## **Parading Through History The Making Of The Crow Nation In America 1805 1935:**

*Parading Through History* Frederick E. Hoxie, 1995 Exploring the links between the nineteenth century nomadic life of the Crow Indians and their modern existence this book demonstrates that dislocation and conquest by outsiders drew the Crows together by testing their ability to adapt their traditions to new conditions Parading Through History Frederick E. Hoxie, 1995 Restoring a Presence Peter Nabokov, Lawrence Loendorf, 2016-01-18 Placing American Indians in the center of the story *Restoring a Presence* relates an entirely new history of Yellowstone National Park Although new laws have been enacted giving American Indians access to resources on public lands Yellowstone historically has excluded Indians and their needs from its mission Each of the other flagship national parks Glacier Yosemite Mesa Verde and Grand Canyon has had successful long term relationships with American Indian groups even as it has sought to emulate Yellowstone in other dimensions of national park administration In the first comprehensive account of Indians in and around Yellowstone Peter Nabokov and Lawrence Loendorf seek to correct this administrative disparity Drawing from archaeological records Indian testimony tribal archives and collections of early artifacts from the Park the authors trace the interactions of nearly a dozen Indian groups with each of Yellowstone's four geographic regions *Restoring a Presence* is illustrated with historical and contemporary photographs and maps and features narratives on subjects ranging from traditional Indian uses of plant mineral and animal resources to conflicts involving the Nez Perce Bannock and Sheep Eater peoples By considering the many roles Indians have played in the complex history of the Yellowstone region authors Nabokov and Loendorf provide a basis on which the National Park Service and other federal agencies can develop more effective relationships with Indian groups in the Yellowstone region Contact Points Andrew Cayton, Fredrika J. Teute, 2012-12-01 The eleven essays in this volume probe multicultural interactions between Indians Europeans and Africans in eastern North America's frontier zones from the late colonial era to the end of the early republic Focusing on contact points between these groups they construct frontiers as creative arenas that produced new forms of social and political organization Contributors to the volume offer fresh perspectives on a succession of frontier encounters from the era of the Seven Years War in Pennsylvania New York and South Carolina to the Revolutionary period in the Ohio Valley to the Mississippi basin in the early national era Drawing on ethnography cultural and literary criticism border studies gender theory and African American studies they open new ways of looking at intercultural contact in creating American identities Collectively the essays in *Contact Points* challenge ideas of either acculturation or conquest highlighting instead the complexity of various frontiers while demonstrating their formative influence in American history The contributors are Stephen Aron Andrew R L Cayton Gregory E Dowd John Mack Faragher William B Hart Jill Lepore James H Merrell Jane T Merritt Lucy Eldersveld Murphy Elizabeth A Perkins Claudio Saunt and Fredrika J Teute *Reimagining Indian Country* Nicolas G. Rosenthal, 2012-05-15 For decades most American Indians have lived in cities not on reservations or in rural areas Still scholars policymakers and popular culture often regard Indians first

as reservation peoples living apart from non Native Americans In this book Nicolas Rosenthal reorients our understanding of the experience of American Indians by tracing their migration to cities exploring the formation of urban Indian communities and delving into the shifting relationships between reservations and urban areas from the early twentieth century to the present With a focus on Los Angeles which by 1970 had more Native American inhabitants than any place outside the Navajo reservation *Reimagining Indian Country* shows how cities have played a defining role in modern American Indian life and examines the evolution of Native American identity in recent decades Rosenthal emphasizes the lived experiences of Native migrants in realms including education labor health housing and social and political activism to understand how they adapted to an urban environment and to consider how they formed and continue to form new identities Though still connected to the places where indigenous peoples have preserved their culture Rosenthal argues that Indian identity must be understood as dynamic and fully enmeshed in modern global networks

**The Middle Ground** Richard White, 2010-11-01 An acclaimed book and widely acknowledged classic *The Middle Ground* steps outside the simple stories of Indian white relations stories of conquest and assimilation and stories of cultural persistence It is instead about a search for accommodation and common meaning It tells how Europeans and Indians met regarding each other as alien as other as virtually nonhuman and how between 1650 and 1815 they constructed a common mutually comprehensible world in the region around the Great Lakes that the French called *pays d'en haut* Here the older worlds of the Algonquians and of various Europeans overlapped and their mixture created new systems of meaning and of exchange Finally the book tells of the breakdown of accommodation and common meanings and the re creation of the Indians as alien and exotic First published in 1991 the 20th anniversary edition includes a new preface by the author examining the impact and legacy of this study

*My Heart Is Bound Up with Them* David Martínez, 2023-02-21 Centering historically neglected Indigenous voices as its primary source material author David Martínez shows how Carlos Montezuma's correspondence and interactions with his family and their community influenced his advocacy and how his important work in Arizona specifically motivated his work on a national level

**Tribal Worlds** Brian Hosmer, Larry Nesper, 2013-05-01 *Tribal Worlds* considers the emergence and general project of indigenous nationhood in several geographical and historical settings in Native North America Ethnographers and historians address issues of belonging peoplehood sovereignty conflict economy identity and colonialism among the Northern Cheyenne and Kiowa on the Plains several groups of the Ojibwe the Makah of the Northwest and two groups of Iroquois Featuring a new essay by the eminent senior scholar Anthony F C Wallace on recent ethnographic work he has done in the Tuscarora community as well as provocative essays by junior scholars *Tribal Worlds* explores how indigenous nationhood has emerged and been maintained in the face of aggressive efforts to assimilate Native peoples

**American Nations** Frederick Hoxie, Peter Mancall, James Merrell, 2020-11-25 This volume brings together an impressive collection of important works covering nearly every aspect of early Native American history from contact and exchange to diplomacy religion warfare and

disease      **American Indians in the Marketplace** Brian C. Hosmer,1999 Although it is usually assumed that Native Americans have lost their cultural identity through modernization some peoples have proved otherwise Brian Hosmer explores what happened when cultural identity and economic opportunity converged among two Native American communities that used community based industries to both generate income and sustain their cultures Comparing a lumber business run by the Menominees of Wisconsin and a salmon cannery established by British Columbian and Alaskan Tsimshian communities known as Metlakatla Hosmer reveals how each tribe responded to market and political forces over fifty years Hosmer s innovative ethnohistory recounts how these Indians used the marketplace to maintain their distinctiveness to a far greater extent than those who became wage earners in the white man s world Hosmer shows that by selectively incorporating elements of American capitalism into their cultural lives the Menominees and Metlakatlans came to view modernization less as a threat to their tribal life than as a means for maintaining their independence These tribes embraced the same market accused of hastening the demise of native societies and became comparatively successful in American terms even as they both honored fundamental values and forged new cultural identities Over time these peoples came to understand how the market worked recognized that the broader economy operated according to market principles and learned how to adjust to it Hosmer reveals how their strategies of purposeful modernization brought relative economic independence and sometimes the respect and cooperation of local and federal governments how it helped chart a middle course between unchecked individuality and a communal ethos that might stifle economic development and how economic development and cultural values ultimately affected one another American Indians in the Marketplace is a story of adaptation that acknowledges the hardship and suffering common to most Indian white contact while emphasizing the benefits of selective modernization accompanied by a constant re invention of tradition It questions the victim thesis of Native American history and shows that native peoples can meet the challenges of surviving in the larger world      **The Yale Indian** Joel Pfister,2009-06-12 A biography of Henry Roe Cloud c 1884 1950 a Winnebago educator scholar and minister who was one of the most renowned Native Americans of his time      Ghost Dances and Identity Gregory E. Smoak,2008-03-11 This is a compellingly nuanced and sophisticated study of Indian peoples as negotiators and shapers of the modern world Richard White author of The Middle Ground Indians Empires and Republics in the Great Lakes Region 1650 1815      Brave Hearts Joseph Agonito,2016-10-01 Brave Hearts Indian Women of the Plains tells the story of Plains Indian women through a series of fascinating vignettes They are a remarkable group of women some famous some obscure Some were hunters some were warriors and in a rare case one was a chief some lived extraordinary lives while others lived more quietly in their lodges Some were born into traditional families and knew their place in society while others were bi racial who struggled to find their place in a world conflicted between Indian and white Some never knew anything but the old nomadic way of life while others lived on to suffer through the reservation years Others were born on the reservation but did their best in difficult

times to keep to the old ways Some never left the reservation while others ventured out into the larger world All in their own way were Plains Indian women Indian Metropolis James B. LaGrand,2002 More than an outgrowth of public policy implemented by the Bureau of Indian Affairs the exodus of American Indians from reservations to cities was linked to broader patterns of social and political change after World War II Indian Metropolis places the Indian people within the context of many of the twentieth century s major themes including rural to urban migration the expansion of the wage labor economy increased participation in and acceptance of political radicalism and growing interest in ethnic nationalism Jacket

*Religion and the American Experience* , Swift s ten chapters cover a wide variety of topics from religion in the early republic to early African American religion women reform nativism movements and fundamentalism all the way up to the contemporary culture wars spanning nearly two and a half centuries and synthesizing a large amount of material from social cultural and intellectual history **Getting Good Crops** Robert J. Bigart,2012-10-11 In 1870 the Bitterroot Salish Indians called Flatheads by the first white explorers to encounter them were a small tribe living on the western slope of the Northern Rocky Mountains in Montana Territory Pressures on the Salish were intensifying during this time from droughts and dwindling resources to aggressive neighboring tribes and Anglo American expansion In 1891 the economically impoverished Salish accepted government promises of assistance and retreated to the Flathead Reservation more than sixty miles from their homeland In *Getting Good Crops* Robert J Bigart examines the full range of available sources to explain how the Salish survived into the twentieth century despite their small numbers their military disadvantages and the aggressive invasion of white settlers who greedily devoured their land and its natural resources Bigart argues that a key to the survival of the Salish from the early nineteenth century onward was their diplomatic agility and willingness to form strategic alliances and friendships with non Salish peoples In doing so the Salish navigated their way through multiple crises relying more on their wits than on force The Salish also took steps to sustain themselves economically Although hunting and gathering had been their mainstay for centuries the Salish began farming getting good crops to feed themselves because buffalo were becoming increasingly scarce Raised on the Flathead Reservation himself the author is seeking to convey the Salish story from their perspective despite the paucity of written Salish testimony What emerges is a picture both inspiring and heartbreaking of a people maintaining autonomy against all odds Jay Cooke's Gamble M. John Lubetkin,2014-04-23 In 1869 Jay Cooke the brilliant but idiosyncratic American banker decided to finance the Northern Pacific a transcontinental railroad planned from Duluth Minnesota to Seattle M John Lubetkin tells how Cooke s gamble reignited war with the Sioux rescued George Armstrong Custer from obscurity created Yellowstone Park pushed frontier settlement four hundred miles westward and triggered the Panic of 1873 Staking his reputation and wealth on the Northern Pacific Cooke was soon whipsawed by the railroad s mismanagement questionable contracts and construction problems Financier J P Morgan undermined him and the Credit Mobilier scandal ended congressional support When railroad surveyors and army escorts ignored Sioux chief Sitting

Bull's warning not to enter the Yellowstone Valley Indian attacks combined with alcoholic commanders led to embarrassing setbacks on the field in the nation's press and among investors. Lubetkin's suspenseful narrative describes events played out from Wall Street to the Yellowstone and vividly portrays the soldiers, engineers, businessmen, politicians, and Native Americans who tried to build or block the Northern Pacific.

*Radical Hope* Jonathan Lear, 2009-06-30 Shortly before he died, Plenty Coups, the last great Chief of the Crow Nation, told his story up to a certain point. When the buffalo went away, the hearts of my people fell to the ground, he said, and they could not lift them up again. After this, nothing happened. It is precisely this point that of a people faced with the end of their way of life that prompts the philosophical and ethical inquiry pursued in *Radical Hope*. In Jonathan Lear's view, Plenty Coups's story raises a profound ethical question that transcends his time and challenges us all: how should one face the possibility that one's culture might collapse? This is a vulnerability that affects us all insofar as we are all inhabitants of a civilization, and civilizations are themselves vulnerable to historical forces. How should we live with this vulnerability? Can we make any sense of facing up to such a challenge courageously? Using the available anthropology and history of the Indian tribes during their confinement to reservations and drawing on philosophy and psychoanalytic theory, Lear explores the story of the Crow Nation at an impasse as it bears upon these questions and these questions as they bear upon our own place in the world. His book is a deeply revealing and deeply moving philosophical inquiry into a peculiar vulnerability that goes to the heart of the human condition.

*Native American Voices* Susan Lobo, Steve Talbot, Traci Morris Carlston, 2016-02-19 This unique reader presents a broad approach to the study of American Indians through the voices and viewpoints of the Native Peoples themselves. Multi-disciplinary and hemispheric in approach, it draws on ethnography, biography, journalism, art, and poetry to familiarize students with the historical and present-day experiences of native peoples and nations throughout North and South America, all with a focus on themes and issues that are crucial within Indian Country today. **Caging Borders and Carceral States** Robert T. Chase, 2019-04-09 This volume considers the interconnection of racial oppression in the U.S. South and West, presenting thirteen case studies that explore the ways in which citizens and migrants alike have been caged, detained, deported, and incarcerated, and what these practices tell us about state building, converging and coercive legal powers, and national sovereignty. As these studies depict the institutional development and state scaffolding of overlapping carceral regimes, they also consider how prisoners and immigrants resisted such oppression and violence by drawing on the transnational politics of human rights and liberation, transcending the isolation of incarceration, detention, deportation, and the boundaries of domestic law. Contributors: Dan Berger, Ethan Blue, George T. Diaz, David Hernandez, Kelly Lytle Hernandez, Pippa Holloway, Volker Janssen, Talitha L. LeFlouria, Heather McCarty, Douglas K. Miller, Vivien Miller, Donna Murch, and Keramet Ann Reiter.
