

# Low Level VS High Level Languages

## High-Level

High-level languages are easy to learn

High-level languages are near to human language

These languages are normally used to write application programs

Programs in high-level languages are easy to modify

Translator is required

Programs in high-level language are slow in execution

## Low-Level

Low-level languages are difficult to learn

Low-level languages are far from human language

These languages are normally used to write hardware programs

Programs in low-level languages are difficult to modify

No translator is required

Programs in low-level language are fast in execution
