Paradise Mislaid In Search Of The Australian Tribe Of Paraguay:

Paradise Mislaid Anne Whitehead, 2021 Part history part travelogue all riveting story *Paradise Mislaid* is historian Anne Whitehead's award winning account of her quest to discover the story of the 500 idealistic Australians who attempted to establish a socialist Utopia in the jungles of Paraguay at the end of the nineteenth century One of the most bizarre stories in Australian history splendidly told by one of our master story tellers Frank Moorhouse An exhaustive yet entertaining piece of historical detective work which is at once authoritative scholarly and delightfully chatty due to Whitehead's own indefatigable physical adventures it's also a travel adventure to rival Bruce Chatwin's wanderings *The Leader* A superb blend of travel writing and history during which Whitehead casts her discerning eye on the present with pertinent excursions to the past This personal odyssey has resulted in a wonderful rambunctious passionate picaresque narrative that combines meticulous research with compelling personal stories and acute observation One is swept irresistibly along *Tim Bowden* Sydney Morning Herald First published in 1997 *Paradise Mislaid* won the New South Wales Premier's History Award in 1998 and was also shortlisted for the Nita Kibble Literary Award that same year The companion volume *Bluestocking in Patagonia* is also part of the Untapped Collection

The Workingman's Paradise William Lane, 2009 Introduction by Andrew McCann *The Workingman's Paradise* is

set in the context of the defeat of the shearers and maritime strikes of the early 1890s. The novel is essential reading for an appreciation of the context of the rise of the union movement in Australia. This new edition of *The Workingman's Paradise* with an introduction by Andrew McCann is a part of the Australian Classics Library series intended to make classic texts of Australian literature more widely available for the secondary school and undergraduate university classroom and to the general reader. The series is co-edited by Emeritus Professor Bruce Bennett of the University of New South Wales and Professor Robert Dixon, Professor of Australian Literature at the University of Sydney in conjunction with SETIS Sydney University Press, AustLit and the Copyright Agency Limited. Each text is accompanied by a fresh scholarly introduction and a basic editorial apparatus drawn from the resources of AustLit.

William Lane was born in Bristol, England, in 1861 and died in Auckland, New Zealand, in 1917. In 1885 he migrated to Australia, settling in Brisbane and working as a journalist for several newspapers. He became increasingly involved in the trade union movement, advocating the New Unionism extension of the movement into non-skilled non-craft areas to form a united body of the working class. He was influential in the formation of the Queensland Australian Labour Federation (ALF). When the ALF formed a new paper, *The Worker*, Lane became the editor and aimed to direct the union movement beyond strictly wage and employment concerns to a wider political program of socialism. Following recession and the defeat of many union campaigns, Lane worked to establish a communist utopian settlement in Paraguay in 1893. He wrote using a number of pseudonyms, including John Miller for *The Workingman's Paradise*.

Paradise Misland Anne Whitehead, 1997 No Marketing Blurb Rose Summerfield: Australian Radical Steve J. Shone, 2022-02-21

Rose Summerfield, Australian Radical, outlines the largely forgotten achievements of this overlooked labor union activist and socialist sympathetic to anarchist, feminist, and secularist ideas: a dynamic speaker who eventually emigrated to Paraguay to live on a utopian commune called Cosme. In this first book-length study of Summerfield, Shone supplements existing scholarship with new information, revealing to a much fuller extent Summerfield's contributions to radical thought, documenting the substantial scope of her contributions to women's rights activism in New South Wales in the 1890s, a topic that has previously been almost completely ignored.

Language Competition and Shift in New Australia, Paraguay Danae Perez, 2019-10-24

This book is an innovative sociolinguistic study of New Australia, an Australian immigrant community in Paraguay in 1893 whose descendants today speak Guaraní. Providing fresh data on a previously under-researched community who are an extremely rare case of language shifting from English heritage language to a local indigenous language, the case study is situated within the wider context of the colonial and post-colonial spread of English in Latin America. Drawing on insights from linguistic anthropology, sociolinguistics, Latin American studies, and history, the author presents the history of the colony before closely analysing the interplay of language and identity in this uniquely diasporic setting. This book fills a longstanding gap in the World Englishes and heritage languages literature and it will be of interest to scholars of colonial and postcolonial languages and minority language more generally.

Lost

Worlds Kevin Foster, 2009-09-07 Think of Latin America and what do you see Escape Adventure Chaos Oblivion Lost Worlds explores how these stereotypes came into being and what they tell us about ourselves Examining a range of texts from Southey's epics to Naipaul's essays from Conan Doyle's gentlemen adventurers to Kerouac's restless hipsters this book reveals the role that Latin America has played in British US and Australian endeavours in the nineteenth and twentieth centuries Over the last 200 years Latin America has served the West as an imaginary realm where its highest hopes and deepest anxieties might be realised *Contemporary Issues in Australian Literature* David Callahan, 2014-02-25 The contemporary study of Australian literature ranges widely across issues of general cultural studies the politics of identity both ethnic and gendered and the position of Australia within wider postcolonial contexts This volume intervenes in the most significant of issues in these areas from a variety of international perspectives **Utopias and Utopians** Richard C.S. Trahair, 2013-10-31 Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth Utopias and Utopians is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume **Utopianism for a Dying Planet** Gregory Claeys, 2024-12-10 How the utopian tradition offers answers to today's environmental crises In the face of Earth's environmental breakdown it is clear that technological innovation alone won't save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C 2.7F will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet's destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it Imagined Australia Renata Summo-O'Connell, 2009 From Terra Nullius to

Land of Opportunities and Last Frontier the European dream has constructed and deconstructed Australia to feed its imagination of new societies At the same time Australia has over the last two centuries forged and re invented its own liaisons with Europe arguably to carve out its identity From the arts to social sciences to society itself a complex dynamic has grown between the two continents in ways that invite study and discussion A transnational research group has begun its collective investigation project of which this first volume is the outcome The book is a substantial multidisciplinary collection of current research and offers critical perspectives on culture literature and history around themes at the heart of the Imagined Australia project The essays instigate reflection discovery and discussion of how reciprocal imagining between Australia and Europe has articulated itself and ways and dimensions in which a relationship between communities imagined and not has unfolded *The World Turned Inside Out* Lorenzo Veracini, 2021-09-21 A history and theory of settler colonialism and social control Many would rather change worlds than change the world The settlement of communities in empty lands somewhere else has often been proposed as a solution to growing contradictions While the lands were never empty sometimes these communities failed miserably and sometimes they prospered and grew until they became entire countries Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination this book uncovers and critiques an autonomous influential and coherent political tradition a tradition still relevant today It follows the ideas and the projects and the failures of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances those who wanted to protect endangered nationalities and those who intended to pre empt forthcoming revolutions of all sorts including civil and social wars They displaced and moved to other islands and continents beyond the settled regions to rural districts and to secluded suburbs to communes and intentional communities and to cyberspace This book outlines the global history of a resilient political idea to seek change somewhere else as an alternative to embracing or resisting transformation where one is

APAIS 1999: Australian public affairs information service , **Contemporary Australian Literature** Nicholas Birns, 2015-12-01 Australia has been seen as a land of both punishment and refuge Australian literature has explored these controlling alternatives and vividly rendered the landscape on which they transpire Twentieth century writers left Australia to see the world now Australia s distance no longer provides sanctuary But today the global perspective has arrived with a vengeance In *Contemporary Australian Literature A World Not Yet Dead* Nicholas Birns tells the story of how novelists poets and critics from Patrick White to Hannah Kent from Alexis Wright to Christos Tsiolkas responded to this condition With rancour concern and idealism modern Australian literature conveys a tragic sense of the past yet an abiding vision of the way forward Birns paints a vivid picture of a rich Australian literary voice one not lost to the churning of global markets but in fact given new life by it Contrary to the despairing of the critics Australian literary identity continues to flourish And as Birns finds it is not one thing but many In this remarkable bold and fearless book Nicholas Birns contests how literary cultures are

Empire, Colony, Genocide A. Dirk Moses, 2008-06-01 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population In this tradition Empire Colony Genocide embeds genocide in the epochal geopolitical transformations of the past 500 years the European colonization of the globe the rise and fall of the continental land empires violent decolonization and the formation of nation states It thereby challenges the customary focus on twentieth century mass crimes and shows that genocide and ethnic cleansing have been intrinsic to imperial expansion The complexity of the colonial encounter is reflected in the contrast between the insurgent identities and genocidal strategies that subaltern peoples sometimes developed to expel the occupiers and those local elites and creole groups that the occupiers sought to co opt Presenting case studies on the Americas Australia Africa Asia the Ottoman Empire Imperial Russia and the Nazi Third Reich leading authorities examine the colonial dimension of the genocide concept as well as the imperial systems and discourses that enabled conquest Empire Colony Genocide is a world history of genocide that highlights what Lemkin called the role of the human group and its tribulations

Australian Literary Studies ,1999

Invasive and Introduced Plants and Animals Ian D. Rotherham, Robert A. Lambert, 2012-12-06 There have been many well publicized cases of invasive species of plants and animals often introduced unintentionally but sometimes on purpose causing widespread ecological havoc Examples of such alien invasions include pernicious weeds such as Japanese knotweed an introduced garden ornamental which can grow through concrete the water hyacinth which has choked tropical waterways and many introduced animals which have out competed and displaced local fauna This book addresses the broader context of invasive and exotic species in terms of the perceived threats and environmental concerns which surround alien species and ecological invasions As a result of unprecedented scales of environmental change combined with rapid globalisation the mixing of cultures and diversity and fears over biosecurity and bioterrorism the known impacts of particular invasions have been catastrophic However as several chapters show reactions to some exotic species and the justifications for interventions in certain situations including biological control by introduced natural enemies rest uncomfortably with social reactions to ethnic cleansing and persecution perpetrated across the globe The role of democracy in deciding and determining environmental policy is another emerging issue In an increasingly multicultural society this raises huge questions of ethics and choice At the same time in order to redress major ecological losses the science of reintroduction of native species has also come to the fore and is widely accepted by many in nature conservation However with questions of where and when and with what species or even species analogues reintroductions are acceptable the topic is hotly debated Again it is shown that many decisions are based on values and perceptions rather than objective science Including a wide range of case studies from around the world his book

raises critical issues to stimulate a much wider debate
