Freedom Philip Clayton, 2009 Clayton defends the idea of human freedom as an emergent property against various forms of reductionism especially as evidenced in the writings of some philosophers Working through an enormous amount of scholarly literature much of it in the area of evolutionary biology he tries to show how human freedom even the freedom implicit in religious transcendence can be thought to emerge from more primitive levels His lectures and this book are outstanding examples of the constructive dialogue among natural science philosophy and religion of the sort that the Frankfurt Lectures have sought to promote Book Jacket

Final Freedom Michael Vorenberg, 2001-05-21 This book examines emancipation after the Emancipation Proclamation of 1863 Focusing on the making and meaning of the Thirteenth Amendment Final Freedom looks at the struggle among legal thinkers politicians and ordinary Americans in the North and the border states to find a way to abolish slavery that would overcome the inadequacies of the Emancipation Proclamation The book tells the dramatic story of the creation of a constitutional amendment and reveals an unprecedented transformation in American race relations politics and constitutional thought Using a wide array of archival and published sources Professor Vorenberg argues that the crucial consideration of emancipation occurred after not before the Emancipation Proclamation that the debate over final freedom was shaped by a level of volatility in party politics underestimated by prior historians and that the abolition of slavery by constitutional amendment represented a novel method of reform that transformed attitudes toward the Constitution

Glory, Passion, and Principle Melissa Lukeman Bohrer, 2007-11-01 Much has been written of the brave deeds acts of heroism and intellectual prowess of the men who drafted the Declaration of Independence over two hundred years ago yet almost no attention has been paid to the extraordinary women of that time women who helped found our nation with courage sacrifice and intellect equal to any of the famed male politicians of 1776 Glory Passion and Principle tells the story of eight incredible women each deprived of formal education world travel or equal status and yet all managed to flourish against incredible odds Whether advising such men as John Adams Thomas Jefferson or Benjamin Franklin on political theory publishing poems and plays that would rouse a nation to independent furor helping negotiate treaties acting as spies or fighting alongside men in the military these women broke the limiting definitions imposed upon them much as America was doing for itself and helped form and found the country that is America today Each chapter is dedicated to a different woman starting with Abigail Adams political confidante and wife of John Adams Using her intellect to influence her husband's position in the Continental Congress she earned the distinction of being the only person to put Thomas Jefferson in his place Nancy Ward the brave and diplomatic leader of the Cherokee tribe matured from a young widow to bold warrior risking her life and those of her people when she warned the Patriots of imminent attack by Native American tribes She became a strong voice when the Treaty of Hopewell was signed in 1785 Yet another bright light was Sybil Ludington a seventeen year old who took it upon herself to alert her town's militia that the British were coming and survived a ride twice as long as Paul Revere's And where Revere got caught Ludington did not

Illusions of Emancipation Joseph P. Reidy, 2019-01-15 As students of the Civil War have long known emancipation was not merely a product of Lincoln's proclamation or of Confederate defeat in April 1865 It was a process that required more than legal or military action With enslaved people fully engaged as actors emancipation necessitated a fundamental reordering of a way of life whose implications stretched well beyond the former slave states Slavery did not die quietly or quickly nor did freedom fulfill every dream of the enslaved or their allies The process unfolded unevenly In this sweeping reappraisal of slavery's end during the Civil War era Joseph P Reidy employs the lenses of time space and individuals sense of personal and social belonging to understand how participants and witnesses coped with drastic change its erratic pace and its unforeseeable consequences Emancipation disrupted everyday habits causing sensations of disorientation that sometimes intensified the experience of reality and sometimes muddled it While these illusions of emancipation often mixed disappointment with hope through periods of even intense frustration they sustained the promise that the struggle for freedom would result in victory
