Reconstructing The Dreamland The Tulsa Riot Of 1921 Race Reparations And Reconciliation:

Reconstructing the Dreamland Alfred L. Brophy, 2003-04-10 The 1921 Tulsa Race Riot was the country's bloodiest civil disturbance of the century. Thirty city blocks were burned to the ground; perhaps 150 died, and the prosperous black community of Greenwood, Oklahoma, was turned to rubble. Brophy draws on his own extensive research into contemporary accounts and court documents to chronicle this devastating riot, showing how and why the rule of law quickly eroded. Brophy shines his lights on mob violence and racism run amok both on the night of the riot and the following morning. Equally important, he shows how the city government and police not only permitted looting, shootings, and the burning of Greenwood but actively participated in it by deputizing white citizens haphazardly giving out guns and badges or sending men to arm themselves. Likewise, the National Guard acted unconstitutionally, arresting every black resident they found, leaving property vulnerable to the white mob. Brophy's stark narrative concludes with a discussion of reparations for victims of the riot through lawsuits and legislative action. That case has implications for other reparations movements, including reparations for slavery. Recovers a largely forgotten history of black activism in one of the grimmest periods of race relations. Linking history with advocacy, Brophy also offers a reasoned defense of reparations for the riot's victims. Washington Post Book World

Revolts, Protests, Demonstrations, and Rebellions in American History Steven L. Danver, 2010-12-17 This three-volume work traces the history of revolts and rebellions from the colonial era to the 20th century. America has a long history of rebellions extending back before 1776. Revolts have taken place because of economic hard times, the denial of civil rights, racism, sexism, and classism. Studying the reasons for and results of these uprisings provides a window into the life of the American body politic and what moves the American people to action. **Revolts, Protests, Demonstrations, and Rebellions in American History: An Encyclopedia** details the history of popular actions from the colonial era to the 20th century. Each event in the three-volume encyclopedia is covered by an overview entry that details who was involved, why the revolt took place, what happened, and what the aftereffects were. Shorter subentries provide further detail on the important people, places, events, and ideas that were a part of the action. By presenting both the broad themes and the specifics, the encyclopedia enables readers to gain a general knowledge of the event or drill down to acquire a greater understanding. **Ralph Ellison and the Raft of Hope** Lucas E. Becoming American in Creole New Orleans, 1896-1949 Darryl Barthé, Jr., 2021-07-14 Extensive scholarship has emerged within the last twenty five years on the role of Louisiana Creoles in the eighteenth and early nineteenth centuries yet academic work on the history of Creoles in New Orleans after the Civil War and into the twentieth century remains sparse Darryl Barth Jr's *Becoming American in Creole New Orleans* moves the history of New Orleans Creole community forward documenting the process of becoming American through Creoles encounters with Anglo American modernism Barth tracks this ethnic transformation through an interrogation of New Orleans's voluntary associations and social sodalities as well as its public and parochial schools where Creole linguistic distinctiveness faded over the twentieth century because of English only education and the establishment of Anglo American economic hegemony Barth argues that despite the existence of ethnic repression the transition from Creole to American identity was largely voluntary as Creoles embraced the economic opportunities afforded to them through learning English *Becoming American* entailed the adoption of a distinctly American language and a distinctly American racialized caste system Navigating that caste system was always tricky for Creoles who had existed in between French and Spanish color lines that recognized them as a group separate from Europeans Africans and Amerindians even though they often shared kinship ties with all of these groups Creoles responded to the pressures associated with the demands of the American caste system by passing as white people completely or situationally or more often redefining themselves as Blacks *Becoming American in Creole New Orleans* offers a critical comparative analysis of Creolization and Americanization social processes that often worked in opposition to each another during the nineteenth century and that would continue to frame the limits of Creole identity and cultural expression in New Orleans until the mid twentieth century As such it offers intersectional engagement with subjects that have historically fallen under the purview of sociology anthropology and critical theory including discourses on whiteness m tissage m tisaj and critical mixed race theory

The American Civil Rights Movement 1865-1950 Russell Brooker, 2016-12-07 The American Civil Rights Movement 1865 1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s It synthesizes the disparate black movements explaining consistent themes and controversies during those years The main focus is on the black activists who led the movement and the white people who supported them The principal theme is that African American agency propelled the progress and that whites often helped Even whites who were not sympathetic to black demands were useful often because it was to their advantage to act as black allies Even white opponents could be coerced into cooperation or at least non opposition White people of good will with shallow understanding were frustrating but they were sometimes useful Even if they did not work for black rights they did not work against them and sometimes helped because they had no better options Until now the history of the African American movement from 1865 to 1950 has not been covered as one coherent story There have been many histories of African Americans that have treated the subject in one chapter or part of a chapter and several excellent books have concentrated on a specific time period such as Reconstruction or World War II Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow This is the first book to synthesize the history of the movement in a coherent whole

Racial Domination Loïc Wacquant, 2024-06-07 Race is arguably the single most troublesome and volatile concept of the social sciences in the early 21st century It is invoked to explain all manner of historical phenomena and current issues from slavery to police brutality to acute poverty and it is also used as a term of civic denunciation and moral condemnation In this erudite and incisive book based on a panoramic mining of comparative and historical research from around the globe Loïc Wacquant pours cold analytical water on this hot topic and infuses it with epistemological clarity conceptual precision and empirical breadth Drawing on Gaston Bachelard Max Weber and Pierre Bourdieu Wacquant first articulates a series of reframings starting with dislodging the United States from its Archimedean position in order to capture race making as a form of symbolic violence He then forges a set of novel concepts to rethink the nexus of racial classification and stratification the continuum of ethnicity and race as disguised ethnicity the diagonal of racialization and the pentad of ethnoracial domination the checkerboard of violence and the dialectic of salience and consequentiality This enables him to elaborate a

meticulous critique of such fashionable notions as structural racism and racial capitalism that promise much but deliver little due to their semantic ambiguity and rhetorical malleability notions that may even hamper the urgent fight against racial inequality Wacquant turns to deploying this conceptual framework to dissect two formidable institutions of ethnoracial rule in America Jim Crow and the prison He draws on ethnographies and historiographies of white domination in the postbellum South to construct a robust analytical concept of Jim Crow as caste terrorism erected in the late 19th century He unravels the deadly symbiosis between the black hyperghetto and the carceral archipelago that has coproduced and entrenched the material and symbolic marginality of the African American precariat in the metropolis of the late 20th century Wacquant concludes with reflections on the politics of knowledge and pointers on the vexed question of the relationship between social epistemology and racial justice Both sharply focused and wide ranging synthetic yet controversial *Racial Domination* will be of interest to students and scholars of race and ethnicity power and inequality and epistemology and theory across the social sciences and humanities

Eliminationists David Neiwert, 2016-01-20 *The Eliminationists* describes the malignant influence of right wing hate talk on the American conservative movement Tracing much of this vitriol to the dank corners of the para fascist right award winning reporter David Neiwert documents persistent ideas and rhetoric that champion the elimination of opposition groups As a result of this hateful discourse Neiwert argues the broader conservative movement has metastasized into something not truly conservative but decidedly right wing and potentially dangerous By tapping into the eliminationism latent in the American psyche the mainstream conservative movement has emboldened groups that have inhabited the fringes of the far right for decades With the Obama victory their voices may once again raise the specter of deadly domestic terrorism that characterized the far Right in the 1990s How well Americans face this challenge will depend on how strongly we repudiate the politics of hate and repair the damage it has wrought
