Russia Poland Universal Regeneration S:

Polish Encounters, Russian Identity David L. Ransel, Bożena Shallcross, 2005-06-15 Highlights Poland's central role in the formation of a modern Russian identity

Slavophile Empire Laura Engelstein, 2011-03-15 Twentieth century Russia in all its political incarnations lacked the basic features of the Western liberal model: the rule of law, civil society and an uncensored public sphere. In *Slavophile Empire* the leading historian Laura Engelstein pays particular attention to the Slavophiles and their heirs whose aversion to the secular individualism of the West and embrace of an idealized version of the native past established a pattern of thinking that had an enduring impact on Russian political life. Imperial Russia did not lack for partisans of Western style liberalism but they were outnumbered to the right and to the left by those who favored illiberal options. In the book's rigorously argued chapters Engelstein asks how Russia's identity as a cultural nation at the core of an imperial state came to be defined in terms of this antiliberal consensus. She examines debates on religion and secularism, on the role of culture and the law under a traditional regime presiding over a modernizing society, on the status of the empire's ethnic peripheries and on the spirit needed to mobilize a multinational empire in times of war. These debates she argues did not predetermine the kind of system that emerged after 1917 but they foreshadowed elements of a political culture that are still in evidence today.

Apology of Culture Artur Mrowczynski-Van Allen, Teresa Obolevitch, Pawel Rojek, 2015-03-02 Contemporary philosophy and theology are ever more conscious of the fact that the model of relations between religion and culture developed in modernity is fundamentally flawed. The processes of the secularization of society, culture and even religion are rooted in the dualistic vision of religion and culture introduced in the late Middle Ages. In seeking a way out we need to explore domains of culture unaffected by Western European secular thinking. Russian thought is remarkably well prepared to formulate an alternative to secular modernity. Indeed in Russian culture there was neither a Renaissance nor an Enlightenment. Eastern Christianity retained an integral patristic vision of human nature that had not been divided into separate natural and supernatural elements. These pre and non modern visions are now gaining exceptional value in the postmodern reality in which we find ourselves. The heritage of Russian Christian thought may serve as a source of inspiration for alternative approaches to religion and culture. In this respect Russian thought may be compared with *nouvelle théologie*, Radical Orthodoxy and other recent movements in Christian postsecular thought. For this reason it remains astonishingly contemporary.

Poland Patrice M. Dabrowski, 2014-10-01 Since its beginnings Poland has been a moving target geographically as well as demographically and

the very definition of who is a Pole has been in flux In the late medieval and early modern periods the country grew to be the largest in continental Europe only to be later wiped off the map for more than a century The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi Soviet occupation that began with World War II The postwar entity known as Poland was shaped and controlled by the Soviet Union Yet even under these constraints Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that Poland is a sweeping account designed to amplify major figures moments milestones and turning points in Polish history These include important battles and illustrious individuals alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland s demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke Patrice Dabrowski s work situates Poland and the Poles within a broader European framework that locates this multiethnic and multidenominational region squarely between East and West This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland s longstanding republican experiment

Historical Dictionary of Poland George Sanford, 2003 Poland has had an exceptionally turbulent thousand year history marked by extremes of national greatness and decline including partition and foreign occupation Currently undergoing another dramatic transformation Poland has been building a democratic and market system since the fall of communism The largest and most important nation in Eastern Europe outside the ex Soviet Union is now returning to the European

mainstream from which she was for long periods isolated politically and economically although not culturally Although Poland has been widely popularized in journalistic clichés in recent years because of Solidarity the Polish Pope and the like there is still much to be learned about the particular individuals and specific factors which have shaped her history in the past and which are molding her present development The dictionary strikes a judicious balance in covering past and contemporary figures as well as Poland's richly textured political social and cultural dimensions The Dictionary has more than four hundred entries and a most comprehensive and up to date bibliography It provides a stimulating and knowledgeable introduction for students scholars and librarians as well as a helpful overview guide for tourists and for those involved in teaching business politics journalism and public service

Romantic Nationalism in Eastern Europe

Serhiy Bilenky, 2012-05-16 This book explores the political imagination of Eastern Europe in the 1830s and 1840s when Polish Russian and Ukrainian intellectuals came to identify themselves as belonging to communities known as nations or nationalities Bilenky approaches this topic from a transnational perspective revealing the ways in which modern Russian Polish and Ukrainian nationalities were formed and refashioned through the challenges they presented to one another both as neighboring communities and as minorities within a given community Further all three nations defined themselves as a result of their interactions with the Russian and Austrian empires Fueled by the Romantic search for national roots they developed a number of separate yet often overlapping and inclusive senses of national identity thereby producing myriad versions of Russianness Polishness and Ukrainianness

Liberalism in Pre-revolutionary Russia

Susanna Rabow-Edling, 2018-08-06 Nineteenth century Russian intellectuals were faced with a dilemma They had to choose between modernizing their country thus imitating the West or reaffirming what was perceived as their country's own values and thereby risk remaining socially underdeveloped and unable to compete with Western powers Scholars have argued that this led to the emergence of an anti Western anti modern ethnic nationalism In this innovative book Susanna Rabow Edling shows that there was another solution to the conflicting agendas of modernization and cultural authenticity a Russian liberal nationalism This nationalism took various forms during the long nineteenth century but aimed to promote reforms through a combination of liberalism nationalism and imperialism

The Sense of Mission in Russian Foreign Policy

Alicja Curanović, 2021-03-04 This book explores how far messianism the conviction that Russia has a special historical destiny is present in and affects Russian foreign policy Based on extensive original research including analysis of public statements policy documents and opinion polls the book argues that a sense of mission is present in Russian foreign policy that it is very similar in its nature to thinking about Russia's mission in Tsarist times that the sense of mission matters more for Russia's elites than for Russia's masses and that Russia's special mission is emphasised more when there are questions about the regime's legitimacy as well as great power status Overall the book demonstrates that a sense of mission is an important factor in Russian foreign policy

Russian Thought After Communism: The Rediscovery of a Philosophical Heritage

James P. Scanlan, 2016-09-16 An examination of Russia's philosophical heritage It extends from the Slavophiles to the philosophers of the Silver Age from emigre religious thinkers to Losev and Bakhtin and assesses the meaning for Russian culture as a whole **The Polish Studies Newsletter**, 1992 **A History of Modern Political Thought in East Central Europe** Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016 The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe *Remembering Occupied Warsaw* Erica L. Tucker, 2011-10-01 Offering a rare glimpse into the lives of those who lived through the German occupation of Poland's capital this important ethnography explores how elderly residents of Warsaw recollect narrate and commemorate their experiences thus showing how the cultural legacies of the occupation reveal themselves in contemporary Polish society The individuals who are the focus of this study all long time residents of the Warsaw neighborhood Żoliborz responded to the daily deprivations and brutality of the German occupation by joining branches of the Polish underground ultimately participating in the Warsaw Uprising of 1944 during which their neighborhood was burned but not destroyed as soldiers couriers and medics Using life histories and ethnographic fieldwork Tucker examines the ways that her informants recovered from the rupture of war arguing that this process was connected to efforts to rebuild the city itself *Remembering Occupied Warsaw* makes an important contribution to studies of collective memory A moving work of oral history this book will appeal to scholars and students of anthropology sociology and East European studies as well as general readers interested in Polish history **Peter Chaadaev** Artur Mrowczynski-Van Allen, Teresa Obolovitch, Pawel Rojek, 2018-12-10 Peter Chaadaev 1794-1856 is rightfully considered to be one of the forerunners of modern Russian philosophy There is a famous scene from his life that may help us to understand both his own thought as well as the whole subsequent tradition of Russian religious philosophy When Chaadaev finished his studies of Kant's Critique of Pure Reason he crossed out the title on the cover and wrote beneath it Apologete adamitischer Vernunft An Apology for Adamic Reason Russian religious philosophy was supposed to be a critique of such secular reason In this book we seek a contemporary interpretation of Chaadaev's thought and its influence Our authors including such scholars as Andrzej Walicki and Boris Tarasov investigate his views on religion society history politics and Russian fate Chaadaev turns out to be a crucial figure who continues to influence Russian religious philosophy to this day Ivan Sergeevich Gagarin Jeffrey Bruce Beshoner, 2002-05-10 Ivan Sergeevich Gagarin analyzes questions of nationality and religious identity in nineteenth century Russian history as reflected in the life of Jesuit priest Ivan Gagarin A descendent of one of Russia's most ancient and politically powerful families Father Ivan Gagarin S.J. 1814-1882 dedicated his life to creating a union between the Orthodox and Catholic churches that would preserve the dogmatic and traditional beliefs of both Traditional understandings of Russian identity have emanated from the perspective of the dominant Orthodox religion this captivating study uses the unionist work of Gagarin to illumine Russia's national identity from the perspective of Roman Catholicism Seeing his unionist proposals as necessary for the preservation of Russian stability

Gagarin found himself in frequent opposition to the Orthodox Church While Gagarin believed that Church union would preserve Russia from the threats of communism and revolution the Russian Orthodox Church believed that union would mean the sacrifice of religious truth ecclesial independence and religious orthodoxy Jeffrey Beshoner s even handed analysis reveals that the Roman Catholic Church presented its own share of barriers to attempts at church union Ivan Sergeevich Gagarin examines Roman Catholic attitudes of superiority vis vis the Orthodox Church and argues that the nineteenth century Roman Catholic Church simply did not possess the humility or respect for Eastern beliefs that church union required Despite the failure of his unionist activity Gagarin exerted important influence on such contemporary and later Roman Catholic and Russian thinkers as Pope Pius IX Alexei Khomiakov and Vladimir Solovev As the collapse of communism has permitted Russia to again seek its national identity in Russian Orthodoxy Gagarin s ideas and perspectives on the relationship between national and religious identity continue to prove relevant

Capitalism Michael Sonenscher, 2024-06-18 How the history of a word sheds new light on capitalism and modern politics What exactly is capitalism How has the meaning of capitalism changed over time And what s at stake in our understanding or misunderstanding of it In *Capitalism* Michael Sonenscher examines the history behind the concept and pieces together the range of subjects bound up with the word Sonenscher shows that many of our received ideas fail to pick up the work that the idea of capitalism is doing for us without us even realizing it Capitalism was first coined in France in the early nineteenth century It began as a fusion of two distinct sets of ideas The first involved thinking about public debt and war finance The second involved thinking about the division of labour Sonenscher shows that thinking about the first has changed radically over time Funding welfare has been added to funding warfare bringing many new questions in its wake Thinking about the second set of ideas has offered far less room for manoeuvre The division of labour is still the division of labour and the debates and discussions that it once generated have now been largely forgotten By exploring what lay behind the earlier distinction before it collapsed and was eroded by the passage of time Sonenscher shows why the present range of received ideas limits our political options and the types of reform we might wish for
