**The Philosophy of Fiction** Patrik Engisch,Julia Langkau,2022-10-14 This book presents new research on the crucial role that imagination plays in contemporary philosophy of fiction The first part of the book challenges the main paradigm set by Kendall Walton and Gregory Currie according to which there is a necessary connection between fiction and a prescription that we engage imaginatively with its content The contributors address the fundamental questions of how we can define fiction and especially whether we can define fiction in terms of imagination The second part focuses on a distinct but related question can we point to some distinctive experiential features of our engagement with fiction In the third part the focus lies on the cognitive value of fiction and on the role that imagination plays in that respect The chapters in this part discuss the cognitive value of fiction with respect to issues such as the training of the faculty of imagination phenomenal experience empathy and the emotions The Philosophy of Fiction will be of interest to scholars and advanced students working in aesthetics philosophy of mind epistemology and literary studies Chapter 13 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**The Age of Figurative Theo-humanism** Franco Cirulli,2015-05-11 This is a comprehensive integrated account of eighteenth and early nineteenth century German figurative aesthetics The author focuses on the theologically minded discourse on the visual arts that unfolded in Germany circa 1754-1828 to critique the assumption that German romanticism and idealism pursued a formalist worship of beauty and of unbridled artistic autonomy This book foregrounds what the author terms an Aesthetics of Figurative Theo humanism It begins with the sculptural aesthetics of Johann Joachim Winckelmann and Gottfried Herder before moving on to Karl Philipp Moritz Wilhelm Heinrich Wackenroder and Friedrich Schelling The reader will discover how this aesthetic tradition after an initial obsession with classical sculpture chose painting as the medium more suited to the modern self's exploration of transcendence This paradigm shift is traced in the aesthetic discourse of Friedrich Schlegel and Georg Wilhelm Friedrich Hegel In this work the widespread prejudice that such aesthetics initiated a so called Modern Grand Narrative of the Arts is deconstructed One accusation directed at 18th century aesthetics has been that it realised into Art what had previously been a living rich tissue of meaning this work shows how Figurative Theo humanism's attention to

aesthetic values was never detached from deeper theological and humanistic considerations Furthermore it argues that this aesthetic discourse never forgot that it emerged from modern disenchantment far from occluding the dimension of secularization it draws poignant meaning from it Anyone with an interest in the current debates about the scope and nature of aesthetics philosophers of art theology or religion will find this book of great interest and assistance *Consumer Culture Theory* John Schouten,Diane Martin,Russell W. **Paradoxes of Emotion and Fiction** Robert J. Yanal, 1999-10-15 How can we experience real emotions when viewing a movie or reading a novel or watching a play when we know the characters whose actions have this effect on us do not exist This is a conundrum that has puzzled philosophers for a long time and in this book Robert Yanal both canvasses previously proposed solutions to it and offers one of his own

First formulated by Samuel Johnson the paradox received its most famous answer from Samuel Taylor Coleridge who advised his readers to engage in a willing suspension of disbelief More recently philosophers have argued that we are irrational in emoting toward fiction or that we do not emote toward fiction but rather toward factual counterparts or that we do not have real but only quasi emotion toward fiction generated by our playing games of make believe All of these proposed solutions are critically reviewed Finding these answers unsatisfactory Yanal offers an alternative providing a new version of what has been dubbed thought theory On this theory mere thoughts not believed true are seen as the functional equivalent of belief at least insofar as stimulating emotion is concerned The emoter's disbelief in the actuality of components of the thoughts must be rendered relatively inactive Such emotion is real and typically has the character of being richly generated yet unconsummated The book extends this theory also to resolving other paradoxes arising from emotional response to fiction how we feel suspense over what comes next in a story even when we are re reading it for a second or third time and how we take pleasure in narratives such as tragedy that excite unpleasant emotions such as fear pity or horror *The British National Bibliography* Arthur James Wells,2009 **Paradoxes of Time Travel** Ryan Wasserman,2018 Ryan Wasserman explores a range of fascinating puzzles raised by the possibility of time travel with entertaining examples from physics science fiction and popular culture and he draws out their implications for our understanding of time tense freedom fatalism causation counterfactuals laws of nature persistence change and mereology **A Unified Treatment of Moore's Paradox** John N. Williams,2023-03-24 A Unified Treatment of Moore's Paradox is the culmination of a decades long engagement with Moore's paradox by the world's leading authority on the subject the late John Williams The book offers a comprehensive account of Moore's paradox in thought and speech both in its commissive and omissive forms Williams argues that Moorean absurdity comes in degrees and shows that contrary to one tradition in the literature on Moore's Paradox we cannot explain Moorean absurdity in speech in terms of Moorean absurdity in thought but must account for each form of absurdity in its own terms Williams also explores the extent to which Moore's paradox may arise for attitudes other than belief such as desire Written with Williams trademark clarity and wit the book is packed with arguments bearing on a wide range of topics in epistemology the philosophy of language and the philosophy of mind
