What happens when Theodor Adorno the champion of high classical artists such as Beethoven comes into contact with the music of Chuck Berry the de facto king of rock n roll In a series of readings and meditations Robert Miklitsch investigates the postmodern nexus between elite and popular culture as it occurs in the audiovisual fields of film music and television ranging from Gershwin to gangsta rap Tarantino to Tongues Untied Tony Soprano to Buffy the Vampire Slayer Miklitsch argues that the aim of critical theory in the new century will be to describe and explain these commodities in ever greater

phenomenological detail without losing touch with those evaluative criteria that have historically sustained both Kulturkritik and classical aesthetics

**Becoming Carole Lombard** Olympia Kiriakou, 2020-02-20 *Becoming Carole Lombard Stardom Comedy and Legacy* is a historical critique of the development and reception of Carole Lombard's stardom from the classical Hollywood period to present day Based on original archival research Olympia Kiriakou combines theoretically informed textual analyses of Lombard's performances and star image across different media biographies publicity materials photography and film with a critical

engagement of the cultural economic social and industrial conditions that shaped her stardom Sitting at the intersection of feminist film theory star studies and comedy theory this work presents Lombard as a case study to challenge the screwball canon and existent academic discourse about female physical comedy and the alleged delicate female body In doing so it formulates a new historical approach to understanding gender femininity and identity in Hollywood comedies of the 1930s Moreover this is the first research of its kind to offer a comprehensive understanding of Lombard s stardom beyond her associations with the screwball comedy genre The Oxford Handbook of the Hollywood Musical Dominic McHugh,2022 In The Oxford Handbook of the Hollywood Musical leading scholars examine the history of a defining film genre from its very roots to the present analyzing its tropes and problems over the past 8 decades of film history **Human Chemistry (Volume One)** Libb Thims,2007-09-01 Human chemistry is the study of bond forming and bond breaking reactions between people and the structures they form People often speak of having either good or bad chemistry together whereby according to consensus the phenomenon of love is a chemical reaction The new science of human chemistry is the study of these reactions Historically human chemistry was founded with the 1809 publication of the classic novella *Elective Affinities* by German polymath Johann von Goethe a chemical treatise on the origin of love Goethe based his human chemistry on Swedish chemist Torbern Bergman s 1775 chemistry textbook *A Dissertation on Elective Attractions* which itself was founded on Isaac Newton s 1687 supposition that the cause of chemical phenomena may all depend upon certain forces by which the particles of bodies by some causes hitherto unknown are either mutually impelled towards each other and cohere in regular figures or are repelled and recede from one another which thus defines life *First Comes Love* Shelley Cobb,Neil Ewen,2015-08-27 With the prominence of one name couples Brangelina Kimye and famous families the Smiths the Beckhams it is becoming increasingly clear that celebrity is no longer an individual pursuit if it ever was Accordingly *First Comes Love* explores celebrity kinship and the phenomenon of the power couple those relationships where two stars come together and where their individual identities as celebrities become inseparable from their status as a famous twosome Taken together the chapters in this volume interrogate the ways these alliances are bound up in wider cultural debates about marriage love intimacy family parenthood sexuality and gender in their particular historical contexts from the 1920s to the present day Interdisciplinary in scope *First Comes Love* seeks to establish how celebrity relationships play particular roles in dramatizing disrupting and reconciling often contradictory ideas about coupledness and kinship formations *Beautiful TV* Greg M. Smith,2009-03-06 During its five year run from 1997 to 2002 the popular TV show *Ally McBeal* engaged viewers in debates over what it means to be a woman or a man in the modern workplace how romance factors into the therapeutic understanding of relationships what value eccentricity has and how much oddity society should tolerate and what utility fantasy has in the pragmatic world In addition to these social concerns however *Ally McBeal* stood out for being well constructed narratively complex and stylistically rich in short *Beautiful TV* Starting from the premise that much of television

today is drop dead gorgeous and that TV should be studied for its formal qualities as well as its social impact Greg M Smith analyzes Ally McBeal in terms of its aesthetic principles and narrative construction He explores how Ally s innovative use of music special effects fantasy sequences voiceovers and flashbacks structures a distinctive fictional universe while it also opens up new possibilities for televisual expression Smith also discusses the complex narrative strategies that Ally s creator David E Kelley used to develop a long running storyline and shows how these serial narrative practices can help us understand a wide range of prime time TV serials By taking seriously the art and argument of Ally McBeal Beautiful TV conclusively demonstrates that aesthetic and narrative analysis is an indispensable key for unlocking the richness of contemporary television

**From Ballroom to DanceSport** Caroline Joan S. Picart, 2012-02-01 Drawing on recent media portrayals and her own experience, author and dancer Caroline Joan S. Picart explores ballroom dancing and its more sporty equivalent, DanceSport, suggesting that they are reflective of larger social, political, and cultural tensions. The past several years have seen a resurgence in the popularity of ballroom dance as well as an increasing international anxiety over how and whether to transform ballroom into an Olympic sport. Writing as a participant-critic, Picart suggests that both are crucial sites where bodies are packaged as racialized, sexualized, nationalized, and classed objects. In addition, Picart argues as the choreography, costuming, and genre of ballroom and DanceSport continue to evolve, these theatrical productions are aestheticized and constructed to encourage commercial appeal using the narrative frame of the competitive melodrama to heighten audience interest.
