Eterno,Dilip K. a unique viewpoint explaining the country's police from the perspective of that country's culture. The focus of the book is on transnational crime and terrorism; however, each chapter provides a basic understanding of policing in that nation. Additionally, a chapter on current legal practices throughout the world develops a global understanding of the difficulties faced by law enforcement. To combat crime and terrorism on a global scale requires an understanding of other nations, their cultures, their laws, their viewpoints. This book, written by indigenous authors, provides unique insights into the countries being examined. The wide range of countries combined with native experts make this book a necessary first step toward properly handling international crime and terrorism.

Great Powers, Climate Change, and Global Environmental Responsibilities Robert Falkner, Barry Buzan, 2022-01-10. This book is the first of its kind to examine the role of great powers in the international politics of climate change. It develops a novel analytical framework for studying environmental power in international relations: what counts as a great power in the environmental field and what their special environmental responsibilities are. In doing so, the book connects International Relations (IR) debates on power inequality, great powers, and great power management with global environmental politics (GEP) scholarship. The book brings together leading scholars in IR and GEP whose contributions focus on major environmental powers: United States, China, European Union, India, Brazil, Russia, and international institutions and issue areas: UN Security Council, multilateral environmental agreements, international climate leadership, coal politics. The contributors to this volume examine how individual great powers have responded to the global climate challenge and whether they have accepted a special responsibility for stabilizing the global climate. They place emerging discourses on great power responsibility in the context of wider debates about international environmental leadership and climate change securitization. And they provide new insights into how international power inequality intersects with the global ecological crisis and what special role great powers could and should play in the international fight against global warming.

Information India 1992-93 : Global View S. P. Agrawal, 1994. **The Geopolitics of Energy in South Asia** Marie Lall, 2009. Energy security has become a central concern for all the countries in the Asian region, and the search for sufficient sources of energy to fuel economic growth has drastically influenced relations among the South Asian countries as well as their respective relations with their neighbours: China, Myanmar, Iran, and Afghanistan. The recent nuclear deal between India and the US is also indicative of how energy and power politics are linked, and how these new inter-linkages underlie relations between states. This book aims to give a South Asian perspective on the geopolitics of energy, with a central focus on India. The chapters address how India's global and regional foreign policy making has changed in light of India's search for energy and how this is affecting the relationship on a global level between India and the US, as well as on a regional level between India and the other Asian countries. The book also offers views from Pakistan and Bangladesh, as well as how this shifting reality is affecting relations between India and Southeast Asia.

Fostering Asian Regional Cooperation and Open Regionalism in an Unsteady World Asian Development Bank, 2021-12-01

This publication summarizes the key discussions of the 2019 conference on regional cooperation and integration RCI organized by the Asian Development Bank ADB It underscores the need for ADB developing member countries DMCs to work closely with the private sector to finance climate resilient infrastructure and bolster inclusive growth as well as harness new technologies Drawing on insights from the conference the publication shows why DMCs need to act collectively to strengthen their green energy capabilities and develop a shared ocean based economy It also emphasizes how cross border and regional cooperation can improve trade reduce inequalities and help build sustainable livelihoods The Geopolitics of Australia's Regional Relations D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda **China's Regional Relations in Comparative Perspective** Steven F. Jackson, 2018-02-06 China's relations with its neighbors have evolved since 1949 and in the 21st century many scholars argue that China's rising power has led it to be increasingly domineering over those smaller countries in Northeast Southeast Central and South Asia The evolution of China's regional relations needs to be examined comprehensively since China counts twenty seven countries as its neighbors large and small While China's official policy toward all of these countries is to treat them as good neighbors and partners some of these relationships have been spectacularly deteriorating while others have been quietly improving over the last two decades Jackson takes a comparative foreign policy approach and compares China's status as a regional hegemon with the United States Russia India Brazil South Africa and Nigeria The result is a broader theory as to why regional powers are sometimes intimidating and at other times accommodating An important contribution to studies on China this book will prove useful to scholars and students in Chinese and Asian foreign policy comparative foreign policy and international relations **International Law And Sustainable Development** Nico J. Schrijver, Friedl Weiss, 2004-01-01 Schrijver Vrije U Amsterdam and Weiss U of Amsterdam have both served on committees of the

International Law Association ILA **Authoritarian Regionalism in the World of International Organizations**

Anastassia V. Obydenkova, Alexander Libman, 2019-05-02 The interconnection between international organizations IOs membership and democratization has become a topic of intense debate However the main focus of the literature so far has been on IOs created by democratic states and comprised mostly of democracies for examples the European Union In contrast to existing studies this book focuses on another group of regional IOs referred to as non democratic IOs which are organizations founded by autocracies How do these newly emerged organizations interrelate and interact with the outside world How do they counteract and confront the danger of democratization in their own member states and neighboring states This book aims to address these questions by developing a new theory of authoritarian regionalism and by combining both quantitative and qualitative analysis to test it The quantitative analysis uses a large dataset of all regional organizations worldwide for the post World War II period with the aim of defining historical trends in development and the modification of regionalism over the last seven decades 1945 2015 Qualitative analysis refines and develops the argument by looking at the case of post Soviet Eurasia The book uncovers a new type of regionalism authoritarian regionalism and traces its historical roots as well as its implications for modern politics The book is the first attempt to systematically investigate the functioning and the impact of authoritarian regionalism as a new phenomenon as well as its implications for democratization world wide The book contributes to the theory of regionalism international organizations studies of autocracies foreign policy and democratization world wide *International Police Cooperation* Daniel J. Koenig, Dilip K. Das, 2001-01-01 International Police Cooperation A World Perspective brings together both practical and theoretical perspectives on the subject of international police cooperation This volume combines the efforts of leading practitioners and academics in criminology to address the challenges of such persistent international problems as organized crime and illegal immigration Rather than focusing solely on the problems that make cooperation desirable however this book offers the most current and detailed account of new international cooperative initiatives Employing an innovative cross cultural and comparative methodology editors Daniel J Koenig and Dilip K Das and their eminent contributors present invaluable information for students of criminology and sociology which will fill a long felt gap in the literature on policing
