**Leadership Unravelled** Mark Cole, John Higgins, 2021-08-15 Why is it that leaders in social political and most importantly organisational contexts are seemingly unable to address meaningfully the wicked problems and complex challenges that we currently face There's enormous busyness around reconfiguring departments and adopting transformational operating models but in general plus ça change plus la même chose Eyewatering amounts of treasure and time are spent in corporate life on leadership development with people working hard to try and demonstrate that something useful has happened as a result An entire pseudo science has emerged to try and prove its worth in part to justify the economic dividend that goes to those who make it to the upper levels of positional power The fetishisation of leadership especially strong leadership fills our news outlets holding up carefully distorted images of great men leadership is still deeply gendered from across the worlds of politics business and sports This book explores the persistently disappeared and unacknowledged constraints that inhibit leaders in every context It argues that these constraints defined in this volume in terms of five organisational paradoxes and six management myths are found at large in society and are especially impactful in organisational life By calling attention to and exploring in rigorous detail these paradoxes and myths this book helps leaders and the leadership systems they are part of to wriggle free of the tacit assumptions that lock them into a cul de sac of simplistic prescription and heroic individualism Once these mind forged manacles are removed new forms of leadership practice become possible ones that are fit for purpose in engaging with a world facing systemic crisis and existential risk This book is essential reading for leaders and managers at all levels looking for solutions to traditionally simplistic leadership practice and who want to affect systemic change It will be beneficial to all those in the world of leadership development including business schools and HR departments
