International Law and the Russian Legal System Bogdan Leonidovich Zimnenko, 2007 This work analyzes the interaction between international law and the Russian legal system at a level of detail and sophistication without precedent in Russian legal doctrine This topic has become vital for Russian courts because generally recognized principles and norms of international law and international treaties have become part of the Russian legal system since the Constitution of Russia was adopted in 1993 Great attention is paid in this study to Russian judicial practice in applying customary and treaty norms the author had access to unpublished decisions in the archives of the Russian Supreme Court and other courts of the Russian Federation The book also gives attention to the impact of decisions of international organizations and the practice of the European Court for Human Rights The author sets out the legal foundations of the interaction between international law and municipal law in relations between subjects of international and national law and he addresses at length whether and when the direct application of international legal norms is possible in the domestic legal relations of Russia The book raises to a new level the continuing discussion of the correlation of international and national law Classic concepts of monism and dualism cannot cope with all aspects of the interaction of international and national law International Law and the Russian Legal System will be of interest to academics practicing lawyers government legal advisors and investors *Real Estate in Russia — A Legal Guide* , *Everyday Law in Russia* Kathryn Hendley, 2017-02-07 Everyday Law in Russia challenges the prevailing common wisdom that Russians cannot rely on their law and that Russian courts are hopelessly politicized and corrupt While acknowledging the persistence of verdicts dictated by the Kremlin in politically charged cases Kathryn

Hendley explores how ordinary Russian citizens experience law Relying on her own extensive observational research in Russia's new justice of the peace courts as well as her analysis of a series of focus groups she documents Russians' complicated attitudes regarding law The same Russian citizen who might shy away from taking a dispute with a state agency or powerful individual to court might be willing to sue her insurance company if it refuses to compensate her for damages following an auto accident Hendley finds that Russian judges pay close attention to the law in mundane disputes which account for the vast majority of the cases brought to the Russian courts Any reluctance on the part of ordinary Russian citizens to use the courts is driven primarily by their fear of the time and cost measured in both financial and emotional terms of the judicial process Like their American counterparts Russians grow more willing to pursue disputes as the social distance between them and their opponents increases Russians are loath to sue friends and neighbors but are less reluctant when it comes to strangers or acquaintances Hendley concludes that the rule of law rubric is ill suited to Russia and other authoritarian polities where law matters most but not all of the time
