**Historical Dictionary of Sacred Music** Joseph P. Swain, 2016-10-11 Sacred music is a universal phenomenon of humanity Where there is faith there is music to express it Every major religious tradition and most minor ones have music and have it in abundance and variety There is music to accompany ritual and music purely for devotion music for large congregations and music for trained soloists music that sets holy words and music without words at all In some traditions Islamic and many Native American to name just two the relation between music and religious ritual is so intimate that it is inaccurate to speak of the music accompanying the ritual Rather to perform the ritual is to sing and to sing the ritual is to perform it This second edition of Historical Dictionary of Sacred Music contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on major types of music composers key religious figures specialized positions genres of composition technical terms instruments fundamental documents and sources significant places and important musical compositions This book is an excellent access point for students researchers and anyone wanting to know more about sacred music     The A to Z of Sacred Music Joseph P. Swain, 2010 Nearly all religious traditions have reserved a special place for sacred music Whether it is music accompanying a ritual or purely for devotional purposes music composed for entire congregations or for the trained soloist or music set to holy words or purely instrumental in some form or another music is present In fact in some traditions the relation between the music and the ritual is so intimate that to distinguish between them would be inaccurate The A to Z of Sacred Music covers the most important aspects of the sacred music of Buddhism Christianity Confucianism Hinduism Islam Judaism and other smaller religious groups It provides useful information on all the significant traditions of this music through the use of a chronology an introductory essay a bibliography appendixes and hundreds of cross referenced dictionary entries on major types of music composers key religious figures specialized positions genres of composition technical terms instruments fundamental documents and sources significant places and important musical compositions     Printing Music in Renaissance Rome Jane A. Bernstein, 2024-02-16 In sixteenth century Italy Rome ranked second only to Venice as an important center for music book production Throughout the century printers in the Eternal City experimented more readily and more consistently with the materiality of the book than their Venetian counterparts who by standardizing their printing methods came to dominate the international marketplace The Romans ingenuity and willingness to meet individual clients needs resulted in music editions in a broader array of shapes and sizes employing a wider range of printing techniques They became boutique printers eschewing the run of the mill in favor of tailoring production to varied market demands Accommodating the diverse requirements of their clientele they supplied customized volumes which Venetian presses either could not or would not produce In Printing Music in Renaissance Rome author Jane A Bernstein offers a panoramic view of the cultures of music and the book in Rome from the beginning of printing in 1476 through the early seventeenth century Emphasizing the

exceptionalism of Roman music publishing she highlights the innovative printing technologies and book forms devised by Roman bookmen She also analyzes the Church's predominant influence on the book industry and in turn the Roman press's impact on such important composers as Palestrina Marenzio Victoria and Cavalieri Drawing on innovative publications Bernstein reveals a synergistic relationship between music repertoires and the materiality of the book In particular she focuses on the post Tridentine period when musical idioms both new and old challenged printers to employ alternative printing methods and modes of book presentation in the creation of their music editions Of interest to musicologists art historians and book historians alike this book builds on Bernstein's previous work as she continues to chart the course of music and the book in Renaissance Italy

*Traces of Tollius* Simon Groot, 2022-05-05

Joannes

Tollius c 1550 c 1620 was born in Amersfoort and began his career as music director of the Amersfoort Chapel of Our Lady He flourished in Italy as maestro di capella of the cathedrals of Rieti 1583 84 and Assisi 1584 86 and as cantor tenorista in Rome 1586 88 and Padua 1588 1601 He ended his career as an exceptionally well paid singer in the court chapel of Christian IV in Copenhagen 1601 03 In 1590 a collection of three part motets appeared under the surprising title *Motecta de dignitate et moribus sacerdotum* motets about the dignity and morals of priests presumably intended as a denunciation of the priests who had had him imprisoned in Assisi on charge of heresy a charge of which Tollius was later acquitted In 1591 two collections of five part motets appeared in quick succession In these motets Tollius uses techniques of word painting that go significantly further than those used by his contemporaries in sacred music In 1597 an extended and revised reprint appeared of the a collection of six part madrigals In his madrigals Tollius shows himself to be a skilled composer who is in keeping with the madrigal output of his Italian contemporaries In 1598 two new madrigals by Tollius appeared in collections of works by Paduan masters including such great names as Lodovico Viadana and Costanzo Porta Tollius is unconventional in his compositions He combines works with an archaic character with works that fit in prevailing compositional trends but he also experiments with means that go far beyond what his contemporaries allowed themselves His oeuvre may be small but its diversity and quality makes it notable During his life Tollius regularly came into conflict with his employers He was often fined and sometimes even imprisoned Contemporary accounts of Tollius are contradictory when it comes to his personality but they are unanimous in recognising that he was a skilled musician

**Encyclopaedia Britannica ,1929      Women Making Music** Jane M. Bowers, Judith Tick, 1986 Do look after my music Irene Wienawska Polowski exclaimed before her death in 1932 And from the urgency of that sentiment the authors here have taken their cue to reveal and look after the previously neglected contributions of women throughout the history of Western art music The first work of its kind *Women Making Music* presents biographies of outstanding performers and composers as well as analyses of women musicians as a class and provides examples of music from all periods including medieval chant Renaissance song Baroque opera German lieder and twentieth century composition Unlike most standard historical surveys the book not only sheds light upon the musical achievements of women it also illuminates the historical contexts that shaped and defined those achievements

*Women Composers* Sylvia Glickman, Martha Furman Schleifer, 1996 This work represents a comprehensive historical overview of music created by women from the 9th to the 20th century Each volume features 10 25 complete musical scores or complete movements from multi movement compositions many of which have been previously difficult to access Expert scholars provide original essays about the composers including biographical information a discussion of the music in historical context and critical analysis of each work Entries also include a bibliography a list of works by the composer and a discography This second volume about composers born between 1600 and 1699 covers sacred and secular vocal and instrumental music including cantatas oratorios madrigals canzonas motets accompanied arias and sinfonias
