Scifi Movies Facts Figures And Fun:

Sci-Fi Movies John Grant,2005-09 Of all movie genres today sci fi probably has the highest profile and certainly a dominant position in the box office The high tech gloss and the massive budgets all seem a far cry from the sci fi movies of that previous Golden Age the middle of the 20th century when for the most part the appeal of sci fi cinema was its low budget cheesiness In this book the renowned writer on fantasy sci fi and animated cinema John Grant conducts a lightning survey of the best and the worst of sci fi movies

Our Universe Patrick Moore,2006-12 Renowned astronomer Sir Patrick Moore takes readers on a brief but comprehensive tour of the universe Starting with the earth and its moon he gives the reader all the basic facts and figures about each planet and its moons their relationships to each other and the place of our universe in space Moore describes and explains comets meteors and asteroids and informs the text with wit observation and the experience of over 60 years of active observation of space

P. Telotte, 2019-07-11 What impact did the new art of film have on the development of another new art the emerging science fiction genre during the pre and early post World War II era Focusing on such popular pulp magazines as Amazing Stories Astounding Stories and Wonder Stories this book traces this early relationship between film and literature through four common features stories that involve film or the film industry film related advertising editorial matters and readers letters commenting on film and the magazines heralded cover and story illustrations By surveying these haunting traces of another medium in early science fiction discourse we can begin to see the key role that a cinematic mindedness played in this formative era and to expand the early history of science fiction as a cultural idea beyond the usual boundaries that have been staked out by its literary manifestations and the genre s historians *The Year's Best Science Fiction: Thirteenth Annual Collection* Gardner Dozois, 1996-05-15 Annual collection of outstanding science fiction stories showcasing the highest levels of creativity and craft in the genre **Science Fiction Cinema** Christine Cornea, 2007-06-06 This major new study offers a broad historical and theoretical reassessment of the science fiction film genre The book explores the development of science fiction in cinema from its beginnings in early film through to recent examples of the genre Each chapter sets analyses of chosen films within a wider historical cultural context while concentrating on a specific thematic issue The book therefore presents vital and unique perspectives in its approach to the genre which include discussion of the relevance of psychedelic imagery the new woman of science generic performance and the prevalence of techno orientalism in recent films While American films will be one of the principle areas covered the author also engages with a range of pertinent examples from other nations as well as discussing the centrality of science fiction as a transnational film genre Films discussed include The Day the Earth Stood Still The Body Snatchers Forbidden Planet The Quatermass Experiment 2001 A Space Odyssey Demon Seed Star Trek The Motion Picture Star Wars Altered States Alien Blade Runner The Brother from Another Planet Back to the Future The Terminator Predator The One Dark City The Matrix Fifth Element and eXistenZ Key Features Thematically organised for use as a course text Introduces current and past theories and practices and provides an overview of the main themes approaches and areas of study Covers new and burgeoning approaches such as generic performance and aspects of postmodern identity Includes new interviews with some of the main practitioners in the field Roland Emmerich Paul Verhoeven Ken Russell Stan Winston William Gibson Brian Aldiss Joe Morton

Dean Norris and Billy Gray **Gender and Environment in Science Fiction** Bridgitte Barclay, Christy Tidwell, 2020-07-07
Gender and Environment in Science Fiction focuses on the variety of ways that gender and nature interact in science fiction films and fictions exploring questions of different realities and posing new ones Science fiction asks questions to propose other ways of living it asks what if and that question is the basis for alternative narratives of ourselves and the world we are a part of What if humans could terraform planets What if we could create human nonhuman hybrids What if artificial intelligence gains consciousness What if we could realize kinship with other species through heightened empathy or traumatic experiences What if we imagine a world without oil The texts analyzed in this book ask these questions and others exploring how humans and nonhumans are connected how nonhuman biologies can offer diverse ways to think about human sex gender and sexual orientation and how interpretive strategies can subvert the messages of older films and written texts
