Power And Insecurity Beijing Moscow And Washington 19491988:

Chinese Armed Forces in the 21st Century, 2001-05 Examines the armed forces of the People's Republic of China the Chinese military PLA capabilities in the 21st cent how does China assess its future security needs advanced military technology U S Chinese military relations in the 21st cent Taiwan's military in the 21st cent redefinition Taiwan's military a view from afar the political angle new phenomena in Party Army relations A Rising China and Security in East Asia Rex Li, 2008-11-21 This volume provides a comprehensive and in depth analysis of the security discourse of Chinese policy elites on the major powers in East Asia in relation to China's self perception as a rising power It is the first book length study that utilizes International Relations theories systematically to analyze Chinese security perceptions of the United States Japan and Russia and the debate among Chinese international relations specialists on how China should respond to the perceived challenge from the major powers to its rise to a global status Rex Li argues that the security discourse of Chinese policy analysts is closely linked to their conception of China's identity and their desire and endeavour to construct a great power identity for China Drawing on extensive and up to date Chinese language sources the study demonstrates that Chinese elites perceive the power aspirations and security strategies of other East Asian powers primarily in terms of their implications for China's pursuit of great power status This new work will contribute significantly to the on going academic and policy debate on the nature and repercussions of China's rise This book will be essential reading for undergraduate and postgraduate students and scholars of Asian security China's foreign relations security studies and international relations **Strategic Partners** Jeanne Wilson, 2015-06-11 Russia's foreign policy experience in the first post Soviet decade was marked by disappointments as well as surprising turns Expectations that Russia would join the Western powers as an equal partner were frustrated while relations with the People's Republic of China warmed considerably Today Russia's relationship with China is an important component of its overall foreign policy orientation as the two states one greatly diminished the other clearly on the rise have found themselves sharing an interest in curbing the power of the United States In analyzing Russia's evolving foreign policy vis a vis China the author takes into account the legacy of Soviet era precedents the simultaneous processes of economic policy change and integration into global economic structures and military relations By shedding light on the role of political realism decision makers and exogenous factors in Russian foreign policy this analysis of an important bilateral relationship contributes to the larger project of understanding international relations and the dynamics of domestic and foreign policy change **Area Bibliography of China** Richard T. Wang, 1997 A combination of scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades This bibliography reflects these combined interests it is broken up into sections by subject headings and cross references refer the researcher to related topics *China in World Politics* Judith F. Kornberg, John R. Faust, 2005 This fully revised and updated text introduces students to China's foreign policy past and present and the factors that may influence the country's

future policy agenda Exploring the new dynamics of China's regional and international roles the authors outline the political security economic and social issues the country faces in the emerging twenty first century An ideal thoughtfully crafted textbook each chapter of China in World Politics familiarizes students with the Chinese framework for analyzing the issues in question Alternate policy choices are suggested along with supporting data for each course of action Discussion and essay questions as well as suggested readings and a bibliography of internet resources are also included **Air University Library Index to Military Periodicals**, 1991 **The Chinese Armed Forces in the 21st Century**, 1999 The debate about China and Taiwan is re emerging in the United States The accidental bombing of the Chinese Embassy in Belgrade of course put on the front burner the way that nationalistic fervor has grown in China at least some of it as a result of manipulation by the Communist Party President Lee Teng hui's comments about state to state relations between Taiwan and the mainland raised the temperature of relations across the strait and among the three concerned parties China the United States and Taiwan China threatened China postured and China ran political campaigns against the United States and Lee But the questions of military capability security policy and intent are rarely treated seriously This book is a serious look at the armed forces of China and how they will evolve **The Golden Age of the U.S.-China-Japan Triangle, 1972-1989** Ezra F. Vogel, Ming Yuan, Akihiko Tanaka, 2020-03-23 A collaborative effort by scholars from the United States China and Japan this volume focuses on the period 1972 1989 during which all three countries brought together by a shared geopolitical strategy established mutual relations with one another despite differences in their histories values and perceptions of their own national interest Although each initially conceived of its political and security relations with the others in bilateral terms the three in fact came to form an economic and political triangle during the 1970s and 1980s But this triangle is a strange one whose dynamics are constantly changing Its corners the three countries and its sides the three bilateral relationships are unequal while its overall nature the capacity of the three to work together has varied considerably as the economic and strategic positions of the three have changed and post Cold War tensions and uncertainties have emerged **Motherland** David R. Marples, 2014-10-13 Motherland tells the dramatic story of the rise and fall of the Soviet Union From Lenin's virtual coup in November 1917 to Boris Yeltsin's ruthless takeover of power in 1991 the book culminates with a new view of the Yeltsin years David Marples focuses on the evolution of Russia during the Soviet period and the attempt to harness Russian nationalism to the avowed Soviet mission of promoting World Communism Along the way he analyses some of the more intensive historical debates and uncovers some of the myths perpetuated by state propaganda especially those associated with the Great Patriotic War **System Effects** Robert Jervis, 1998-12-28 Based on more than three decades of observation Robert Jervis concludes in this provocative book that the very foundations of many social science theories especially those in political science are faulty Taking insights from complexity theory as his point of departure the author observes that we live in a world where things are interconnected where unintended consequences of our actions are unavoidable and

unpredictable and where the total effect of behavior is not equal to the sum of individual actions Jervis draws on a wide range of human endeavors to illustrate the nature of these system effects He shows how increasing airport security might actually cost lives not save them and how removing dead trees ostensibly to give living trees more room may damage the health of an entire forest Similarly he highlights the interconnectedness of the political world as he describes how the Cold War played out and as he narrates the series of events with their unintended consequences that escalated into World War I The ramifications of developing a rigorous understanding of politics are immense as Jervis demonstrates in his critique of current systemic theories of international politics especially the influential work done by Kenneth Waltz Jervis goes on to examine various types of negative and positive feedback bargaining in different types of relationships and the polarizing effects of alignments to begin building a foundation for a more realistic more nuanced theory of international politics System Effects concludes by examining what it means to act in a system It shows how political actors might modify their behavior in anticipation of system effects and it explores how systemic theories of political behavior might account for the role of anticipation and strategy in political action This work introduces powerful new concepts that will reward not only international relations theorists but also all social scientists with interests in comparative politics and political theory

China's Strategic Intentions and Goals United States. Congress. House. Committee on Armed Services,2000

Terrorist Threats to the United States United States. Congress. House. Committee on Armed Services. Special Oversight Panel on Terrorism,2000 **The Rise and Fall of the Brezhnev Doctrine in Soviet Foreign Policy** Matthew J. Ouimet,2003-01-01 Ouimet argues that the now famous reforms of Soviet bloc policy of the mid 1980s were not the instigation but rather the climax of a fundamental transformation in Soviet policy toward Eastern Europe that had its origins in the Brezhnev era **The Cultural Revolution** Frank Dikötter,2017-06-06 The concluding volume following Mao s Great Famine and The Tragedy of Liberation in Frank Dikötter s award winning trilogy chronicling the Communist revolution in China After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958 1962 an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy The Cultural Revolution s goal was to purge the country of bourgeois capitalistic elements he claimed were threatening genuine communist ideology Young students formed the Red Guards vowing to defend the Chairman to the death but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity As the country descended into chaos the military intervened turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people The Cultural Revolution A People s History 1962 1976 draws for the first time on hundreds of previously classified party documents from secret police reports to unexpurgated versions of leadership speeches After the army itself fell victim to the Cultural Revolution ordinary people used the political chaos to resurrect the market and hollow out the party s ideology By showing how economic reform from below was an unintended consequence of

a decade of violent purges and entrenched fear The Cultural Revolution casts China's most tumultuous era in a wholly new light

The Proliferation Puzzle Zachary S. Davis, Benjamin Frankel, 2020-12-01 Originally published in 1993 this volume was unique in its scope and approach Unlike most literature on nuclear weapons proliferation at the time the essays in this volume offer theoretical discussions and suggest testable hypotheses about the causes and effects of nuclear weapons proliferation The proliferation of nuclear weapons is an ideal subject for social science scholarship and such scholarship is especially timely now Among the topics discussed in *The Proliferation Puzzle* are The building of nuclear weapons is a complex task touching upon many of the subjects of study at the core of social science and international relations Nuclear weapons may be acquired as a hedge against external threat for reasons of national prestige or as a result of pressures by domestic coalitions among scientists bureaucrats and the military They may be sought for defensive purposes or to support hegemonic aspirations Nuclear weapons also raise questions about civilian command and control especially in crisis situations During the last two decades the acquisition of nuclear weapons has been proscribed by the non proliferation regime The decisions countries made about acquiring these weapons and the manner they chose to build them serve as a test of the efficacy of this particular regime and of international regimes more generally Nuclear weapons were introduced at the time bipolarity became the international order As the world moves away from bipolarity there is a need to answer questions such as What would be the effect of nuclear weapons in a multipolar order How will the spread of nuclear weapons affect the distribution of capabilities among states If nuclear weapons spread to additional countries will they enhance stability or exacerbate instability Can the spread of these weapons be managed or controlled This book brings together scholars from different schools within international relations and the social sciences to address the question of why nuclear weapons spread A disciplined rigorous examination of proliferation is important not only for scholarship but also for informed policymaking The purpose of social science is to formulate hypotheses and devise theories that advance our understanding of society and aid in the fashioning of enlightened policy The essays in this volume show how explicit hypotheses about the causes and consequences of nuclear weapons proliferation provide a deeper understanding of the problem and suggest specific theory informed policy recommendations

Current Politics and Economics of Russia, Eastern and Central Europe, 1998 **Revolutionary States, Leaders, and Foreign Relations**

Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China Cuba and Iran in the first decade of their post revolutionary periods Among a variety of explanatory variables leadership particularly the type of revolutionary leaders played a significant role in explaining the outcome of the policymaking process in each case Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period Two Track Conflictual and Conciliatory This book is a valuable source for both experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade

The Constitutional and Legal Development of the Chinese Presidency Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP s step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president s role and status within the CCP s collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP s major political practices such as Mao Zedong s power of last say his idea of two fronts his controversial abolition of the chairmanship Deng Xiaoping s idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents thus illuminating how law has been made

in those unpredictable political environments and how politics has been defined by law The author concludes that the office of president is the key to understanding how power in China derives first from the CCP second from the military and third from the government loosely prescribed by laws Even more important the millennia old Confucian concept of the charismatic leader is alive and well While all eyes are on the new incumbent his predecessors have loomed large and continue to exert significant influence on him Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China With so many variables at play the office of the president will certainly continue to evolve

Russia in the Twentieth Century David R. Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example
