Scribblers Writing Tablet:

The Scribbler's Writing Tablet M. L. Dettmer, 1979-01-01 *Tientsin Scribbles* Clara M. Cushman, 1925 **Seekers of the Soul** Sherry Ward, 2009-02 When doctors discovered a mass in Sherry Ward's kidney they could not say whether it was malignant Apprehensive about radical surgery and concerned by their uncertainty she turned elsewhere Armed with information from five psychics she went against the medical odds When the psychics proved correct Ward's interest in psychic work intensified Seekers of the Soul is the result of Ward's inquisitive journey into the world of psychics visionaries and intuitives who gain information using more than the traditional senses Here Ward presents detailed profiles of seven individuals with exceptional abilities to sense and translate what to others is not there After interviewing numerous psychics Ward chose the most principled unique and skillful among them for Seekers of the Soul Each person profiled uses his or her gifts to provide seekers with spiritual insight emotional wisdom or perhaps a connection to a loved one who has crossed over Although each psychic or intuitive divines his or her information differently their clients benefit from the guidance finding information relevant to their lives For all who are intrigued by the extra sensory realm and want to know how to take your soul to its highest potential you'll find Ward's research and engaging profiles replete with insight and meaning **Northrop Frye's Uncollected Prose** Northrop Frye, 2015-01-01 The present volume includes talks Frye gave that were tape recorded but for which there is no extant manuscript taped interviews and responses to questions not included in the volume of interviews of the Collected Works a previously undiscovered notebook and portions of others including an extensive series of notes on romance 93 000 words a brief in opposition to the Macpherson Report on undergraduate education at the University of Toronto an address about the contribution of Victoria College to Canadian culture reviews that were until recently unknown to me and the other editors of the Collected Works a reply to a questionnaire from the American Scholar and an early essay on poetic diction Page xiii **Toy & Hobby World** , 1979 **Haven** N. S. Howard, 2011-01-01 Haven By N S Howard When the world of Haven was rediscovered 240 years after the colony ship Regal crashed landed reporters Scott Pearson and Cindy Lorncroft were quickly sent to find interesting new stories What they uncovered instead was a behaviour considered uncivilized and immoral by the Alliance Worlds Charter of Conduct Office igniting charges against the Haven government **The Collected Prose** Elizabeth Bishop, 1984-11 A compilation of fiction and nonfiction includes both previously published and hitherto unpublished stories such as In the Village The Housekeeper and Gwendolyn and nonfiction works discovered among the author's papers after her death *The Canadian Entomologist* , 1905 *Art or Scribbles? In the Eye of the Beholder: The Evolutionary Emergence of Visual Communication* Iain Davidson, 2025-09-08 The book is about how art arose and how it became what we call art today How did art emerge from the relationships between people and the things they produce and the ideas of producers How do people manipulate those relationships in their own society How do outsiders work out the ways in which those relationships were used to make art What is art and why are all people engaged

with it in one way or another From its very beginning and everywhere art has always been embedded in its cultural context the contexts of the people who made and see it and that context has often been ritual The history of art confused social and institutional changes of view because western critics or artists sought to define the boundaries of art so tightly that ritual purposeful or utilitarian works were excluded from it In their definition art only existed if the rituals of the original producers were stripped from the works or if the objects were appropriated away from the situation in which they were produced The objects stripped from their context could then only be valued for their aesthetics Art consists of relationships between people things and ideas in quite specific ways Those relationships are discussed at length in this book The book is aimed at artists art historians and archaeologists but also at the general public interested in art It is intended both for people whose interest in art comes from knowledge of the art of all continents and for those who have no knowledge Mood and Mobility Richard Coyne,2024-05-21 An argument that as we engage with social media on our digital devices we receive modify intensify and transmit moods We are active with our mobile devices we play games watch films listen to music check social media and tap screens and keyboards while we are on the move In Mood and Mobility Richard Coyne argues that not only do we communicate process information and entertain ourselves through devices and social media we also receive modify intensify and transmit moods Designers practitioners educators researchers and users should pay more attention to the moods created around our smartphones tablets and laptops Drawing on research from a range of disciplines including experimental psychology phenomenology cultural theory and architecture Coyne shows that users of social media are not simply passive receivers of moods they are complicit in making moods Devoting each chapter to a particular mood from curiosity and pleasure to anxiety and melancholy Coyne shows that devices and technologies do affect people s moods although not always directly He shows that mood effects are transitional different moods suit different occasions and derive character from emotional shifts Furthermore moods are active we enlist all the resources of human sociability to create moods And finally the discourse about mood is deeply reflexive in a kind of meta moodiness we talk about our moods and have feelings about them Mood in Coyne s distinctive telling provides a new way to look at the ever changing world of ubiquitous digital technologies *The Way it was* Edith Van Kleeck,2007 *The Way It Was* chronicles Van Kleeck s experiences as a student and teacher in one room schools in rural Alberta From her first year attending school in the High Prairie country in 1916 to the closure of her last rural schoolhouse in 1961 Edith Van Kleeck recalls a bygone era in Canadian educational history

Prose Elizabeth Bishop,2024-09-04 Elizabeth Bishop's prose is not nearly as well known as her poetry but she was a dazzling and compelling prose writer too as the publication of her letters has shown Her stories are often on the borderline of memoir and vice versa From her college days she could find the most astonishing yet thoroughly apt metaphors to illuminate her ideas This volume edited by the poet Pulitzer Prize winning critic and Bishop scholar Lloyd Schwartz includes virtually all her published shorter prose pieces and a number of prose works not published until after her death Here are her famous as well as her lesser known stories crucial memoirs literary and travel essays book reviews and for the first time her original draft of Brazil the Time Life volume she repudiated in its published version and the correspondence between Bishop and the poet Anne Stevenson the author of the first book length volume devoted to Bishop **Wisps of Cloud** Ross Richdale,2017-10-23 After leaving a city school Karla moves to become a principal of a remote country school where her partner has a farm Tensions arise in the district with a marijuana plantation discovered near the farm and a local biker gang being suspected as the growers However nothing is as it first seems potential enemies become friends and the trusted untrustworthy *Pulp and Paper Magazine of Canada* ,1924
