*of Expansion* Whitelaw Reid delves into the geopolitical and economic complexities that arose during America's late 19th  
century imperial ventures This critical work examines the motivations behind territorial acquisitions particularly in the  
context of the Spanish American War and the annexation of territories such as Puerto Rico and the Philippines Reid's prose is  
both analytical and evocative drawing from a wealth of contemporary discourse while positioning the text within the larger  
narrative of American expansionism probing its ethical implications and societal impact A prominent journalist and editor  
Whitelaw Reid's insights are informed by his extensive experience in politics and diplomacy His tenure as the U S  
ambassador to France and editor of the influential New York Tribune afforded him a unique perspective on the national  
psyche and foreign relations Reid's engagement with America's burgeoning role on the world stage is not merely an  
academic pursuit but a deeply personal reflection on his observations of an evolving nation grappling with its identity and  
responsibilities For those interested in American history international relations and the moral questions surrounding  
colonialism *Problems of Expansion* serves as a vital exploration Reid's arguments encourage readers to critically engage with

growth and strengthening of a social consciousness It is this chiefly that has differentiated the modern library from its  
predecessors and has made prominent our present insistence on the reader as well as the book as a fundamental element in  
what we are doing At first evident only in a general and somewhat vague recognition by writers and speakers of a vital

relation between libraries and the communities that they serve it later crystallized into definite discussions of their reciprocal service that of the community to the library consisting of financial material and moral support expressing itself partly in the appointment of adequate boards of trustees and their proper backing and that of the library to the community showing itself largely in the provision of books the collection of information the control and guidance of reading and so called community centre service These facts have guided the grouping and sequence of the papers and addresses that make up the present volume The authors it will be noticed include more statesmen publicists and professional men and fewer librarians than was the case with the two previous volumes thus reflecting the greater generality and wider interest of the subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
