PARADOX PRINCIPLE — of — PARENTING

*How to parent your child
like God parents you*

JAMES R. LUCAS

Paradox Principle Of Parenting

Dennis Arjo

Paradox Principle Of Parenting:

The Paradox Principle of Parenting James R. Lucas, 2003 As parents we often find it difficult to maintain a balance between being an authority figure and being a nurturer and friend But it is possible if we look to God as our example The Paradox Principle of Parenting highlights eight key principles of parenting based on the way God parents us and provides plenty of practical advice to help parents raise great kids

Paradoxes of Liberalism and Parental Authority Dennis Arjo, 2016-12-20 This book is a detailed examination of parental authority what justifies and what are the proper limits of a parent's authority over her children Dennis Arjo focuses on and criticizes attempts to answer these and related questions in the context of liberal philosophy of education He also offers an alternative framework for thinking about parental authority that draws on recent philosophical work in Virtue Ethics Care Ethics and Confucianism that challenges some of the assumptions of contemporary liberal theory This book will be of interest to philosophers working in ethics political philosophy and philosophy of education

Knowing the Unknowable God James R. Lucas, 2010-05-19 Meet the God Who Is Greater Than Your Biggest Questions The Bible never shies away from seeming contradictions We are told both to resist our enemies and to love them and that our all knowing God can sometimes forget Unable to reconcile such biblical paradoxes some people abandon Christianity while others pretend that the seeming contradictions don't exist preferring to believe in an uncomplicated easy to comprehend God Yet countless others are hungry for new insight into the God behind the Bible's mysterious paradoxes Responding to this spiritual hunger James Lucas delves into the mysteries of Scripture demonstrating that biblical contradictions are actually exquisite paradoxes that enlarge our understanding of God With this book as your guide you can embrace the paradoxes of Scripture and pursue honest answers to your hardest questions The study of biblical paradox leads to greater devotion to the majestic God who makes himself known even while he surpasses human understanding Today you can begin Knowing the Unknowable God

The Conflict Paradox Bernard S. Mayer, 2015-01-12 Find the roadmap to the heart of the conflict The Conflict Paradox is a guide to taking conflict to a more productive place Written by one of the founders of the professional conflict management field and co published with the American Bar Association this book outlines seven major dilemmas that conflict practitioners face every day Readers will find expert guidance toward getting to the heart of the conflict and will be challenged to adopt a new way to think about the choices disputants face They will also be offered practical tools and techniques for more successful intervention Using stories experiences and reflective exercises to bring these concepts to life the author provides actionable advice for overcoming roadblocks to effective conflict work Disputants and interveners alike are often stymied by what appear to be unacceptable alternatives The Conflict Paradox offers a new way of understanding and working with these so that they become not obstacles but opportunities for helping people move through conflict successfully Examine the contradictions at the center of almost all conflicts Learn how to bring competition and cooperation avoidance and engagement optimism and realism

together to make for more power conflict intervention Deal effectively with the tensions between emotions and logic principles and compromise neutrality and advocacy community and autonomy Discover the tools and techniques that make conflicts less of a hurdle to overcome and more of an opportunity to pursue Conflict is everywhere and conflict intervention skills are valuable far beyond the professional and legal realms With insight and creativity solutions are almost always possible For conflict interveners and disputants looking for an effective and creative approach to understanding and working with conflict The Conflict Paradox provides a powerful and important roadmap for conflict intervention **Indirect**

Parenting Interventions, Neuroscience and the Parent-Child Relationship Thomas W. Roberts, 2024-10-21 This volume explores indirect parenting behavior that changes the structure of the parent child relationship examining the ecological dimension of parenting in addition to nurturance and control Drawing on neuroscientific research in parenting it provides a model for how children learn implicitly and how parents can relate to children through indirect means Roberts argues that first order parenting techniques teaching specific behaviors to reduce unwanted child behaviors are overused He examines and offers guidance on how indirect interventions that place emphasis on the interactional components of the parent child relationship such as modelling storytelling reframing humor and paradox can support parents and children in developing positive relationships Addresses the latest brain research and its application to parent child interactions Introduces the student to aspects of the parent child relationship that are not covered in most courses Useful to clinicians who work directly with parents Offers a perspective on parenting that differs from most parenting models Facilitates awareness of how unconscious and nonverbal communication affects parenting Serves to deepen the relationship with the child and curb unwanted behavior Indirect Parenting Interventions Neuroscience and the Parent Child Relationship will be thought provoking reading for students and scholars of parenting and family systems as well as clinicians who work directly with parents giving them a broader perspective in dealing with parent child interactions *The Dynamics of Powerful Parenting* Raymond Messer, 2005 The Dynamics of Powerful Parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts Often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor Usually the result will be more of the same only worse A secret to understanding the dynamics of many human behaviors lies in the paradox of the Chinese Finger Puzzle aka Chinese Handcuff The Chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person's fingers true to its nature the tube will narrow as its ends are pulled Thus when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject's efforts to pull his or her fingers apart are met with increasing resistance from the device So it is with much of being human The thing that people wish to avoid most is the very thing that results from their efforts to do so Dynamics is a book written with this paradox in mind It is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional

parenting efforts It is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility Dynamics encourages parents to think about what they are doing how they are doing it and what are they are experiencing as a result then provides useful tools for changing undesired outcomes It is a book that can produce positive results that will benefit generations yet unborn *Handbook of Parenting* Marc H. Bornstein,2019-03-08 This highly anticipated third edition of the Handbook of Parenting brings together an array of field leading experts who have worked in different ways toward understanding the many diverse aspects of parenting Contributors to the Handbook look to the most recent research and thinking to shed light on topics every parent professional and policymaker wonders about Parenting is a perennially hot topic After all everyone who has ever lived has been parented and the vast majority of people become parents themselves No wonder bookstores house shelves of how to parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice However almost none of these is evidence based The Handbook of Parenting is Period Each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic a discussion of central issues and theory a review of classical and modern research and forecasts of future directions of theory and research Together the five volumes in the Handbook cover Children and Parenting the Biology and Ecology of Parenting Being and Becoming a Parent Social Conditions and Applied Parenting and the Practice of Parenting Volume 1 Children and Parenting considers parenthood as a functional status in the life cycle Parents protect nurture and teach their progeny even if human development is more dynamic than can be determined by parental caregiving alone Volume 1 of the Handbook of Parenting begins with chapters concerned with how children influence parenting Notable are their more obvious characteristics like child age or developmental stage but subtler ones like child gender physical state temperament mental ability and other individual differences factors are also instrumental The chapters in Part I on Parenting across the Lifespan discuss the unique rewards and special demands of parenting children of different ages and stages infants toddlers youngsters in middle childhood and adolescents as well as the modern notion of parent child relationships in emerging adulthood adulthood and old age The chapters in Part II on Parenting Children of Varying Status discuss common issues associated with parenting children of different genders and temperaments as well as unique situations of parenting adopted and foster children and children with a variety of special needs such as those with extreme talent born preterm who are socially withdrawn or aggressive or who fall on the autistic spectrum manifest intellectual disabilities or suffer a chronic health condition *Core Principles of Assessment and Therapeutic Communication with Children, Parents and Families* Ruth Schmidt Neven,2010-06-10 Informed by a psychodynamic perspective this book provides an integrated approach to working with children parents and families that can be applied by all professionals in a variety of settings Readings in the Theory of Individual Psychology Steve Slavik,Jon Carlson,2007-12-11 Readings in the Theory of Individual Psychology presents an overview of the central theoretical tenets and specific fundamental concepts of Individual Psychology framed on
