Paradise Lost And The Rise Of The American Republic:

Paradise Lost and the Rise of the American Republic Lydia Dittler Schulman, 1992 Schulman argues that an important overlooked key to uncovering the social and political subtext of Milton's 1608-1674 epic is its popularity and use in the early American republic. At the same time she demonstrates that an examination of the American reception of *Paradise Lost* contributes to an understanding of the ideological origins of the American Revolution. Contemporary African-American Fiction, Volume 1 Jeff Soloway, 2019-02-01 Contemporary African American Fiction Volume 1 is a collection of scholarly essays and recent reviews of the best of contemporary African American literary fiction including the following titles: *A Mercy* by Toni Morrison, *The Underground Railroad* by Colson Whitehead, *The Mothers* by Brit Bennett, *Homegoing* by Yaa Gyasi, *Sing Unburied* by Jesmyn Ward

Milton Reinvented David Booker, 2024-11-16 This book focuses on the cultural reception of Milton and his works in nineteenth-century America. Using reception theory, the work analyzes the contributions of Milton and his writings to demonstrate how major social movements appropriated him in ways that reinvent him, making him what Margaret Fuller called emphatically American. The book centers on Milton's influence on the movements focused on the development of American Christianity, abolition, and women's suffrage. Each group approaches his writings with different horizons of expectations determined in part by the social problems they address. Each has unique ways of disseminating and consuming information about Milton and his writings, sometimes determined by how readers in different geographical locations read him. And each debate makes extensive use of American periodicals of the period, revealing critical information about how Milton's writings were disseminated and deployed. Milton's presence in these debates helped shape American society at the time and provides proof for us of how Milton can remain relevant in the issues faced by Americans in our day

Atlantic Circulations Edward Holberton, 2025-04-02 *Atlantic Circulations* investigates literary conversations about empire in the British Atlantic world, c. 1650-1750. Reading texts by Anne Bradstreet, John Milton, Daniel Defoe, and Benjamin Franklin, as well as writing by overlooked authors who deserve more attention, such as the Quaker anti-slavery activist Benjamin Lay and the Black classicist Francis Williams, it asks how literary culture interacted with transatlantic debates about law, enslavement, economics, and religious freedom. This study explores the relationship between literature and empire by joining up disciplinary areas: Early Modern English Literature and Early American Literature, which are often considered apart. It develops insights and analytical frameworks from recent British and Atlantic World history to argue that the transatlantic reception of literary texts was often shaped by archipelagic dynamics, political and religious

tensions between and within England and Wales and Scotland and Ireland *Atlantic Circulations* examines several previously unknown manuscripts and archives which throw new light on the circulation of literary texts in colonial culture and reconstructs key Anglophone transatlantic cultural debates during a crucial phase of European expansion in the Atlantic world This book will appeal to advanced students and academic researchers of early modern and eighteenth century English literature and British cultural history especially readers with an interest in literature's relationships with empire colonialism and travel and scholars of early American literature and history

Writing the Environment in Nineteenth-Century American Literature Steven Petersheim, Madison Jones IV, 2015-09-17 The nineteenth century roots of environmental writing in American literature are often mentioned in passing and sometimes studied piece by piece *Writing the Environment in Nineteenth Century American Literature: The Ecological Awareness of Early Scribes of Nature* brings together numerous explorations of environmentally aware writing across the genres of nineteenth century literature Like Lawrence Buell the authors of this collection find Thoreau's writing a touchstone of nineteenth century environmental writing particularly focusing on Thoreau's claim that humans may function as scribes of nature However these studies of Thoreau's antecedents contemporaries and successors also reveal a range of other writers in the nineteenth century whose literary treatments of nature are often more environmentally attuned than most readers have noticed The writers whose works are studied in this collection include canonical and forgotten writers men and women early nineteenth century and late nineteenth century authors pioneers and conservationists They drew attention to the conflicted relationships between humans and the American continent as experienced by Native Americans and European Americans Taken together these essays offer a fresh perspective on the roots of environmental literature in nineteenth century American nonfiction fiction and poetry as well as in multi genre compositions such as the travel writings of Margaret Fuller Bringing largely forgotten voices such as John Godman alongside canonical voices such as Nathaniel Hawthorne Herman Melville Walt Whitman and Emily Dickinson the authors whose writings are studied in this collection produced a diverse tapestry of nascent American environmental writing in the nineteenth century From early nineteenth century writers such as poet Philip Freneau and novelist Charles Brockden Brown to later nineteenth century conservationists such as John James Audubon and John Muir *Scribes of Nature* shows the development of an environmental consciousness and a growing conservationist ethos in American literature Given their often surprisingly healthy respect for the natural environment these nineteenth century writers offer us much to consider in an age of environmental crisis The complexities of the supposed nature culture divide still work into our lives today as economic and environmental issues are often seen at loggerheads when they ought to be seen as part of the same conversation of what it means to live healthy lives and to pass on a healthy world to those who follow us in a world where human activity is becoming increasingly threatening to the health of our planet

The Cambridge Companion to Writing of the English Revolution N. H. Keeble, 2001-09-17 This collection of fifteen essays by leading scholars examines the extraordinary

diversity and richness of the writing produced in response to and as part of the upheaval in the religious political and cultural life of the nation which constituted the English Revolution The turmoil of the civil wars fought out from 1639 to 1651 the shock of the execution of Charles I and the uncertainty of the succeeding period of constitutional experiment were enacted and refigured in writing which both shaped and was shaped by the tumultuous times The various strategies of this battle of the books are explored through essays on the course of events intellectual trends and the publishing industry in discussions of canonical figures such as Milton Marvell Bunyan and Clarendon and in accounts of women s writing and of fictional and non fictional prose A full chronology detailed guides to further reading and a glossary are included *The Mind of the Master Class* Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 The Mind of the Master Class tells of America s greatest historical tragedy It presents the slaveholders as men and women a great many of whom were intelligent honorable and pious It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society Blending classical and Christian traditions they forged a moral and political philosophy designed to sustain conservative principles in history political economy social theory and theology while translating them into political action Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours beginning with the virtues and failings of their own society and culture Handbook of English Renaissance Literature Ingo

Berensmeyer, 2019-10-08 This handbook of English Renaissance literature serves as a reference for both students and scholars introducing recent debates and developments in early modern studies Using new theoretical perspectives and methodological tools the volume offers exemplary close readings of canonical and less well known texts from all significant genres between c 1480 and 1660 Its systematic chapters address questions about editing Renaissance texts the role of translation theatre and drama life writing science travel and migration and women as writers readers and patrons The book will be of particular interest to those wishing to expand their knowledge of the early modern period beyond Shakespeare

Journal of the American Society for Information Science American Society for Information Science, 1996 **Milton at Monticello** Kemmer Anderson, 2019-10-15 Milton at Monticello focuses on how Thomas Jefferson read John Milton s political tracts Paradise Lost and Samson Agonistes While examining Jefferson s Thoughts on English Prosody and entries from his Literary Commonplace Book I listened for echoes between Jefferson and Milton Through the lens of Lycidas and Sonnet 23 I probe how Jefferson lived with grief With the intuition of a poet I approached these icons of Liberty and Reason with an imaginative ear for the making and keeping of a Republic In his work Kemmer Anderson shines a light on the subtle kinship of these two great figures who with their powers shouldered not only their own times but considerable futures He offers the reader a thoughtful nexus for the spirit of their gifts Lawrence Mathis poet architect **Antiformalist,**

Unrevolutionary, Illiberal Milton William Walker, 2016-04-15 On the basis of a close reading of Milton's major published political prose works from 1644 through to the Restoration William Walker presents the anti-formalist unrevolutionary illiberal Milton Walker shows that Milton placed his faith not so much in particular forms of government as in statesmen he deemed to be virtuous He reveals Milton's profound aversion to socio-political revolution and his deep commitments to what he took to be orthodox religion He emphasises that Milton consistently presents himself as a champion not of heterodox religion but of reformation He observes how Milton's belief that all men are not equal grounds his support for regimes that had little popular support and that did not provide the same civil liberties to all And he observes how Milton's powerful commitment to a single religion explains his endorsement of various English regimes that persecuted on grounds of religion This reading of Milton's political prose thus challenges the current consensus that Milton is an early modern exponent of republicanism revolution radicalism and liberalism It also provides a fresh account of how the great poet and prose polemicist is related to modern republics that think they have separated church and state

Sword of the Spirit, Shield of Faith Andrew Preston, 2012-02-28 A first major work of history on a crucial but under-examined topic *Sword of the Spirit, Shield of Faith* explores the role of religion in American foreign policy From the first colonists to the presidents of the 21st Century Andrew Preston's unparalleled study shows us how religion has always shaped America's relationships with other nations and what to expect in the future During the presidency of George W. Bush many Americans and others around the world viewed the entrance of religion into foreign policy discourse especially with regard to the wars in Iraq and Afghanistan as a new development But despite the official division between church and state the presence of religion in American foreign policy has been a constant since before the Founding Fathers Yet aside from leaders known to be personally religious such as Bush Jimmy Carter and Woodrow Wilson few realize how central faith has always been to American governance and diplomacy and indeed to the idea of America itself In *Sword of the Spirit, Shield of Faith* Andrew Preston starts at the beginning and with revelatory findings shows us how and why

Writing and Postcolonialism in the Early Republic Edward Watts, 1998 *Writing and Postcolonialism in the Early Republic* is the first book-length analysis of early American literature through the lens of postcolonial theory Although the United States represented a colonizing presence that displaced indigenous peoples and exported imperial culture American colonists also found themselves exiled often exploited and abused by the distant metropolitan center In this innovative book Edward Watts demonstrates how American post-Revolutionary literature exhibits characteristics of a post-colonial society

The Land Without Promise Katerina Koci, 2021-07-29 Katerina Koci charts the development of the promised land motif starting from its biblical roots and examining its reception over the centuries until the present day As her cornerstone Koci uses Hans Georg Gadamer's claim that there are two complementary paths towards understanding and knowledge science and art Thus to be faithful to the creed of the great hermeneutist Koci ventures into both topics arguing that while science sets out historical critical analysis

of the promised land motif in the Hebrew Bible and its later receptions art enriches the interpretation with its literary illustrations This volume places particular focus on American contexts since the concept of the promised land is so deeply intertwined with American religious political mythologies and with the art of John Steinbeck and Walter Brueggemann in particular By discussing artistic interpretation in biblical hermeneutics the context and reception of Genesis 15 7 and Exodus 3 8 in the Hebrew Bible and New Testament and the history of the promised land motif and its interpretations Koci argues that artistic receptions of biblical motifs are crucial for biblical scholarship in opening new hermeneutical and thematic horizons

Toni Morrison's A Mercy Shirley A. Stave, Justine Tally, 2011-08-08 Toni Morrison's ninth novel A Mercy has been received with much acclaim by both the critical and lay reading public Hailed as her best novel after the award winning Beloved most critics to date have concentrated on its setting in the late seventeenth century a time in which according to the author herself slavery was pre racial a time before the Terrible Transformation irrevocably linked slavery to skin color or race Though a slender easy to read novel A Mercy is in fact a richly layered text full of multiple meanings and possibilities a work of art that has only just begun to be mined for its critical import The present volume is the first to deal with these possibilities presenting a variety of critical approaches that include narrative theory the eco critical the geographical the allegorical the Miltonian the feminist the metaphorical and the Lacanian As such not only is it conceived to enrich the work of Morrison scholars and students but also to illuminate the use of critical theory in elucidating a complex literary text A Mercy clamors for close reading and thoughtful interrogation and promises to reward the perceptive reader

Lectures on Religion and the Founding of the American Republic John Woodland Welch, Stephen J. Fleming, 2003

Immortality and the Body in the Age of Milton John Rumrich, Stephen M. Fallon, 2018-03 A collection examining representations of the embodied self in the writings of Milton and his contemporaries

The End of Learning Thomas Festa, 2013-09-13 This book shows that education constitutes the central metaphor of John Milton's political as well as his poetic writing Demonstrating how Milton's theory of education emerged from his own practices as a reader and teacher this book analyzes for the first time the relationship between Milton's own material habits as a reader and his theory of the power of books Milton's instincts for pedagogy and the habits of inculcation everywhere visible in his writings take on a larger political function in his use of education as a trope for the transmission of intellectual history The book therefore analyzes Paradise Lost in the complementary contexts of its outright educational claims and more subversive countervailing measures in order to show how Milton dramatizes the end of learning which is to say both its objective and its failure The thesis emphasizes the argumentative resourcefulness of Milton's efforts to liberate readers from the tyrannical bonds of their political innocence most immediately in the context of the failure of Cromwell's regime to establish lasting republican institutions More philosophically the book explores the ways in which Milton's works investigate the humane and intellectual yearning for justice in response to the problem of evil
