**Educational Philosophy for a Post-secular Age** David Lewin, 2016-10-04 Educational Philosophy for a Post secular Age reinterprets post secular insights for educational theory by recognising that the persistence of religion in contemporary life raises new questions about the place of religion in education Two common assumptions are critically examined first that the better educated a society becomes the more secular it becomes and second that religion can and should be separated from public education For too long religion has had an uneasy relationship with education being seen either as a foreign invader a problem to be solved or as a mechanism by which to reinforce particular religious cultural or national identities In order to move educational theory beyond the debates about indoctrination and competing rights between parents children and nation states the argument undercuts rationalist conceptions of religion and education that tend to frame the debates in terms of competing truth claims or worldviews Drawing on a diverse range of

theological philosophical and educational sources this book demonstrates the continuing significance of the Christian mystical tradition to educational theory It proposes an exploration of democratic education that brings together two apparently irreconcilable poles the meaning of religion in education and contemporary life and the need for a deliberative democratic process that is fit for the post secular age It argues that religious literacy can be served by democratic encounters in public religious education Educational Philosophy for a Post secular Age will be of interest to researchers academics and postgraduate students in the fields of the philosophy of education philosophy of religion education policy politics anthropology and cultural theory It will particularly appeal to those of both secular and religious persuasions interested in the place of religion in education and public life      Writing the Icon of the Heart Maggie Ross,2013-02-13 The subtitle of Maggie Ross s new book captures its essence for it is about silence and our need to behold God Beholding is a notion that we are in danger of losing It is often lost in translation even by the NRSV and the Jerusalem Bible Beholding needs to be recovered both in theology and practice Ross is very aware of poor talkative Christianity There is a twofold plea to enter into silence for lack of silence erodes our humanity and to behold the radiance of God This is a book full of deep questioning and the testing of our assumptions Throughout there is a great love for the world and for our humanity accompanied by sadness that we are so easily distracted We are invited into a silence that is not necessarily an absence of noise but is a limitless interior space Ancient texts are used in new and exciting ways and many of our worship practices are challenged She is in no doubt that the glory of the human being is the beholding of God adapted from a review in The Church Times London by Canon David Adam      **Silence: A User's Guide, Volume Two** Maggie Ross,2017-12-13 To learn to read a text for the portals of silence that are implicit in it is to gain a powerful tool for supporting and expanding one s silence and to open the reader to the insight that ensues The sort of reading proposed in this volume is both costly and rewarding These pages invite readers once again to look at their own minds to reflect on what is happening there and to understand the essential role of silence for being human and for living our own truth with one another      **Rediscovering the West** Stephen C.
