they slay Most of them are fairly long and although they have a peculiar fascination of their own they are quite distinct from the ordinary Fairy Tale These latter in Scotland have also a character of their own for there is no country where the existence of Spirits and Goblins has been so implicitly believed in up to a comparatively recent date As a proof of this we can go to Hogg s tale of The Wool gatherer and see how the countryman Barnaby voices the belief of his day Ye had need to tak care how ye dispute the existence of fairies brownies and apparitions Ye may as weel dispute the Gospel of Saint Matthew Perhaps it was the bleak and stern character of their climate and the austerity of their religious beliefs which made our Scottish forefathers think of the spirits in whom they so firmly believed as being for the most part mischievous and malevolent Their Bogies their Witches their Kelpies even their Fairy Queen herself were supposed to be in league with the Evil One and to be compelled as Thomas of Ercildoune was near finding out to his cost to pay a Tiend to Hell every seven years so it was not to be wondered at that these uncanny beings were dreaded and feared But along with this dark and gloomy view we find touches of delicate playfulness and brightness The Fairy Queen might be in league with Satan but her subjects were not all bound by the same law and many charming tales are told of the sith or silent folk who were always spoken of with respect in case they might be within earshot who made their dwellings under some rocky knowe and who came out and danced on the dewy sward at midnight Akin to them are the tales which are told about a mysterious region under the sea far below the abode of fishes where a strange race of beings lived who in their own land closely resembled human beings and were of such surpassing beauty that they charmed the hearts of all who looked on them They were spoken of as Mermaids and Mermen and as their lungs were not adapted for breathing under water they had the extraordinary power of entering into the skin of some fish or sea animal and in this way passing from their own abode to our upper world where they held converse with mortal men and as often as not tried to lure them to destruction The popular idea always represents Mer folk as wearing the tails of fishes in Scottish Folklore they are quite as often found in the form of seals Then we frequently come across the Brownie that strange kindly lovable creature with its shaggy unkempt appearance half man half beast who was said to be the ordained helper of man in the drudgery entailed by sin and was therefore forbidden to receive wages who always worked when no one was looking and who disappeared if any notice were taken of him
