Weeks, 2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city

has played a significant role in the history and development of at least three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population Vilnius between Nations 1795 2000 is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city s identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region Landmarks of Russian Architect William Craft Brumfield,2013-12-02 A comprehensive guide to Russian architecture this volume is designed for students and other readers wishing to gain an understanding of the subject *All Russia Is Burning!* Cathy A. Frierson,2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia s economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to perceived it as a key obstacle to Russia s becoming a modern society in the European model Using sources ranging from literary representations and newspaper articles to statistical tables and court records Frierson demonstrates the many meanings fire held for both peasants and the educated elite To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch roofed huts Absent the rule of law they often used arson to gain justice or revenge or to exert social control over those who would violate village norms Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self help law or plain spite Both the state and individual progressives set out to resolve the fire question and to educate cajole or coerce the peasantry into the modern world Fire insurance building codes scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze but none of these measures succeeded in curbing the number of fires each year More than anything else this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia s advent into the company of prosperous rational civilized nations **Divided**
