Science has its own language the arts have another Religion uses especially the language of the arts for it uses signs and symbols like bridges from the visible to the invisible from the depths to the heights from the earthly world to the heavenly one from humanity to God The symbol is not an object of worship but invites to worship It leads to the encounter with the divine Its language takes an object or an action and from it evokes something other which is often inexpressible by virtue of some correspondence natural association or convention From publisher description **Symbols of the Christian Faith**

Ancient Pagan and Modern Christian Symbolism Thomas Inman,2020-09-07 The relationship between Christian symbols and those of ancient religions is storied and complex in this illustrated work surgeon and mythologist Thomas Inman discusses many examples This competent and extensively illustrated analysis was born of the authors interest in archaeology and advancements in the understanding of ancient cultures Though a hobbyist antiquarian Inman managed to amass a wealth of reliable information from associates working on excavations and in academia With the relics and written resources available the author compiled a long list of succinct examples of religious objects and imagery which were then sketched in detail allowing the author to publish this narrative Through the use of images we can see how symbols that emerged in antiquity were carried over to Christianity becoming powerful emblems of the faith How Gods and Goddesses are depicted in the religions of antiquity both Western and Eastern invites striking parallels with Christian symbols and artworks Certain shapes and icons that appear in churches share much in appearance with those used in various ancient traditions as Inman demonstrates with fascinating comparative insight
