The Russian Revolution and Bolshevik Victory ; Causes and Processes Arthur E. Adams,1972 **The Russian Revolution and Bolshevik Victory** Arthur E. Adams,1960 **The Russian Revolution and Bolshevik Victory** Arthur E. Adams,1960 *The Russian Revolution and Civil War 1917-1921* Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature *The Russian Revolution and Civil War 1917 1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

The Russian Revolution Walter Rodney,2018-07-10 A never before published history of the Russian Bolshevik Revolution and its post colonial legacy woven together from lecture excerpts by the renowned Pan African revolutionary socialist theorist In his short life Guyanese intellectual Walter Rodney emerged as one of the foremost thinkers and activists of the anticolonial revolution leading movements in North America Africa and the Caribbean Wherever he was Rodney was a lightning rod for working class Black Power organizing His deportation sparked Jamaica s Rodney Riots in 1968 and his scholarship trained a generation how to approach politics on an international scale In 1980 shortly after founding the Working People s Alliance in Guyana the 38 year old Rodney was assassinated Walter Rodney s *The Russian Revolution* collects surviving texts from a series of lectures he delivered at the University of Dar es Salaam an intellectual hub of the independent Third World It had been his intention to work these into a book a goal completed posthumously with the editorial aid of Robin D G Kelley and Jesse Benjamin Moving across the historiography of the long Russian Revolution with clarity and insight Rodney transcends the ideological fault lines of the Cold War Surveying a broad range of subjects the Narodniks social democracy the October Revolution civil war and the challenges of Stalinism Rodney articulates a distinct viewpoint from the Third World one that grounds revolutionary theory and history with the people in motion **The Russian Revolution and Bolshevik Victory, why and How?** Arthur E. Adams,1960 **An Historical Introduction to Western Constitutional Law** R. C. van Caenegem,1995-03-23 Professor van Caenegem s new book addresses fundamental questions of constitutional organization democracy versus autocracy unitary versus federal organization pluralism versus intolerance by analyzing different models of constitutional government through a historical perspective The approach is chronological constitutionalism is explained as the result of many centuries of trial and error through a narrative that begins in the early Middle Ages and concludes with contemporary debates focusing on Europe the United States and the Soviet

Union **Sociological Reasoning** Rob Stones,1996-07-03 While sociological modernists were outrageously presumptuous in their claims for sociological knowledge postmodernists have gone to another extreme in claiming that it has no more truth status than fiction Critical of both positions Sociological Reasoning develops an original typology of approaches to social scientific theory and research which is distinguished by its openness and reflexive awareness of rhetorical and methodological aspects of knowledge claims Laced with graphic illustrative examples this is a strikingly well written text that will appeal to students at undergraduate level and beyond **The Global South and comparative and international education** Charl C. Wolhuter ,2023-04-30 This book proposes and unpacks the construct Criticism against Northern Hegemony in the scholarly field of Comparative and International Education as bringing together a number of related strands in the field and as showing a promising future trajectory for the evolution of the field namely the affirmation of the Global South This construct captures a significant amount of what leading scholars in the field of Comparative and International Education are currently engaged with It also expresses a view of both the current epoch of education as well as of the societal contextual imperatives shaping education Criticism against Northern Hegemony in the field comes to the fore in a number of related strands in the current discourse in the field This scholarly book originates from the Research Unit of Human Rights Education in Diversity at North West University South Africa where the author is affiliated The book is grounded in the Creed for Human Rights From this perspective the book advocates for a new phase in the historical development of the field with a focus on advancing the affirmation of the Global South as a central moral foundation The author envisions that this shift will represent a significant advancement in Comparative and International Education propelling it to an unprecedented stage of value and importance *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1975 **World War II, Roots and Causes** Keith Eubank,1975 Topics of focus include the problem of historical context the tension between traditional and revisionist viewpoints the question of Allied appeasement the failure of intelligence gathering the Soviet role and the place of the Holocaust in accounts of the causes of World War II

44 **Journal of a Dissenter** Chris Wright,2025-01-20 This is a lengthy intellectual journal by a political radical that ranges over a variety of subjects such as Marxism capitalism history many schools of modern philosophy psychology economics and contemporary American politics It also includes quite a few personal passages but I ve kept those only because they express common experiences and youthful psychological tendencies Its most useful content for students might be its many summaries of good historical and scientific scholarship especially in the journal s second half Ultimately the document is a fairly comprehensive expression of a particular society as refracted through an inquisitive and critical mind from the ages of 15 to 44 **The Russian Revolution and Bolshevik Victory** Ronald Grigor Suny,Arthur E. Adams,1990 This is a basic instructional guide to drawing birds With the aid of step by step drawings the author explains clearly and concisely how to use pencil pen and ink Conte and charcoal to achieve successful bird drawings **The Social and Political Thought of**

Leon Trotsky Baruch Knei-Paz, 1978 This is the first comprehensive exposition and critical analysis of Trotsky's social and political ideas Eschewing the polemics which have characterized so much of the literature on Trotsky but not abandoning the critical approach the author shows that Trotsky's was the most far reaching and original of theoretical attempts to deal with the relationship between Marxism and the Social Democratic movement on the one hand and backwardness and the problems of pre industrial or underdeveloped society on the other The author also deals in detail with the problem of why Trotsky once a violent opponent of Bolshevism later became one of its most ardent supporters and indeed leaders This book is therefore as much a study of the Russian Revolution as of the ideas of one man Back cover
