things we can pick around us and get to know people more by caring loving and compassionate about others instead of us talking only about ourselves Yes it is really good to talk about yourself and express how you feel to others which is an omen that you are not an introvert or someone who doesn't like to talk to others But once it comes to us listening to others people's views and interest we seem to be dissatisfied in many ways some may even show the kind of lackadaisical attitude that is uncouth towards others You have to know that by listening to people you show true sincere and genuine care to others wellbeing and not yours alone Your empathy and utmost love will go a long way in making people feel you are really concerned about them not just talking about yourself more often than not In the chosen books what we find inspiring and intriguing about Carnegie's capsule advice guidelines principles and paracetamol solutions to life challenges is that it is generic and highly applicable to the vast majority of people irrespective of socioeconomic status political concern cultural factor disability condition racial or ethnic background among other primordial factors Obviously the benefit of applying this guidelines and principles will vary depending on people's backgrounds but for the vast majority of people there should be some positive non zero benefit That is what really counts In fact those who read the book will have the urge to keep the book such as How to Win Friends and Influence People on their desk as a constant reminder for them to keep applying the principles therein Then a year a later or so they can look back and see if they have developed into a better solid and more fulfilled human beings Such is the great impact of the book and others However it will be totally naive to say that by implementing these techniques we will always get the outcome we desire But the experience of most people shows that we are more likely to change attitudes stop worrying over issues that we can simply overcome by taking actions and start developing self confidence and influence people with these approaches than by not using these principles Even if we increase our success by a mere 10% we have become 10% more effective as leaders than we were before With consistent practice it will become even more natural to apply these principles every day and soon we will be masters of the art of human relations Some principles in the book How to win friends and influence People are what we wish everyone inculcate in order to develop rapidly and be loved by many even albeit everyone cannot love you The principles we have carefully highlighted in the book such as don't criticize condemn or complain always give honest and sincere appreciation and arouse in the other person an eager want These principles are essential in human interaction and for relating with others you will need to master them by heart and by repeated practice you will surely learn them and they will be part and parcel of your life For the book How to stop worrying and start living you will learn how to break the worry habit and throw it away in the deep sea now and forever With Dale Carnegie's timeless advice in hand it is a fact and not a farce that more than six million people have learned how to eliminate debilitating and devastating fear and worry from their lives and to embrace a worry free future In this classic work How to Stop Worrying and Start Living Carnegie offers a set of practical formulas that you can put to work today and every time in your day to day activities It is a book packed with a whole lot of lessons that will last a lifetime and
