Russian Transformation Political Sociological And Psychological Aspects:

The Russian Transformation Betty Glad, Eric Shiraev, 1999 The transition from a Soviet to a Russian society has not been a smooth ride crime rates have soared corruption is at an all time high ethnic tensions are fierce and alcoholism is on the rise There is perhaps no more challenging phenomenon for today's political science student than the study of this transition Politically relevant variables that can be ignored in more stable politics have been manipulated by history revealing the importance of underlying political culture to political institutions and processes The Soviet and Russian experience suggests that radical change is difficult to direct toward the desired end and transformation can lead to widespread anomie and institutional breakdown This explanation of the difficulties in this process comes from a multi disciplinary perspective combining sociological and political psychological analyses of the Russian political transition since 1985 *Russian Government and Politics* Eric Shiraev, 2025-02-20 This new edition covers everything students need to know about the key institutions people parties and policies in Russian government and politics as well as covering political behaviour participation and communication Revised to offer coverage and analysis of recent events this new edition offers Discussion of new developments related to the war in Ukraine and its consequences geopolitical political economic social psychological etc for Russia Europe Eurasia and the world Expanded critical discussion of the Russian political system and its pivot toward authoritarianism Detailed discussion of social and cultural issues and their interaction with politics to further underline the role of individual personalities and the political impact of informal political and business arrangements in Russia New research and statistical updates including opinion polls expert opinions and other sources relevant to Russian government and politics This is the ideal text for upper level undergraduate and postgraduate students studying Russian politics or comparative government and politics more broadly Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

Agrarianism as Modernity in 20th-Century Europe Alex Toshkov, 2019-09-05 Whilst Soviet communism and its relationship with modernity has been widely studied to date the agrarian experiment in Eastern Europe has been relegated to the margins of historical analysis In this comparative study Alex Toshkov uncovers the history of agrarianism after the First World War and explores its place as an alternative modernity to liberal democracy and capitalism Drawing on a wealth of archival material this book explores the transnational connections between the paradigmatic cases of Bulgaria Yugoslavia and Czechoslovakia as well as the International Agrarian Bureau in Prague teasing out contradictions hidden records and silenced interpretations of agrarianism In addition it uses a microhistorical approach to present an innovative theoretical framework which adds to our understanding of nationalism political corruption and alterity and the subaltern This fascinating study restores interwar agrarianism to its rightful place as one of the most original and significant political currents in 20th century Europe

The Religious Factor in Russia's Foreign Policy Alicja Curanović, 2012-03-15 This book examines how religion interacts with Russian foreign policy arguing that religion is an important and neglected factor in shaping Russia's outlook towards international relations It surveys the importance of religion for social life in Russia both historically and at present and considers a wide range of Russian attitudes which are affected by religion such as Russian nationalism notions of Slavic solidarity the divine mission of Russian Orthodox civilisation Russian imperialism Russia's special approach towards Islam The book discusses how religious organizations especially the Russian Orthodox Church operate in international relations pursuing their own interests and those of the Russian state explores how religious ideas and culture linked to religion impinge on Russian attitudes and identity and thereby affect policy and demonstrates how policy influenced by religion impacts on Russian foreign policy in practice in a wide range of examples including Russia's relations with other orthodox countries non orthodox Western countries Muslim countries Israel and the Vatican

Stanislavsky in Practice Vreneli Farber, 2008 Stanislavsky in Practice focuses on the course of study pursued today by aspiring actors in Russia and on the philosophy that informs this curriculum It draws on extensive observation during the academic year 2000 2001 of the actor training program of the St Petersburg State Academy of Theatre Arts SPGATI one of the three most prestigious theatrical institutes in Russia and on interviews of a wide array of individuals in the Academy Although the years since 1991 have witnessed many changes in theater and in actor training sources of funding administration choice of repertoire new methodologies etc there remains much continuity with the past The core of this continuity is the Stanislavsky tradition which

nevertheless has been affected by the views of post Soviet Russia The developments in actor training from 1991 to 2001 reflect the challenges and problems faced by other institutions in the arts and sciences In other words the phenomenon of continuity and discontinuity with the past is characteristic of other institutions in Russia cultural as well as scientific and educational *Out of Order* Ellen Carnaghan,2010-11-01 *Weaponizing Cyberspace* Nicholas Michael

Sambaluk,2022-02-04 The Russian regime s struggle for internal control drives multifaceted actions in cyberspace that do not stop at national borders Cybercrime technical hacking and disinformation are complementary tools to preserve national power internally while projecting effects onto myriad neighbors and rivals Russian activity in the cyber domain is infamous in the United States and other Western countries *Weaponizing Cyberspace* explores the Russian proclivity particularly in the 21st century for using cyberspace as an environment in which to launch technical attacks and disinformation campaigns that sow chaos and distraction in ways that provide short term advantage to autocrats in the Kremlin Arguing that Russia s goal is to divide people Sambaluk explains that Russia s modus operandi in disinformation campaigning is specifically to find and exploit existing sore spots in other countries In the U S this often means inflaming political tensions among people on the far left and far right Russia s actions have taken different forms including the sophisticated surveillance and sabotage of critical infrastructure the ransoming of data by criminal groups and a welter of often mutually contradictory disinformation messages that pollute online discourse within and beyond Russia Whether deployed to contribute to hybrid war or to psychological fracture and disillusionment in targeted societies the threat is real and must be understood and effectively addressed **Conceptual Structure and Social Change** Sara Schatz,Javier Jesús Gutiérrez-Rexach,2002-09-30

Sociopolitical changes are often associated with ideological shifts at the individual and mass level The study of how sociopolitical and ideological change interrelate has been the subject of debate for decades Here however the authors develop and defend a new theory that treats ideologies as complex cognitive systems that are internally articulated around prioritized principles and values Focusing on the transition to democracy in Latin America the book examines the changes in mass beliefs that accompany democratization in an effort to offer a more sophisticated theory of the relationship between belief ideology and action in social change Ultimately the authors argue for a cognitive based model that can account for how social actors come to define democracy in current contexts Taking democratization as a case study *Conceptual Structure and Social Change* R focuses on third wave transitions to democracy of the 1990s because they are evidence of very complex ideological changes and alignments Using comparative survey data as a tool to track ideological shifts several ideological uniformities are identified such as the rise of a unified opposition the paradoxical support of the masses to the authoritarian party in power and the ideological shifts and strategies used by ruling and opposition elites to gain mass support Viewing these changes as the mechanics of ideological systems in flux paves the way for a general theory of ideological change

Eastern European Music Industries and Policies after the Fall of Communism Patryk Galuszka,2021-04-05 During

Blumberg,A. Paul Hare,Anna Costin,2006-12-07 This textbook provides a comprehensive introduction to peace psychology covering interdisciplinary practice primary psychological topics core peace studies topics and terrorism State-building in Russia Gordon B. Smith,1999 The challenge of a new democracy the author argues is the creation of effective and authoritative political institutions Focusing on Yeltsin s Russia this book examines this question with reference to democratization national identity legal reform and other issues **Striking First** B. Glad,C. Dolan,2016-04-30 How have the September 11th terrorist attacks and the subsequent U S led war on terrorism impacted American foreign policy at home and abroad The consistent theme throughout this collection of essays is that September 11th was a watershed event which sparked a redefinition and reassessment of U S foreign policy governmental institutions and the public s sense of internal and external security The Bush Administration s endeavor to remake American foreign policy with an emphasis on a preemptive first strike doctrine and its attempt to build an internal security apparatus are not only consequential in the war on terrorism such efforts are challenging the very fundamentals of American political life and its perception throughout the world **The Holy Fool in European Cinema** Alina G. Birzache,2016-02-05 This monograph explores the way that the profile and the critical functions of the holy fool have developed in European cinema allowing this traditional figure to capture the imagination of new

generations in an age of religious pluralism and secularization Alina Birzache traces the cultural origins of the figure of the holy fool across a variety of European traditions In so doing she examines the critical functions of the holy fool as well as how filmmakers have used the figure to respond to and critique aspects of the modern world Using a comparative approach this study for the first time offers a comprehensive explanation of the enduring appeal of this protean and fascinating cinematic character Birzache examines the trope of holy foolishness in Soviet and post Soviet cinema French cinema and Danish cinema corresponding broadly to and permitting analysis of the three main orientations in European Christianity Orthodox Catholic and Protestant This study will be of keen interest to scholars of religion and film European cinema and comparative religion

Tear Off the Masks! Sheila Fitzpatrick, 2005-07-05 When revolutions happen they change the rules of everyday life both the codified rules concerning the social and legal classifications of citizens and the unwritten rules about how individuals present themselves to others This occurred in Russia after the Bolshevik Revolution of 1917 which laid the foundations of the Soviet state and again in 1991 when that state collapsed *Tear Off the Masks* is about the remaking of identities in these times of upheaval Sheila Fitzpatrick here brings together in a single volume years of distinguished work on how individuals literally constructed their autobiographies defended them under challenge attempted to edit the file selves created by bureaucratic identity documentation and denounced others for masking their true social identities Marxist class identity labels worker peasant intelligentsia bourgeois were of crucial importance to the Soviet state in the 1920s and 1930s but it turned out that the determination of a person's class was much more complicated than anyone expected This in turn left considerable scope for individual creativity and manipulation Outright imposters both criminal and political also make their appearance in this book The final chapter describes how after decades of struggle to construct good Soviet socialist personae Russians had to struggle to make themselves fit for the new post Soviet world in the 1990s by de Sovietizing themselves Engaging in style and replete with colorful detail and characters drawn from a wealth of sources *Tear Off the Masks* offers unique insight into the elusive forms of self presentation masking and unmasking that made up Soviet citizenship and continue to resonate in the post Soviet world
