Science, Yoga and Theosophy ,1977 **Sankhya-Yoga & Karma-Yoga, Or The Philosophy & Science of Religion**
Swami Ātmānanda,1909 The Kansas City Public Library Quarterly Kansas City Public Library (Kansas City, Mo.),1901
The Public Library Quarterly ,1902 **Life** Eunice Layton,1988-10-25 Formerly published as Theosophy Key to
Understanding this book is based on the many lectures presented by this husband and wife team addressing such questions
as Is there some meaning to existence Is there life after death Will we live again How can we find inner peace The Laytons
bring a common sense approach to the metaphysical concepts of Theosophy and relate them to the problems of people in
their everyday lives *The Theosophist* ,1899 **On the Edge of the Future** Jeffrey John Kripal,Glenn W. Shuck,2005 An
inside look at the history and influence of New Age s spiritual home Pop Culture Yoga Kristen C. Blinne,2020-01-23 Pop
Culture Yoga A Communication Remix was born out of a series of questions about the paradoxical nature of yoga How do
individuals and groups define yoga What does it mean to practice yoga and what does this practice involve What are some of
the most important principles guidelines or philosophical tenets of yoga that shape people s definitions and practices Who
has the power and authority to define yoga What are the limits if any of shared definitions of yoga Kristen C Blinne explores
the myriad ways yoga is communicatively constructed and defined in and through popular culture in the United States In
doing so Blinne offers insight into the many identity work processes in play in the construction of yoga categories
illuminating how individuals and groups words and actions represent practices of claiming part of a complex communicative
process centered around membership categorization based on a range of authenticity discourses Employing popular culture
writing styles Blinne ultimately contends that the majority of yoga styles practiced in the United States are remixes that can
be classified as pop culture yoga a distinct way of understanding this complex phenomenon *Finding God through Yoga*
David J. Neumann,2019-02-07 Paramahansa Yogananda 1893 1952 a Hindu missionary to the United States wrote one of the
world s most highly acclaimed spiritual classics Autobiography of a Yogi which was first published in 1946 and continues to
be one of the best selling spiritual philosophy titles of all time In this critical biography David Neumann tells the story of
Yogananda s fascinating life while interpreting his position in religious history transnational modernity and American culture
Beginning with Yogananda s spiritual investigations in his native India Neumann tells how this early global guru emigrated to
the United States in 1920 and established his headquarters the Self Realization Fellowship in Los Angeles where it continues
today Preaching his message of Hindu yogic philosophy in a land that routinely sent its own evangelists to India Yogananda
was fueled by a religious nationalism that led him to conclude that Hinduism could uniquely fill a spiritual void in America
and Europe At the same time he embraced a growing belief that Hinduism s success outside South Asia hinged on a sincere
understanding of Christian belief and practice By universalizing Hinduism Neumann argues Yogananda helped create the
novel vocation of Hindu yogi evangelist generating fresh connections between religion and commercial culture in a

deepening American religious pluralism **Contemporary Yoga and Sacred Texts** Susanne Scholz, Caroline Vander Stichele, 2024-09-10 This book explores the textual traditions that authorize the history legitimacy and authenticity of today's physical posture practice The volume focuses on why and how yoga communities have adopted various texts that they consider sacred or spiritually meaningful Among the texts discussed are Yogananda's Autobiography Sri Aurobindo's Savitri Patanjali's Yoga Sutra the Bhagavad Gita the Hatha Yoga Pradipika the Upanishads the Vedas and the Yogin Tantra Famous thinkers included are Aurobindo Yogananda Osho Rajneesh Sogyal Rimpoche Charles Johnston and Howard Thurman Offering a starting point the ten chapters address the nature selection and function of various ancient and contemporary texts read in contemporary yoga settings The attention centers on how and why texts are read and for whom they are read As yoga is practiced in ashrams yoga studios gyms meeting rooms and even private living rooms scholarly approaches to investigate the connections between yoga and texts are necessarily diverse This volume aims to inspire further scholarship on the reading of texts in past and present yoga communities The collection demonstrates that textual traditions deserve to be an important part of contemporary yoga scholarship The volume will therefore be of great interest to scholars of religious studies yoga studies and Asian studies as well as those studying sacred texts *The Theosophical Path* Katherine Augusta Westcott Tingley, 1920 **The Yoga Aphorisms of Patanjali** Patañjali, William Quan Judge, 1920 *Mountain Path*, 1979

Light Invisible M. V. Lodyzhenskii, 2011-10-01 Arguing that human beings yearn to be rooted in something greater than themselves and to know enduring joy and peace whatever the circumstances this classic early 20th century text examines higher consciousness and the divine mysticism of Eastern Christianity Written by a Russian philosopher and theologian this book explores the differences between Christian philosophy and other systems and discusses the beliefs of sainted men and women such as Francis of Assisi Seraphim of Sarov and Simeon the New Theologian Musing upon martyrdom in the epoch of the first two Ecumenical Councils this book also contains ruminations on the writings of Leo Tolstoy as well as a conversation between him and the author **Quanta in Distress** Sadri Hassani, 2024-10-01 This book deconstructs and debunks the lucrative and widespread marriage of quantum physics with pop spirituality while tracing this pernicious strain of pseudoscience to its source the founders of quantum mechanics themselves The association of mystical ideas with modern physics in the self improvement industry is not new The spookiness of quantum properties like uncertainty and entanglement has proven fertile ground for new age mystics and alternative medicine advocates who saw a way to put a scientific veneer on their claims In the early days the founders of quantum physics accused it of implying an observer created reality Later Taoists and Wu Li dancers were quantized Then ancient Indian medicine Ayurveda morphed into quantum healing Little wonder The Oprah Winfrey Show told its viewers think about losing weight making more money and falling in love and you'll become thin wealthy and happily married all based on quantum physics Criticism of the pseudoscientific misappropriation of quantum physics has been widespread but inadequate thus far the scientific community has failed to account for its own role

in the fusion of pop spirituality and quantum physics As well as thoroughly exploring and debunking quantum mysticism this book traces the development of quantum mysticism and pulls no punches in exposing the unwitting role of quantum theory's founders in propagating quantum mysticism Imagining the East Erik Reenberg Sand,Tim Rudbøg,2020 The essays in Imagining the East explore how Theosophists during the formative period imagined the religions and cultures of the East The authors examine the relationship of such representations to orientalism the history of ideas politics and culture at large and discuss how these esoteric or theosophical representations mirrored conditions and values current in nineteenth century mainstream intellectual culture The essays also look at how the early Theosophical Society's representations of the East differed from mainstream orientalism and how the Theosophical Society's mission in India was distinct from that of British colonialism and Christian missionaries **A Republic of Mind and Spirit** Catherine L. Albanese,2007-01-01 In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labour struggles social conflict and revolution Fugitive Landscapes explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age *Current Science* ,1952 Subject Index of the Modern Books Acquired by the British Museum in the Years ... ,1927 **Yoga Breath** Magdalena Kraler,2025-04-14 A central practice of both premodern and modern yoga prāṇa breath control is practised in yoga classes worldwide Like the notion of prāṇa breath vitality prāṇa has a longstanding history in South Asia constituting the fourth limb of Patanjali's yoga Since roughly 1850 prāṇa and prāṇa have been reinterpreted in light of the ideas of Hindu reform movements nineteenth century occultism science biomedicine and transnational hygiene In this book Magdalena Kraler traces the history of yogic breath cultivation between 1850 and 1945 for the first time She reconstructs how prāṇa assumed a central role in the cosmological frameworks of modern yoga and how prāṇa came to be understood as a form of self cultivation Engaging one of modern yoga's key practices this book not only offers a thorough academic analysis but also responds to a growing worldwide interest in breath cultivation
