scholarships to play in college and only 0.03 percent turn pro. Of those 0.03 percent there are only so many who have successful careers make the millions players dream of and don't go broke almost immediately after retiring. There's plenty of elite hoopsters but to make it to the highest level of basketball you have to be the best in the world. One thing all the elite players have in common are insane work ethics and sometimes some luck in genetics. Inside this book you'll find stories of the relentless work and hours that these stars have put in when all the lights are shut off no one's watching and it's just them and the basketball. Because when basketball is someone's only ticket out of a rough life, gang wars, drugs, and violence, you won't believe how good at the game they'll become. *School Library Journal*, 1999

Schreck, Maureen Hoebener, 1998 **The Incredible Book of Useless Information** Don Voorhees, 2012-10-02 The #1 New York Times bestselling series continues to delight and astound with an all new collection of surprisingly unnecessary facts and figures. Would it surprise you to learn it takes a sloth about a month to digest a meal more tourists visit France than any other nation in the world the United States still has debt from the Revolutionary War. *Empowerment : the Competitive Edge in Sports, Business & Life* Gene N. Landrum, 2006 In *Empowerment The Competitive Edge in Sports Business Life* high profile personality Dr. Gene Landrum presents in a self-help format the 13 winning behaviors modeled by the 13 greatest athletes of the modern era. Landrum's research into the lives of the great entrepreneurs and athletes supported by a growing body of evidence suggests that eminence, whether in business or sports, derives not from genetic superiority but from winning behaviors and learned emotional dispositions. With a delightful blend of gifted storytelling and intellectual scholarship, Dr. Landrum has created a book that melds the recent discoveries in psychology and brain research with the dramatic performances of the world's greatest athletes. Charismatic athletes such as Michael Jordan, Lance Armstrong, Martina Navratilova, and Tiger Woods are analyzed in psycho-biographical profiles that focus on the underlying motivations and behaviors of these preeminent personalities rather than on what they achieved. In this respect and in its connection to the recent research in brain function and psychology, Dr. Landrum's work is unprecedented in the extant literature on athletes and athletic technique. Amazon.com *100 Things Bulls Fans Should Know and Do Before They Die* Kent McDill, 2012-11 The premier reference for making Chicago Bulls fandom a lifestyle instead of just a sports preference, this collection of essential team knowledge and Bulls-related activities distills the past 50 years of NBA basketball into a fun checklist that will appeal to fans of any age. It's one thing to have been to the United Center and rooted for Derrick Rose to relish highlights of a young Michael Jordan or even to know that all six championship teams were led by Jordan, Scottie Pippen, and Coach Phil Jackson. But it is a whole other level of fan commitment to know who

Benny the Bull is named after which player once grabbed 37 rebounds in a single game and how the Bulls missed out on Magic Johnson in the draft These facts and trivia as well as important dates player nicknames key jersey numbers through history and even the best places to eat before or after a game are included in this resource that will enlighten new fans and initiate them into proper Bulls fandom or remind die hard fans why theirs is the team to follow year after year
