Metanarrative Functions of Film Genre in Kenneth Branagh's Shakespeare Films Jessica M. Maerz, 2017-05-11 Kenneth Branagh is the most important contemporary figure in the production of filmed Shakespeare His five feature length Shakespeare films Henry V 1989 Much Ado About Nothing 1993 Hamlet 1996 Love's Labour's Lost 2000 and As You Like It 2007 both created and represented the explosion of filmed Shakespeare adaptations that began in the 1990s This book demonstrates Branagh's appeal to classical film genres in order to meta narrate for a popular audience the unfamiliar terrain of the Shakespearean original it examines the debts Branagh owes stylistically and structurally to classically defined generic

modes The generic appeal in Branagh s films is one that grows progressively becoming incrementally more critical to his Shakespearean adaptations as Branagh s career progresses Thus his debut film Henry V is the least classically generic of all his films relying primarily on intertextual and generic references to more contemporary styles like the action genre and the Vietnam War film Much Ado About Nothing represents a transitional moment in Branagh s generic development while the film closely accords to the norms of the screwball comedy this generic correspondence derives primarily from the Shakespearean text With Hamlet Branagh begins to experiment with genre as a conceptual conceit although the film owes much to classical domestic melodrama particularly in Hamlet s relationships with Gertrude and Ophelia Branagh frames his domestic story with devices drawn from the classical Hollywood historical epic Branagh s spectacular failure Love s Labour s Lost demonstrates a unique subordination of the logic and authority of the Shakespearean source text to the demands of the classical musical form Finally Branagh s most recent film As You Like It reveals a new approach towards working with filmed Shakespeare while simultaneously re working the generic structures and practices that characterize his earlier more successful films

Ordinary Pleasures Kay Young,2001 This text seeks to offer a new theory of narrative in its uncovering of how conversations and comic interchanges between lovers in stories create an intimacy and happiness of the everyday Drawing on a diverse body of theory from sociolinguistics to philosophy to literary criticism and reading an unexpectedly eclectic group of texts works by Shakespeare and Tolstoy appear beside Casablanca and I Love Lucy Kay Young explores how narrative couples play together struggle together and return to one another to experience what it means to be in a relationship over time
