activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action **Natural Health** ,1993 **The Quest** ,2008

Muddy Ground John William Nelson, 2023-09-12 In early North America carrying watercraft usually canoes and supplies across paths connecting one body of water to another was essential in the establishment of both Indigenous and European mobility in the continent s interior The Chicago portage a network of overland canoe routes that connected the Great Lakes and Mississippi watersheds grew into a crossroads of interaction as Indigenous and European people vied for its control during early contact and colonization John William Nelson charts the many peoples that traversed and sought power along Chicago s portage paths from the seventeenth to the mid nineteenth centuries including Indigenous Illinois traders French explorers Jesuit missionaries Meskwaki warriors British officers Anishinaabe headmen and American settlers Nelson compellingly demonstrates that even deep within the interior power relations fluctuated based on the control of waterways and local environmental knowledge Pushing beyond political and cultural explanations for Indigenous European relations in the borderlands of North America

Nelson places environmental and geographic realities at the center of the history of Indigenous Chicago offering a new explanation for how the United States gained control of the North American interior through a two pronged subjugation of both the landscapes and peoples of the continent
