Eberhart,1986      **The Complete Book of Extraterrestrial Encounters** Randall Fitzgerald,1979      **Extra-Planetary Experiences** Thomas James Streicher,2012-03-19 Deep insights into human consciousness revealed by accounts of travel to other planets moons and stars Includes interviews with 7 people who have had extra planetary experiences including astronaut Edgar Mitchell Norma Milanovich and Ingo Swann Reveals the positive effects of these events on the interviewees lives from cosmic consciousness and loss of fear of death to enhanced spiritual insights Contextualizes these accounts with 19th and 20th century reports as well as alien human encounters in ancient Sumerian Vedic Egyptian Tibetan and biblical records Since prehistoric times all cultures report encounters with strange beings and crafts from the sky as well as stories of extra planetary experiences that is travel to other planets moons and stars In the case of modern accounts these benevolent alien human interactions bear striking resemblance to one another even among people with no knowledge of other alien human claims And all experiences marked a spiritual turning point in the person s life providing a loss of the fear of death enhanced spiritual insights a connection to cosmic consciousness or increased motivation to be of service to humanity Exploring fresh dimensions of ET contact and extra planetary experience XPE using Harvard professor and researcher John Mack s witnessing approach to paranormal incidents Thomas Streicher interviews 7 renowned people who have experienced XPE including astronaut Edgar Mitchell Norma Milanovich and

Stanford tested remote viewer Ingo Swann and shares the positive spiritual effects of XPE on their lives Placing their experiences in the context of historical accounts of alien human encounters from ancient Sumerian Vedic Egyptian Tibetan Hopi Dogon and biblical records as well as 19th and 20th century testimonies from Orfeo Angelucci Billy Meier Elizabeth Klarer and others the author reveals the similarities of these experiences with those of his interviewees Streicher shows these experiences are not contrived hallucinations but genuine transformative spiritual awakenings akin to near death and out of body experiences *PALE SKIN, GIANTS, AND THE GREAT TRANSITION* MILTON E. BRENER, 2013-01-17 This book Milton Brener's third on the subject of UFOs and extraterrestrials is a giant leap He delves into an analysis of much current scientific evidence that appears to add credence to claims of early hybridization of the human race It is an entirely new and novel approach but a very readable and one It is a challenge to readers to think constructively of the new and novel It revolves around the coalescence beginning about fifty thousand years ago of several significant and scientifically proven occurrences One is the beginning of the pale skin tone of Europeans Brener systematically dismantles the accepted scientific explanation for it and drives home the fact that the only other living creatures with similar skin tone are the extraterrestrials often known to many witnesses of high credibility as Nordics Unlike other ETs these Nordics look like us though some are said to be remarkably tall and also unlike others leave the contactees with very positive feelings Another major occurrence the great transition was the relatively sudden appearance of modern behavior including artistic genius timekeeping and creation of musical instruments The book is truly a tour de force Catalog of Copyright Entries. the assumptions that we make in our search for extraterrestrial life and explores how those assumptions can teach us about ourselves     **The Publishers Weekly** ,1977     Alien Life and Human Purpose Joseph Packer,2015-09-17 Alien Life and Human Purpose A Rhetorical Examination through History provides a rhetorical examination of the way major historical figures connect their arguments for the absence of alien life or unity to their philosophical religious and ethical agendas Although the unity myth has often existed in the background of society shaping institutions and values during periods where relativism gained prominence its opponents actively wielded the unity myth as a response Plato used the unity myth against the sophists Anglican theologian and philosopher William Whewell against the utilitarians co discoverer of evolution Alfred Russell Wallace against the social Darwinists university professors Frank J Tipler and John D Barrow against the postmodernists etc These individuals presented scientific defenses of unity and then used the fact of unity to claim the universe is teleological knowable and ordered rather than chaotic and relativistic This book argues that unity and its complimentary mythic function have played an important role in shaping values throughout history and more importantly continue to do so today     *Genreflecting* Betty Rosenberg,1986     Journal of the British Interplanetary Society ,2003
