Sacrifice We Offer Tridentine Dogma And Its Reinterpretation:

The Sacrifice We Offer David Noel Power, 1987

Sacrifice in Pagan and Christian Antiquity Robert J.

Daly, 2019-08-22 Robert J. Daly S.J. examines the concept of sacrifice in the ancient Mediterranean world and discusses how the rise of bloodless Christian sacrifice and the use of sacrificial language in reference to highly spiritualized Christian lives would have seemed unsettling and radically challenging to the pagan mind. Acknowledging the difficulties posed by an overwhelmingly Christian scholarly narrative around the topic of sacrifice, Daly specifically sets out to tell the non-Christian side of this story. He first outlines the pagan trajectory and then the Jewish-Christian trajectory before concluding with a representative series of comparisons and contrasts. Covering the concept of sacrifice in relation to prayer, ethics, and morality, the rhetoric and economics of sacrificial ceremonies, and heroes and saints, Daly finishes with an estimation of how this study might inform further study of sacrifice.

Sacrifice and Community Matthew Levering, 2008-04-15 This book explores the character of the Eucharist as communion in and through sacrifice. It will stimulate discussion because of its controversial critique of the dominant paradigm for Eucharistic theology, its reclamation of St. Thomas Aquinas's theology of the Eucharist, and its response to Pope John Paul II's *Ecclesia de Eucharistia*. Argues that the Eucharist cannot be separated from sacrifice and rediscovers the biblical connections between sacrifice and communion. Timed to coincide with the Year of the Eucharist proclaimed by Pope John Paul II, it reclaims the riches of St. Thomas Aquinas's theology of the Eucharist, which had recently been reduced to a metaphysical defence of transubstantiation.

The Morally Divided Body Michael Root, James J.

Buckley, 2012-09-01 At the same time as Catholic and evangelical Christians have increasingly come to agree on issues that divided them during the sixteenth-century reformation, they seem increasingly to disagree on issues of contemporary morality and ethics. Do such arguments doom the prospects for realistic full communion between Catholics and evangelicals? Or are such disagreements a new opportunity for Catholics and evangelicals to convert together to the triune God's word and work on the communion of saints for the world? Or should our hope be different than simple pessimism or optimism? In this volume, eight authors address different aspects of these questions, hoping to move Christians a small step further toward the visible unity of the church.

Eucharist and Receptive Ecumenism Kimberly Hope Belcher, 2020-10-15 All doctrinal development and debate occurs against the background of Christian practice and worship. By attending to what Christians have done in the Eucharist, Kimberly Belcher provides a new perspective on the history of Eucharistic doctrine and Christian divisions today. Stepping back from the metaphysical approaches that divide the churches, she focuses on a phenomenological approach to the Eucharist and a retrieval of forgotten elements in Ambrose's and Augustine's work. The core of the Eucharist is the act of giving thanks to the Father for the covenant and for the world. This unitive core allows for significant diversity on questions about presence, sacrifice, ecclesiology, and ministry. Belcher shows that the key is humility about what we know and what we do not, which gives us a willingness to receive differences in Christian teachings as gifts that will allow us to move

forward in a new way **Christian Faith** B. A. Gerrish, 2015-08-24 At the beginning of Christian Faith B A Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied With that Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty first century As part of his framework Gerrish includes a critical comparison of Calvin s Institutes of the Christian Religion and Schleiermacher s Christian Faith while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions Gerrish s book provides a robust and penetrating revisioning of Christian theology one that is thoroughly grounded in the classical traditions of the church **God Encountered: Understanding the Christian faith** Frans Jozef van Beeck, 1997 God Encountered A Contemporary Catholic Systematic Theology Volume One **Received by Christ** Celine S. Yeung, 2023-07-21 Huldrych Zwingli had an idea To the shock of both Rome and fellow Protestant Martin Luther he argued that Christ is not physically present in the Lord s Supper Rather the Eucharistic elements only represent Christ s body and blood However the unique basis undergirding his theory is often overlooked both by his contemporaries and later commentators He specifically understood the Lord s Supper to be patterned after the Passover meal the meal of the Old Testament His memorialist understanding was in fact based on the memorialist nature of the Passover By bringing in Jewish scriptures to bear on our understanding of the Lord s Supper his approach unlocks new questions that do not necessarily presuppose Greek metaphysics or a break from traditions This work seeks to continue to develop the method Zwingli left behind delineating a Eucharistic theology for the church today one that gives careful consideration to God s actions in relation to Israel and therefore sees the meal not metaphysically but historically and relationally **Practice what You Preach** James F.  Eucharist This direct question would seem to yield an equally direct answer However as soon as we begin to answer it we
 encounter an array of responses layered with various complexities The answer is shaped by who answers for example a
 roman catholic an Anglican or a Baptist Perhaps even the name Eucharist would be contested Answers to this question would
 reflect not only confessional differences but also the spectrum of theological and liturgical perspectives across Christianity In
 this book Ralph McMichael analyses these complexities perplexities raised by asking this questions **Sacraments of
 Initiation, Second Edition** Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book
 presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a
 theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been
 widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church
 However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that
 seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter
 currents have developed over those years both in theory and in practice The sacramental theology contained in this study
 maintains the broad on going agreement between what it proposes and mainstream Church teaching and practice The book
 examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of
 the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for
 sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made
 for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an
 equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in
 the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core
 values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also
 include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine
 the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic
 essay The bibliography has updated to reflect the development in the field *The Theology of John Fisher* Richard
 Rex, 2003-09-18 This book examines the intellectual career of Bishop John Fisher 1468 1535 the early sixteenth century
 bishop of Rochester and victim of Henry VIII s Reformation whose numerous writings included one of the most influential

refutations of Martin Luther of the century It places Fisher s writings in the context of contemporary movements of Renaissance and Reformation Christ and the Catholic Priesthood Matthew Levering,2010 **Become What You Receive: A Systematic Study of the Eucharist** John H. McKenna, CM,2022-01-07 In this remarkable book theologian and teacher Rev John McKenna examines our use of sign and symbol as it pertains to the study of the Eucharist the source and summit of the Church In clear and accessible language he clarifies the use of sign and symbol from anthropological phenomenological Old and New Testament perspectives He expertly analyzes historical backgrounds as well as current eucharistic theologies **Luther's First Front** Robert C. Croken,1990 Since the Reformation in the sixteenth century one of the basic divisions between Catholics and Protestants has been the concept of the mystery of the Eucharist and its meaning to modern Man In this new study Robert C Croken tries to explain why Luther s view of the Eucharist is pivotal to ecumenical dialogue among Christians The sacrificial dimension of the Eucharist is one of the tenets Luther opposed although this basic theme has often been neglected in recent research This study focuses on Luther s rejection of the Eucharist as a sacrifice and a good work a major doctrinal shift from previous Catholic belief Explaining the historical origins of the debate Robert Croken shows the reader where the Roman Catholic and Lutheran churches have grown apart and where they have found agreement This book is a systematic study of Martin Luther s writings in the context of his break with Rome and will be of value to scholars and theologians of modern Christianity searching for common ground in ecumenical discussions *The Eucharist as Orikonso* Damian Onwuegbuchulam Eze,2008 In this book the author relying on the research he carried out in Igboland Nigeria leads us to see the action of God s grace already active in the Igbo religious culture called Omenala Ndigbo before the coming of Christian missionaries and how these cultural values have prepared the people to receive the Gospel But as he points out these cultural values on which the Christian message ought to have been built from the beginning were grossly misunderstood and neglected The Igbo people are now mainly Christians But because the Gospel has not yet become their culture some of them have double allegiance to the doctrines of the Church and to the practices of Omenala Ndigbo The author opines that to build the Catholic Church in Igboland on a solid foundation the Eucharist must take the central place since the Eucharist makes the Church and is the source and summit of the life of the Church Thus the work which uses the analytical and hermeneutical method known as inculturation is on Eucharistic Ecclesiology from an Igbo perspective and will be useful for the Church both at the local and universal levels for self understanding and renewal ecumenism dialogue and mission The Oxford Handbook of Catholic Theology Lewis Ayres,Medi Ann Volpe,2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook

offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts

Rehearsing God's Just Kingdom Stephen S. Wilbricht, 2013-11-15 In the course of a teaching and writing career cut too short Mark Searle 1941 1992 provided a worthy contribution to the study of liturgy The breadth of his liturgical interests and his desire to integrate a wide range of academic areas with the study of liturgy mark this scholar as a gifted thinker and author arguably a pioneer In *Rehearsing God's Just Kingdom* Stephen S Wilbricht explores Searle's basic conviction that liturgy represents rehearses and forms in its participants the essential commitments of the Christian community Searle called for the church's liturgy to be embraced as a rehearsal that is performed over and over again and again until it is practiced perfectly in the kingdom of heaven In an age when so much depends on instant gratification and in which institutional commitment is often held in contempt Searle's thinking provides an avenue for liturgical renewal that hinges upon a respect for and trust in ritual forms and behavior
