Shows how Denisovan hybrids became the elite of ancient societies including the Adena mound building culture Explores the Denisovans extraordinary advances including precision machined stone tools and jewelry tailored clothing and celestially aligned architecture Ice age cave artists the builders at G bekli Tepe and the mound builders of North America all share a common ancestry in the Solutreans Neanderthal human hybrids of immense sophistication who dominated southwest Europe before reaching North America 20 000 years ago Yet even before the Solutreans the American continent was home to a powerful population of enormous stature giants remembered in Native American legend as the Thunder People New research shows they were hybrid descendants of an extinct human group known as the Denisovans whose existence has now been confirmed from fossil remains found in a cave in the Altai region of Siberia Tracing the migrations of the Denisovans and their interbreeding with Neanderthals and early human populations in Asia Europe Australia and the Americas Andrew Collins and Greg Little explore how the new mental capabilities of the Denisovan Neanderthal and Denisovan human hybrids greatly accelerated the flowering of human civilization over 40 000 years ago They show how the Denisovans displayed sophisticated advances including precision machined stone tools and jewelry tailored clothing celestially aligned architecture and horse domestication Examining evidence from ancient America the authors reveal how Denisovan hybrids became the elite of the Adena mound building culture explaining the giant skeletons found in Native American burial mounds The authors also explore how the Denisovans descendants were the creators of a cosmological death journey and viewed the Milky Way as the Path of Souls Revealing the impact of the Denisovans upon every part of the world the authors show that without early man s hybridization with Denisovans Neanderthals and other yet to be discovered hominid populations the modern world as we know it would not exist     Black Cowboys of Rodeo Keith Ryan Cartwright,2021-11 Black Cowboys of Rodeo is a collection of one hundred years worth of firsthand cowboy stories set against the backdrop of Reconstruction Jim Crow segregation the civil rights movement and eventually the integration of a racially divided country     *Sound-Blind* Alex Benson,2023-11-14 In the 1880s a new medical term flashed briefly into public awareness in the United States Children who had trouble distinguishing between similar speech sounds were said to suffer from sound blindness The term is now best remembered through anthropologist Franz Boas whose work deeply influenced the way we talk about cultural difference In this fascinating work of literary and cultural history Alex Benson takes the concept as an opening onto other stories of listening writing and power stories that expand our sense of how a syllable a word a gesture or a song can be put into print and why it matters Benson interweaves ethnographies memoirs local color stories modernist novels silent film scripts and more Taken together these seemingly disparate texts by writers including John M Oskison Helen Keller W E B Du Bois F Scott Fitzgerald and Elsie Clews Parsons show that the act of transcription never neutral is conditioned by the histories of race land and ability By carefully tracing these conditions Benson argues we can tease out much that has been left off the record in narratives of American nationhood and American literature     **The**

**Cygnus Key** Andrew Collins, 2018-05-15 New evidence showing that the earliest origins of human culture religion and technology derive from the lost world of the Denisovans Explains how G bekli Tepe and the Giza pyramids are aligned with the constellation of Cygnus and show evidence of enhanced sound acoustic technology Traces the origins of G bekli Tepe and the Giza pyramids to the Denisovans a previously unknown human population remembered in myth as a race of giants Shows how the ancient belief in Cygnus as the origin point for the human soul is as much as 45 000 years old and originally came from southern Siberia Built at the end of the last ice age around 9600 BCE G bekli Tepe in southeast Turkey was designed to align with the constellation of the celestial swan Cygnus a fact confirmed by the discovery at the site of a tiny bone plaque carved with the three key stars of Cygnus Remarkably the three main pyramids at Giza in Egypt including the Great Pyramid align with the same three stars But where did this ancient veneration of Cygnus come from Showing that Cygnus was once seen as a portal to the sky world Andrew Collins reveals how at both sites the attention toward this star group is linked with sound acoustics and the use of musical intervals discovered thousands of years later by the Greek mathematician Pythagoras Collins traces these ideas as well as early advances in human technology and cosmology back to the Altai Baikal region of Russian Siberia where the cult of the swan flourished as much as 20 000 years ago He shows how these concepts including a complex numeric system based on long term eclipse cycles are derived from an extinct human population known as the Denisovans Not only were they of exceptional size the ancient giants of myth but archaeological discoveries show that this previously unrecognized human population achieved an advanced level of culture including the use of high speed drilling techniques and the creation of musical instruments The author explains how the stars of Cygnus coincided with the turning point of the heavens at the moment the Denisovan legacy was handed to the first human societies in southern Siberia 45 000 years ago catalyzing beliefs in swan ancestry and an understanding of Cygnus as the source of cosmic creation It also led to powerful ideas involving the Milky Way s Dark Rift viewed as the Path of Souls and the sky road shamans travel to reach the sky world He explores how their sound technology and ancient cosmologies were carried into the West flowering first at G bekli Tepe and then later in Egypt s Nile Valley Collins shows how the ancient belief in Cygnus as the source of creation can also be found in many other cultures around the world further confirming the role played by the Denisovan legacy in the genesis of human civilization
