Paradox Of Chinas Post Mao Reforms:

The Paradox of China's Post-Mao Reforms Merle Goldman, Roderick MacFarquhar, 1999 China's bold program of reforms launched in the late 1970s the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China's unprecedented economic boom Yet while the reforms made possible a rising standard of living for the majority of China's population they came at the cost of a weakening central government increasing inequalities and fragmenting society The essays of Barry Naughton Joseph Fewsmith Paul H B Godwin Murray Scot Tanner Lianjiang Li and Kevin J O'Brien Tianjian Shi Martin King Whyte Thomas P Bernstein Dorothy J Solinger David S G Goodman Kristen Parris Merle Goldman Elizabeth J Perry and Richard Baum and Alexei Shevchenko analyze the contradictory impact of China's economic reforms on its political system and social structure They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century *State and Society in China's Democratic Transition* Xiaoqin Guo, 2012-10-12 This book examines China's process of democratic transition and the role of state and society in this process

China's Automotive Modernization G. Chin, 2010-01-29 As a window for understanding the relationship between globalization and the state's pursuit of national industrial development this book examines how and why the Chinese government succeeded in leveraging China's international competitive advantages to modernize the country's automotive industry

The Changing Landscape of China's Consumerism Alison Hulme, 2014-07-02 Consumerism in China has developed rapidly The Changing Landscape of China's Consumerism looks at the growth of consumerism in China from both a socio-economic and a political-cultural angle It examines changing trends in consumption in China as well as the impact of these trends on society and the politics and culture surrounding them It examines the ways in which despite needing to unlock the spending power of the rural provinces the Chinese authorities are also keen to maintain certain attitudes towards the Communist Party and socialism with Chinese Characteristics Overall it aims to show that consumerism in China today is both an economic and political phenomenon and one which requires both surrounding political culture and economic trends for its continued establishment The ways in which this dual relationship both supports and battles with itself are explored through apposite case studies including the use of New Confucianism in the market context the commodification of Lei Feng the new Chinese tourist as a diplomatic tool in consumption the popularity of Shanzhai fake product culture and the conspicuous consumption of China's new middle class Provides innovative interdisciplinary research useful to cultural studies sociology Chinese studies and politics Examines changes in consumerism from multiple perspectives Allows both micro and macro insights into consumerism in China by providing specific case studies while placing these within the context of geo-politics and grand theory [The Subject in Crisis in Contemporary Chinese Literature](#) Rong Cai, 2004 During the 1980s 1990s the crippled agent who fails to realise the humanist autonomy

envisioned by post Mao theorists remained a common subject of Chinese literature Rong Cai studies the work of five contemporary writers assesses the reasons for the popularity of this subject **Chinese Politics** Daniel Lynch, Stanley Rosen, 2010-01-28 Written by a team of leading China scholars this text interrogates the dynamics of state power and legitimation in 21st Century China Despite the continuing economic successes and rising international prestige of China there has been increasing social protests over corruption land seizures environmental concerns and homeowner movements Such political contestation presents an opportunity to explore the changes occurring in China today what are the goals of political contestation how are Chinese Communist Party leaders legitimizing their rule who are the specific actors involved in contesting state legitimacy today and what are the implications of changing state society relations for the future viability of the People's Republic Key subjects covered include the legitimacy of the Communist Party internet censorship ethnic resistance rural and urban contention nationalism youth culture labour relations Chinese Politics is an essential read for all students and scholars of contemporary China as well as those interested in the dynamics of political and social change

China's capitalist transformation Yuan Li, 2023-12-31 This book provides a rare account of China's market reform in the own words of the Chinese politicians intellectuals the media and journalists The Chinese rhetoric complex ironic argumentative and abstruse may hold the key to understanding China's unique style of elite politics state citizen relationship and institutional development Topics include the establishment and change of the stock market and the recent institutionalization of the private equity industry Rhetoricizing the Chinese capitalist transformation provides a glimpse into how the Chinese minds work as Chinese people participate in the process of changing the country and themselves Adopting both an indigenous perspective and an outsider view on China this book serves as a guide for anyone interested in learning how Chinese reason persuade debate and resist **Sovereignty Under Challenge** Nathan Glazer, 2017-09-20 Sovereignty the authority of a state to wield ultimate power over its territory its citizens its institutions is everywhere undergoing change as states respond in various ways to the challenges posed from above and below Above the state is the widening net of international institutions and treaties dealing with human rights trade investment and monetary affairs and below it are rising claims within states from long resident groups discontented with the political order and from new migrants testing its authority Sovereignty under Challenge deals with a range of such challenges and responses analyzed in authoritative studies by leading scholars The introductory chapter sets forth the theme that sovereignty is asserted clearly but often unpredictably when governments respond to challenge It suggests ways of classifying these responses as variables that help explain the changing nature of sovereignty Part 1 The Citizen and the State treats the rising tide of dual citizenship and the concerns this arouses in the United States the work of national human rights commissions in Asia and the challenge posed to the state by the Falungong movement in China The two chapters in Part 2 The Government as Decision Maker examine Japan's response to global warming and the problems of the World Health Organization in orchestrating collaboration among

Southeast Asian states in implementing infectious disease control Part 3 Sovereignty and Culture looks at conflicts engendered by outside change on indigenous economic cultural and legal institutions in India Fiji Indonesia and Malaysia The chapters in Part 4 Sovereignty and the Economy analyze the economic and cultural instability induced by Chinese migration to Russia s far east the impact on state sovereignty brought about by transnational regulatory campaigns and social activism the question of indigenous land rights in the Philippines and the impact of transnational corporations on information technology in Asia A concluding chapter offers a global assessment of the current status of state sovereignty

Perry, Mark Selden, 2003-09-02 Written by an interdisciplinary and international team of Chinese scholars this book offers an authoritative analysis of contemporary Chinese society protest and resistance **The Making of the Chinese Middle**

Class Jean-Louis Rocca, 2016-11-07 This book analyses the making of the Chinese middle class that started in the 1990s using a constructivist approach With the development of the Chinese economy a new group of middle wage earners appeared Chinese social scientists and state institutions promoted the idea that China needs a middle class to achieve modernization Middle class members are defined and define themselves as good consumers educated people politically engaged but reasonable citizens As such the making of the middle class is the result of three convergent phenomena an attempt to define the middle class a process of civilization and the development of protest movements The making of the Chinese middle class Rocca argues is a way to end the stalemate that modern Chinese society is facing in particular the necessity to democratize without introducing an election system **The Cold War in East Asia** Xiaobing Li, 2017-09-13 This textbook provides a survey of East Asia during the Cold War from 1945 to 1991 Focusing on the persistence and flexibility of its culture and tradition when confronted by the West and the US this book investigates how they intermesh to establish the nations that have entered the modern world Through the use of newly declassified Communist sources the narrative helps students form a better understanding of the origins and development of post WWII East Asia The analysis demonstrates how East Asia s position in the Cold War was not peripheral but in many key senses central The active role that East Asia played ultimately turned this main Cold War battlefield into a buffer between the United States and the Soviet Union Covering a range of

countries this textbook explores numerous events which took place in East Asia during the Cold War including The occupation of Japan Civil war in China and the establishment of Taiwan The Korean War The Vietnam War China's Reforming Movement Moving away from Euro American centric approaches and illuminating the larger themes and patterns in the development of East Asian modernity The Cold War in East Asia is an essential resource for students of Asian History the Cold War and World History

China's Governance Model Hongyi Lai, 2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China's government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China's institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China's governance model It compares current risks in China's governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China's political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore

The Dilemma of the Moral Curriculum in a Chinese Secondary School Hongping Annie Nie, 2008-03-11 Despite the implementation of numerous reform policies moral education in China remains problematic This study presents a student perspective on the dilemma of the moral education curriculum in a Chinese secondary school Dr Hongping Annie Nie finds that the school system does not provide a favorable setting for students to adopt the officially desired ideology and values in terms of activities interpersonal relations and role expectations Dr Nie believes that the dilemma of the moral education curriculum observed in this study is a reflection of the dilemmas that exist at every level of Chinese society

China's Transition from Communism – New Perspectives Guoguang Wu, Helen Lansdowne, 2015-11-06 As China moved from a planned to a market economy many people expected that China's political system would similarly move from authoritarianism to democracy It is now clear however that political liberalisation does not necessarily follow economic liberalisation This book explores this apparent contradiction

presenting many new perspectives and new thinking on the subject It considers the path of transition in China historically makes comparisons with other countries and examines how political culture and the political outlook in China are developing at present A key feature of the book is the fact that most of the contributors are China born Western trained scholars who bring deep knowledge and well informed views to the study *Social Protest in Contemporary China, 2003-2010* Yanqi Tong, Shaohua Lei, 2013-11-12 China's economic transformation has brought with it much social dislocation which in turn has led to much social protest This book presents a comprehensive analysis of the large scale mass incidents which have taken place in the last decade The book analyses these incidents systematically discussing their nature causes and outcomes It shows the wide range of protests tax riots land and labour disputes disputes within companies including private and foreign companies environmental protests and ethnic clashes and shows how the nature of protests has changed over time The book argues that the protests have been prompted by the socioeconomic transformations of the last decade which have dislocated many individuals and groups whilst also giving society increased autonomy and social freedom enabling many people to become more vocal and active in their confrontations with the state It suggests that many protests are related to corruption that is failures by officials to adhere to the high standards which should be expected from benevolent government it demonstrates how the Chinese state far from being rigid bureaucratic and authoritarian is often sensitive and flexible in its response to protest frequently addressing grievances and learning from its own mistakes and it shows how the multilevel responsibility structure of the Chinese regime has enabled the central government to absorb the shock waves of social protest and continue to enjoy legitimacy **China's Deep Reform** Lowell Dittmer, Guoli Liu, 2006-03-28 This reader offers the most comprehensive assessment of Chinese domestic politics available by bringing together the best recent scholarship in the field The anthology focuses on the origin content and significance of the post 1989 phase of China's reform and opening to the **East Asian Law** Lucie Cheng, Arthur Rosett, Margaret Woo, 2003-09-02 This work explores the tension in East Asia between the trend towards a convergence of legal practices in the direction of a universal model and a reassertion of local cultural practices The trend towards convergence arises in part from globalisation from rule of law programs promulgated by institutions such as the International Monetary Fund and the Asian Development Bank and from widespread migration in the region whilst the opposing trend arises in part from moves to resist such globalisation This book explores a wide range of issues related to this key problem covering China in particular where resolving differences in conceptions about the rule of law is a key issue as China begins to integrate itself into the World Trade Organisation regime *Politics in China Since 1949* Robert Weatherley, 2007-01-24 Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong The dramatic failure of the Cultural Revolution

forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept founded on market economic reform The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system *The Politics of the Core Leader in China* Xuezhi Guo, 2019-05-09 This is the first full length scholarly study of the Chinese core leader and his role in the Chinese Communist Party s elite politics
