Brallier,Joel N. Lohr,Lynn G. Beck,2021-07-20 The remarkable life story of Mitka Kalinski who survived seven years of enslavement while still a child to a Nazi officer during and after World War II Mitka Kalinski had never revealed his past to anyone Not even to his wife or his four children But in 1981 three decades after it had all ended Mitka finally broke his silence about the horrors he had endured during the Holocaust and in the years immediately afterward not only German concentration camps and sadistic medical experiments but also seven years of enslavement in the household of a Nazi officer Iron Gustav D rrr Having been orphaned before the war Mitka did not know his origins or even his name Torture slavery and a false name stripped him of his identity entirely Thus when he immigrated to the United States in 1951 Mitka seized the opportunity to bury his past and forge a new life He lived the American life in all its fullness and moved to Nevada with his beloved wife Adrienne and their children But the secret he carried became an increasingly heavy burden preventing wholeness and healing This is Mitka s account of facing the past confronting his captors connecting with lost relatives and finding peace in the rediscovery of his origins For Mitka this also

meant reclaiming his Jewish heritage a journey that gave him a new sense of purpose and freedom from the lingering effects of trauma that had filled his life to that point By the end Mitka's Secret is less a story of survival and more one of redemption and transformation from hidden suffering to abundant joy

Hollywood's Frontier Captives Barbara A. Mortimer, 2018-10-24 The captivity narrative the earliest genre of American popular literature continues to be of cultural significance in late 20th century Hollywood Many popular films of the last four decades incorporate the most common elements of the captivity narrative tradition including a politically contested frontier setting and a plot involving innocent family oriented white Americans held captive by hostile culturally alien natives At the same time these films offer something new to the narrative tradition they focus on the captive who resists rescue and the challenge this resistance poses to American cultural self confidence By focusing on the lost captive these films beginning with The Searchers 1956 deal with questions about American identity raised by a white American's cultural and potentially political transformation Films as diverse as Little Big Man Taxi Driver and The Deer Hunter adapted the captivity narrative's conventions to criticize aspects of contemporary American society and reject outworn models of male heroism at the same time however they retained the genre's traditional assumption of white superiority and its fear of female sexuality

Preparing Dinosaurs Caitlin Donahue Wylie, 2021-08-31 An investigation of the work and workers in fossil preparation labs reveals the often unacknowledged creativity and problem solving on which scientists rely Those awe inspiring dinosaur skeletons on display in museums do not spring fully assembled from the earth Technicians known as preparators have painstakingly removed the fossils from rock repaired broken bones and reconstructed missing pieces to create them These specimens are foundational evidence for paleontologists and yet the work and workers in fossil preparation labs go largely unacknowledged in publications and specimen records In this book Caitlin Wylie investigates the skilled labor of fossil preparators and argues for a new model of science that includes all research work and workers Drawing on ethnographic observations and interviews Wylie shows that the everyday work of

fossil preparation requires creativity problem solving and craft She finds that preparators privilege their own skills over technology and that scientists prefer to rely on these trusted technicians rather than new technologies Wylie examines how fossil preparators decide what fossils and therefore dinosaurs look like how labor relations between interdependent yet hierarchically unequal collaborators influence scientific practice how some museums display preparators at work behind glass as if they were another exhibit and how these workers learn their skills without formal training or scientific credentials The work of preparing specimens is a crucial component of scientific research although it leaves few written traces Wylie argues that the paleontology research community's social structure demonstrates how other sciences might incorporate non scientists into research work empowering and educating both scientists and nonscientists **Hidden Secrets, Hidden**

M. Coetzee, Arabella Kurtz, 2015-09-29 J M Coetzee's latest novel The Schooldays of Jesus is now available from Viking Late Essays 2006 2016 will be available January 2018 J M Coetzee What relationship do I have with my life history Am I its conscious author or should I think of myself as simply a voice uttering with as little interference as possible a stream of words welling up from my interior Arabella Kurtz One way of thinking about psychoanalysis is to say that it is aimed at setting free the narrative or autobiographical imagination The Good Story is a fascinating dialogue about psychotherapy and the art of storytelling between a writer with a long standing interest in moral psychology and a psychotherapist with training in literary studies Coetzee and Kurtz consider psychotherapy and its wider social context from different perspectives but at the heart of both of their approaches is a concern with narrative Working alone the writer is in control of the story he or she tells The therapist on the other hand collaborates with the patient in developing an account of the patient's life and identity that is both meaningful and true In a meeting of minds that is illuminating and thought provoking the authors discuss both individual psychology and the psychology of the group the school classroom gangs and the settler nation in which the brutal deeds of ancestors are accommodated into a national story Drawing on great writers like Cervantes and Dostoevsky and psychoanalysts like Freud and Melanie Klein Coetzee and Kurtz explore the human capacity for self examination our wish to tell our own life stories and the resistances we encounter along the way *Loving Isn't Easy* J. Bailey Molineux, 2000-09
