Beyond the Amur Victor Zatsnepine, 2017-03-09
Beyond the Amur describes the distinctive frontier society that developed in the Amur a river region that shifted between Qing China and Imperial Russia as the two empires competed for natural resources Although official imperial histories depict the Amur as a distant battleground between rival empires this colourful history of a region and its people tells a different story Drawing on both Russian and Chinese sources Victor Zatsnepine shows that both empires struggled to maintain the border But much to the chagrin of imperial administrators various peoples Chinese Russian Indigenous Japanese Korean Manchu and Mongol moved freely across it in pursuit of work and trade exchanging ideas and knowledge as they adapted to the harsh physical environment By viewing the Amur as a unified natural economy caught between two empires Zatsnepine highlights the often overlooked influence of regional developments on imperial policies and the importance of climate and geography to local state and imperial histories

Creating a Chinese Harbin James H. Carter, 2019-06-30 James H Carter outlines the birth of Chinese nationalism in an unlikely setting the international city of Harbin Planned and built by Russian railway engineers the city rose quickly from the Manchurian plain changing from a small fishing village to a modern city in less than a generation Russian Chinese Korean Polish Jewish French and British residents filled this multiethnic city on the Sungari River The Chinese took over Harbin after the October Revolution and ruled it from 1918 until the Japanese founded the puppet state of Manchukuo in 1932 In his account of the radical changes that this unique city experienced over a brief span of time Carter examines the majority Chinese population and its developing Chinese identity in an urban area of fifty languages Originally Carter argues its nascent nationalism defined itself against the foreign presence in the city while using foreign resources to modernize the area Early versions of Chinese nationalism embraced both nation and state By the late 1920s the two strands had separated to such an extent that Chinese police fired on Chinese student protesters This division eased the way for Japanese occupation the Chinese state structure proved a fruitful source of administrative collaboration for

Smith George and Nancy Rupp Professor of Humanities and Professor of History Rice University USA In this illuminating set of essays Liu Xiaoyuan the master of China s frontier history and ethnopolitics ranges widely across the boundaries of space and time to examine how modern China came into being By emphasizing the seemingly paradoxical centrality of the periphery in the consolidation and legitimation of Chinese political authority Liu explains Beijing s concern about trouble on its Inner Asian frontiers and expands our understanding of China s
