Heath** ,1951      **Philosophical Thought in Russia in the Second Half of the Twentieth Century** Vladislav Lektorsky,Marina F. Bykova,2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia s philosophy Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields Written by a team of internationally recognized scholars from Russia and abroad it examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yury Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked By introducing and examining original philosophical ideas that evolved in the Soviet period the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution      *Science Progress in the Twentieth Century* ,1913      The Columbia History of Twentieth-century French Thought Lawrence D. Kritzman,Brian J. Reilly,M. B. DeBevoise,2006 This valuable reference is an authoritative guide to 20th century French thought It considers the intellectual figures movements and publications that helped define fields as diverse as history psychoanalysis film philosophy and economics      **Western Geopolitical Thought in the Twentieth Century (Routledge Library Editions: Political Geography)** Geoffrey Parker,2014-10-03 This book surveys the development of geo political thought in the twentieth century

and relates it to international political developments as well as examining how sound geopolitical theories are. It considers the work of Mackinder, Hartshorne, and Haushofer and his disciples in Germany who influenced the Nazis and of more recent developments including Marxist geographical writing.

**Science in the Twentieth Century** John Krige, Dominique Pestre, 2013-11-19. With over forty chapters written by leading scholars, this comprehensive volume represents the best work in America, Europe, and Asia. Geographical diversity of the authors is reflected in the different perspectives devoted to the subject, and all major disciplinary developments are covered. There are also sections concerning the countries that have made the most significant contributions, the relationship between science and industry, the importance of instrumentation, and the cultural influence of scientific modes of thought. Students and professionals will come to appreciate how and why science has developed as with any other human activity; it is subject to the dynamics of society and politics.

**Liberal Religious Thought at the Beginning of the Twentieth Century** W. Copeland Bowie, 1901.

**Twentieth-Century Western Philosophy of Religion 1900-2000** Eugene Thomas Long, 2012-12-06. In the fall of 1994, Hendrik Jan van Leusen, an acquisitions editor from Kluwer Academic Publishers, visited me in my home to discuss a proposal for a handbook in the philosophy of religion. He reported that he had been talking about this with philosophers of religion at several universities and that the response to the idea had been quite favorable. I suggested that given the different approaches to the philosophy of religion, it might be good for him to meet with philosophers representing different philosophical traditions at an upcoming meeting of the Eastern Division of the American Philosophical Association. Jude Dougherty, Joseph Kockelmans, Robert Neville, William Rowe, and Merold Westphal kindly agreed to attend that meeting. They made many substantial and helpful suggestions, and a summary of the discussions was sent to van Leusen. Some months later, he wrote to inquire whether I might consider editing the series and writing the first volume, which was to provide a historical

map of twentieth century western philosophy of religion Although I could imagine myself editing the series I was initially reluctant to under take the task of writing a volume that would take me across the lines of many different philosophical traditions By coincidence I had been asked some months earlier to contribute an essay on the philosophy of religion for a conference being held at the Catholic University of America on the general topic One Hundred Years of Philosophy

Science in the Early Twentieth Century Jacob Darwin Hamblin,2005-03-08 The first A Z resource on the history of science from 1900 to 1950 examining the dynamic between science and the social political and cultural forces of the era Though many books have highlighted the great scientific discoveries of the early 1900s few have tackled the wider context in which these milestones were achieved Science in the Early Twentieth Century covers everything from quantum physics to penicillin and more including all the major scientific developments of the period detailing not only the scientists and their work but also the social and political forces that dominated the scientific agenda Over 200 A Z entries chronicle the landmark scientific discoveries and personalities of the period including such scientific giants as Albert Einstein and Marie Curie Placing science firmly within its cultural context this thoroughly researched accessible resource takes a uniquely interdisciplinary approach making it an invaluable text for scientists educators students and the general reader

Philosophy      *The Columbia History of the 20th Century* Richard W. Bulliet, 1998 In the parade of highlights with which many have tried to sum up the twentieth century the overarching patterns and fundamental transformations often fail to come into focus The Columbia History of the 20th Century however is much more than a chronicle of the previous century's front page news Instead the book is a series of twenty three linked interpretive essays on the most significant developments in modern times ranging from athletics to art the economy to the environment Rather than presenting a linear narrative each author uncovers patterns of worldwide change James Mayall for example writes on nationalism from the rise of European fascism to the rise of Asian and African nations Sheila Fitzpatrick traces the history of communism and socialism in Moscow and Havana In her chapter on women and gender Rosalind Rosenberg covers the progress of women's rights throughout the world from Middle Eastern activism to the American feminist movement Jean Marc Rana Oppenheim's history of sports traces the spread of Western sports to all corners of the globe and the West's appropriation of such activities as martial arts In each the important strands of history events ideas leading figures issues come together to offer an illuminating look at cultural connection diffusion and conflict showing in stark relief how this period has been unlike any preceding era of human history
