Modernism from the Avant-Garde to Prehistory Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic

stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

The Oxford Critical and Cultural History of Modernist Magazines Peter Brooker, Andrew Thacker, 2009 The first full study of the role of little magazines and their contribution to the making of artistic modernism and the avant garde across Europe this volume is a major scholarly achievement of immense value to those interested in material culture of the twentieth century

2023 Günter Berghaus, Dalila Colucci, Tim Klähn, 2023-12-04 This thirteenth volume of the International Yearbook of Futurism Studies explores some of the many facets of Neo Futurism from the second half of the twentieth century to the present day It looks both at the revival and the continuation of Futurist aesthetics whether in explicit or palimpsest form in a variety of media literature visual art design music architecture theatre and photography The essays delve into the broad spectrum of artistic research and offer a good dozen case studies that document with a transnational and interdisciplinary orientation the manifold forms of Neo Futurism in various parts of the world They investigate how historical Futurism's intellectual and artistic perspective was appropriated and developed further in a more or less conscious faithful and original way all the while confronting its progenitor's cultural social and political misconceptions Interdisciplinary contributions to neo futurism as a global phenomenon

Children and Yiddish Literature From Early Modernity to Post-Modernity Gennady Estraiikh, Kerstin Hoge, Krutikov Mikhail, 2016-05-20 Children have occupied a prominent place in Yiddish literature since early modern times but children's literature as a genre has its beginnings in the early 20th century Its emergence reflected the desire of Jewish intellectuals to introduce modern forms of education and promote ideological agendas both in Eastern Europe and in immigrant communities elsewhere Before the Second World War a number of publishing houses and periodicals in Europe and the Americas specialized in stories novels and poems for various age groups Prominent authors such as Yankev Glatshteyn Der Nister Joseph Opatoshu Leyb Kvitko made original contributions to the genre while artists such as Marc Chagall El Lissitzky and Yisakhar Ber Rybak also took an active part In the Soviet Union meanwhile children's literature provided an opportunity to escape strong ideological pressure Yiddish children's literature is still being produced today both for secular and strongly Orthodox communities This volume is a pioneering collective study not only of children's literature but of the role played by children in literature

The Institutions of Russian Modernism Jonathan Stone, 2017-10-15 The Institutions of Russian Modernism illuminates the key role of Symbolism as the earliest form of modernism in Russia emerging seemingly ex nihilo at the end of the nineteenth century Combining book history periodical studies and reception theory Jonathan Stone examines the poetry and theory of

Russian Symbolism within the framework of the institutions that organized published and disseminated the works to Russian readers Surveying a wealth of examples of books journals and almanacs Stone traces how publishers of Symbolist works marketed the movement and fashioned a Symbolist reader His persuasive argument that after its eclipse Symbolism s legacy remained embedded in the heart of Russian modernism will be of interest to scholars and general readers [2019 Günter Berghaus](#),[Oleh S. Ilnytskyj](#),[Gabriella Elina Imposti](#),[Christina Lodder](#),2019-12-16 The ninth volume of the International Yearbook of Futurism Studies is dedicated to Russian Futurism and gathers ten studies that investigate the impact of F T Marinetti s visit to Russia in 1914 the neglected region of the Russian Far East the artist and writers Velimir Khlebnikov Vasily Kamensky Maria Siniakova and Vladimir Mayakovsky the artistic media of advertising graphic arts cinema and artists books *Word Play* Ainsley Morse,2021-03-15 *Word Play* traces the history of the relationship between experimental aesthetics and Soviet children s books a relationship that persisted over the seventy years of the Soviet Union s existence From the earliest days of the Soviet project children s literature was taken unusually seriously its quality and subject matter were issues of grave political significance Yet it was often written and illustrated by experimental writers and artists who found the childlike aesthetic congenial to their experiments in primitivism minimalism and other avant garde trends In the more repressive environment following Stalin s rise to power experimental aesthetics were largely relegated to unofficial and underground literature but unofficial writers continued to author children s books which were often more appealing than adult literature of the time *Word Play* focuses on poetry as the primary genre for both children s and unofficial literature throughout the Soviet period Five case studies feature poets cum children s writers Leonid Aronzon Oleg Grigoriev Igor Kholin Vsevolod Nekrasov and Dmitri Prigov whose unpublished work was not written for children but features lexical and formal elements abundant humor and childlike lyric speakers that are aspects of the childlike aesthetic The book concludes with an exploration of the legacy of this aesthetic in Russian poetry today Drawing on rich primary sources *Word Play* joins a growing literature on Russian children s books connecting them to avant garde poetics in fresh surprising ways **The Education of a Typographer** Steven Heller,2012-02-14 Exploring the methods for teaching and learning typography this book features more than 40 essays from top experts and educators in typography today These essays run the gamut from introducing the themes of type and typography to various complex and rare strategies for learning [Esfir Shub](#) Ilana Shub Sharp,2021-12-30 *Esfir Shub* was the only prominent female director of nonfiction film present at the dawning of the Soviet film industry She was in fact the first woman both to write critical texts on cinema and then practically apply these theorisations in her own films As such her syncretism of cinema theory and praxis inspired her to ask questions regarding both the nature of nonfiction film such as the problem of authenticity and reality and the function of the artist in society issues which are still relevant in contemporary discussions about the documentary Accordingly this book demonstrates Shub s position not only as a significant filmmaker and recognised member of the early Soviet avant garde but also as a key figure

in global cinema history Shub deserves recognition both as the founder and ardent promoter of the compilation film genre and as a pioneer of the theory and practice of documentary filmmaking *A Dictionary of the Avant-Gardes* Richard Kostelanetz, 2018-11-15 Twenty five years after the publication of *A Dictionary of the Avant Gardes* the distinguished critic and arts historian Richard Kostelanetz returns to his favorite subject for a third edition Rewriting earlier entries adding hundreds of new ones Kostelanetz provides intelligence and information unavailable anywhere else no less in print than online about a wealth of subjects and individuals Focused upon what is truly innovative and excellent he ranges widely with insight and surprise including appreciations of artistic athletes such as Muhammad Ali Johan Cruyff and the Harlem Globetrotters and such collective creations as Las Vegas and his native New York City Continuing the traditions of cheeky high style Dictionarysts honoring Samuel Johnson and Nicolas Slonimsky both with individual entries Kostelanetz offers a reference book to be enjoyed not only in bits and chunks but continuously as one of the dozen books someone would take if they planned to be stranded on a desert isle *Gan's Constructivism* Kristin Romberg, 2019-01-08 This compelling new account of Russian constructivism repositions the agitator Aleksei Gan as the movement's chief protagonist and theorist Primarily a political organizer during the revolution and early Soviet period Gan brought to the constructivist project an intimate acquaintance with the nuts and bolts of making revolution Writing slogans organizing amateur performances and producing mass media objects define an alternative conception of the work of art no longer an autonomous object but a labor process through which solidarities are built In an expansive analysis touching on aesthetic and architectural theory the history of science and design sociology and feminist and political theory Kristin Romberg invites us to consider a version of modernism organized around the radical flattening of hierarchies a broad distribution of authorship and the negotiation of constraints and dependencies Moving beyond Cold War abstractions Gan's Constructivism offers a fine grained understanding of what it means for an aesthetics to be political *The Cambridge Companion to Modern Russian Culture* Nicholas Rzhevsky, 2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past *Handbook of International Futurism* Günter Berghaus, 2018-12-17 The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement initiated by F T Marinetti in 1909 exercised a particularly noteworthy influence The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty eight countries While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia it treats Futurism as an international multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth century avant garde Hundreds of artists who in some phase in their career absorbed Futurist ideas and stylistic devices are presented in the context of their national traditions their international connections and the media in which they were predominantly active The handbook acts as a kind of multi disciplinary geographical

encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact **With and Against** Dominique Routhier, 2023-10-24 The little known story of the Situationist International's struggle against the automation of everyday life No other art movement has so profoundly influenced radical politics as the Situationist International But beyond the clichés about its purported leader Guy Debord the society of the spectacle and tournament and drive lies a more complex story about key historical shifts in the composition of capital work labor art and revolutionary theory during the 1950s and 60s With and Against reframes the history of the Situationist International as a struggle to come to terms with the then emerging ideologies of cybernetics and automation Through each of the book's four chapters Dominique Routhier dissects Situationist pamphlets documents artworks and objects that refract elements of a cybernetic hypothesis the theoretically hyperbolic belief that technological progress computers and automation make class struggle and the idea of revolution obsolete With equal attention to aesthetic detail and to the broader contours of political economy this book serves as a critical intervention in art history as well a call to reconsider more broadly the contemporary lessons of the most political of all artistic avantgardes
