Gerson, 2019-04-20 Finally A Book for Screenwriters that Focuses on Creativity not Rules Organic Screenwriting gives us permission to do what we set out to do in the first place Tell stories from our hearts Luke Yankee writer producer of TV's Conversations on Craft Writing for film doesn't have to feel like an engineered exercise in story building Rather it can be a story freeing adventure one that retains all the magic wonder and awe of movies and make believe Learn to craft engaging compelling entertaining stories for the screen spontaneously and without struggle whether you're a seasoned screenwriter or just starting out Be the Storyteller You Are Go Organic Write Your Screenplay the Natural Way What I share here speaks to the core of what I believe not only about screenwriting but about writing and that's that creativity is an organic process that relies more on discernment than rules more on intuition than outlines more on passion than structure It's a free flowing in the moment experience that urges us to turn our backs on cookie cutter formulas and paint by numbers canvasses It's a realm where Story is king and Muse is both chancellor and court jester It's a journey where we sit wide eyed in a darkened theater and watch awestruck as our screenplay reveals itself to us on the flickering screen Mark David Gerson A seminal work that should be read carefully by any and all aspiring writers for film and television an enduringly useful reference work The Midwest Book Review **The Process** Clive Frayne, 2019-11-27 The main difference between an early career screenwriter and a great screenwriter is their process Screenwriters with an effective and professional process tend to write great scripts This book teaches a method called process driven screenwriting The process is a series of planning steps we take before writing our script This process works for any kind of movie It works for Hollywood Blockbusters or experimental art house films As long as our intention is to create drama the process will help us write better scripts This book doesn't offer a formula or plot template Instead it helps screenwriters find a writing technique that works for them At the heart of this book is a simple idea dogma is the enemy of creativity This book contains a set of practical tools Tools designed to help writers create drama and to craft great cinematic stories This is also a book that explores the ideas behind drama story and what it means to write cinema Although the tools in this book are simple the conversation about how we write movie scripts isn't I have not separated the conversation about writing from the discussion about the tools That's because the two things are connected We need tools like this because writing cinematic drama is complicated It's not possible to separate the process from the challenges of screenwriting Process driven screenwriting is very simple Anyone can learn the basic steps in a short period of time However as with any tools it takes time and practice to master their use These tools can be used to create simple stories or to craft complex narratives So what are these tools What are the steps raw idea our initial inspiration or ideatheme decide what facet of human experience we're exploring compass logline decide who the film is about when and where it is set chase our fascination to create the world of story creating a fictional world character development populate the world with characters create a plot decide what happens and the order in which the audience finds things out write the script write cinematic drama in a form that is acceptable to the production team In reality everyone is a process driven screenwriter

whether they know it or not Every writer has a process even if that process is to stare at a blank page until they have an idea Every writer s process is unique to them We do what works best for us Writers with great processes write great screenplays In this book we will look at ways any writer can improve their process without giving up the things that make them unique
