Secularisation European Mind Gifford Lecture:

The Secularization of the European Mind in the Nineteenth Century Owen Chadwick, 1975 The Secularization of the European Mind in the Nineteenth Century Owen Chadwick, 1979 *The Secularization of the European Mind in the Nineteenth Century* Owen Chadwick, 1990-09-13 Owen Chadwick's acclaimed lectures on the secularisation of the European mind trace the declining hold of the Church and its doctrines on European society in the nineteenth century Children of Lucifer Ruben van Luijk, 2016-05-02 If we are to believe sensationalist media coverage Satanism is at its most benign the purview of people who dress in black adorn themselves with skull and pentagram paraphernalia and listen to heavy metal At its most sinister its adherents are worshippers of evil incarnate and engage in violent and perverse secret rituals the details of which mainstream society imagines with a fascination verging on the obscene *Children of Lucifer* debunks these facile characterizations by exploring the historical origins of modern Satanism Ruben van Luijk traces the movement's development from a concept invented by a Christian church eager to demonize its internal and external competitors to a positive anti-religious identity embraced by various groups in the modern West Van Luijk offers a comprehensive intellectual history of this long and unpredictable trajectory This story involves Romantic poets radical anarchists eccentric esotericists Decadent writers and schismatic exorcists among others and culminates in the establishment of the Church of Satan by carnival entertainer Anton Szandor LaVey Yet it is more than a collection of colorful characters and unlikely historical episodes The emergence of new attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions It is also closely connected to secularization that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self-imposed state of religious indecision *Children of Lucifer* makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it Offering the most comprehensive account of this history yet written van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction **Narratives of Secularization** Peter Harrison, 2018-12-07 It is increasingly clear that histories of secularization are not simply dispassionate descriptions of the decline of religious belief and practice in the West Rather such narratives often seek to celebrate secularization promote some version of it lament it or otherwise oppose it in favour of a programme of desecularization or resacralization The aim of this book is to identify some of the major genres of the history of secularization and to explore their historical contexts normative commitments and tendential purposes The contributors to the volume offer different perspectives on these questions not least because a number of them are themselves participants in the cultural political programs described above The primary purpose of this book however is the identification of such programs rather than their promotion Overall the collection seeks to bring analytical clarity to ongoing debates about secularization and help explain the co-existence of apparently conflicting stories about the origins of Western modernity This book was originally

published as a special issue of the Intellectual History Review journal *Secularization and Its Discontents* Rob Warner, 2010-12-23 Authoritative guide to contemporary debates and issues in the sociology of religion providing a clear examination of classical secularization and the post secularization paradigm **Religion and Public Doctrine in Modern England: Volume 1** Maurice Cowling, 2003-09-25 A further contribution to understanding the role played by Christianity in modern English thought **Huxley's Church and Maxwell's Demon** Matthew Stanley, 2014-11-24 During the Victorian period the practice of science shifted from a religious context to a naturalistic one. It is generally assumed that this shift occurred because naturalistic science was distinct from and superior to theistic science. Yet as Huxley's Church and Maxwell's Demon reveals, most of the methodological values underlying scientific practice were virtually identical for the theists and the naturalists; each agreed on the importance of the uniformity of natural laws, the use of hypothesis and theory, the moral value of science and intellectual freedom. But if scientific naturalism did not rise to dominance because of its methodological superiority, then how did it triumph? Matthew Stanley explores the overlap and shift between theistic and naturalistic science through a parallel study of two major scientific figures: James Clerk Maxwell, a devout Christian physicist, and Thomas Henry Huxley, the iconoclast biologist who coined the word agnostic. Both were deeply engaged in the methodological, institutional, and political issues that were crucial to the theistic-naturalistic transformation. What Stanley's analysis of these figures reveals is that the scientific naturalists executed a number of strategies over a generation to gain control of the institutions of scientific education and to reimagine the history of their discipline. Rather than a sudden revolution, the similarity between theistic and naturalistic science allowed for a relatively smooth transition in practice from the old guard to the new.

Secularism in the Arab World al-Azmeh Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al-Azmeh's seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992. Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World, it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social, political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism. The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real, multi-faceted and objective secularising process has been underway in the Arab world since the 1850s. The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation. The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab politics and from an internal drive to overcome this situation. The book follows these themes into the close of the 20th century, marked with the rise of Islamism. A preface to the English translation takes a retrospective look at the theme from the vantage point of social, political and intellectual issues of

relevance today **Studies in Scottish Church History** Alex Cheung, 1999-01-01 In these studies Alec Cheyne explores the history of the churches of Scotland since the Reformation Professor Cheyne looks especially at the leaders among them Robert Rollock Robert Leighton William Carstares Thomas Chalmers John Tulloch John Caird Henry Drummond John Baillie and Donald Baillie He illuminates just how much change and diversity in thought worship government and culture these four hundred years have witnessed in the churches far greater than has traditionally been supposed He also describes the importance of the constant interaction between ecclesiastical and academic affairs and the very wide influence of the churches on Scottish life as a whole A significant work of Scottish history and reference **A History of the University in Europe: Volume 3, Universities in the Nineteenth and Early Twentieth Centuries (1800-1945)** Walter Rüegg, 2006-11-06 The story of the modern research university in Europe and its expansion to other continents first published in 2004 No Greater Love Angus H Shaw, 2024-04-26 In 1914 the world was plunged into the greatest slaughter of humanity in history Of the 60 000 000 soldiers who answered the call of King Kaiser God and country 14% or 6 000 per day died These were not just big numbers they were real people This book tries to capture some of the people who were caught up in this tragedy and tells their story often in their own words Here is revealed the heroism and tragedy of all who went over the top between 1914 and 1918 British German or American no matter which side of the conflict the individual was involved the heroism bravery and sacrifice was the same God's Century Monica Duffy Toft, Daniel Philpott, Timothy Samuel Shah, 2011-02-02 A fresh and illuminating perspective on the surge in religion's political influence across the globe Is religion a force for good or evil in world politics How much influence does it have Despite predictions of its decline religion has resurged in political influence across the globe helped by the very forces that were supposed to bury it democracy globalization and technology And despite recent claims that religion is exclusively irrational and violent its political influence is in fact diverse sometimes promoting civil war and terrorism but at other times fostering democracy reconciliation and peace Looking across the globe the authors explain what generates these radically divergent behaviors In a time when the public discussion of religion is overheated these dynamic young scholars use deeply original analysis and sharp case studies to show us both how and why religion's influence on global politics is surging Finally they offer concrete suggestions on how to both confront the challenges and take advantage of the opportunities posed by globally resurgent religion *The Folly of the Cross* Richard Viladesau, 2018-05-01 The Folly of the Cross is the fourth book in Richard Viladesau's series examining the aesthetics and theology of the cross through Christian history Previous volumes have brought the story up through the Baroque era This new book examines the reception of the message of the cross from the European Enlightenment to the turn of the twentieth century The opening chapters set the stage in the transition from the Baroque to the Classical eras describing the changing intellectual and cultural paradigms of the time Viladesau examines the theology of the cross in the eighteenth and nineteenth centuries and the aesthetic mediation of the cross in music and the visual arts He shows how in

the post Enlightenment era the aesthetic treatment of the cross widely replaced the dogmatic treatment and how this thought was translated into popular spirituality piety and devotion The Folly of the Cross shows how classical theology responded to the critiques of modern science history Biblical scholarship and philosophy and how both classical and modern theology served as the occasions for new forms of representation of Christ s passion in the arts and music

Religious Philosophy as Multidisciplinary Comparative Inquiry Wesley J. Wildman,2010-11-05 What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future

Scripture, Skepticism, and the Character of God Dane Neufeld, 2019-07-11 During a period of great religious upheaval Anglican philosopher and ecclesiastic Henry Longueville Mansel 1820 1871 became famous for his 1858 Bampton Lectures which sought to defend traditional faith by employing a skeptical philosophy Understanding Mansel and the passionate debate that surrounded his career provides insight into the current struggle for ancient religions to articulate their traditions in a modern world In *Scripture Skepticism and the Character of God* Dane Neufeld explores the life and thought of the now forgotten nineteenth century theologian Examining the ideological differences between this philosopher and his contemporaries Neufeld makes a case for the coherence of Mansel s position and traces the vestiges of his thought through the generations that followed him Mansel found himself at the centre of an explosive debate concerning the Christian scriptures and the moral character of the God they described Though the rise of science is often credited with provoking a crisis of doubt shifting ideas about humanity and God were just as central to the spiritual unrest of the nineteenth century Mansel s central argument that the entire Bible must be read as a unified witness to the reality of God provoked disagreement among theologians churchmen and free thinkers alike who were uncomfortable with certain aspects of the scriptural portrayal of God s activity and character Mansel s attempt to reconcile theological skepticism with scripturalism was misunderstood He was branded a hopeless fideist by the free thinkers and a dangerous skeptic by high broad and evangelical churchmen alike Many of the controversies in contemporary Christianity concern the collision between modern morality and biblical renderings of God Neufeld argues that Henry Mansel while a deeply polarizing figure brought clarity and precision to this debate by exposing what was at stake for Christian belief and biblical interpretation in the Victorian period

View From the Murney Tower Richard Allen, 2008-06-15 Salem Goldworth Bland 1859 1950 was among the most significant religious leaders in Canadian history A Methodist and later United Church minister Bland s long career and widespread influence made him a leading figure in the popularizing of liberal theology social reform and the Social Gospel movement He was also a man who struggled with the polarities of evangelical faith and worldly culture and who sought a unifying world view in the mentoring of Sir J William Dawson in the sciences George Monro Grant in public affairs and John Watson in philosophy *The View from the Murney Tower* is a two volume biography of Salem Bland by Richard Allen author of *The Social Passion Religion and Reform in Canada* 1914 28 This first volume begins with Bland s upbringing in the home of an educated industrialist turned preacher It goes on to explore his emergence as a

liberating mind and eloquent speaker prepared to support new currents of scientific and social thought as well as to discuss their implications for Christian faith and life Allen concludes this first volume with Bland's departure from central Canada for the west in 1903 by which time he had become a somewhat controversial figure amongst conservative evangelicals throughout the country More than just biography however The View from the Murney Tower is also an examination of progressive religion in late Victorian Canada a time in which Darwinism and other Biblical social and intellectual controversies were profoundly affecting the growth of a young nation

The Quaker Renaissance and Liberal Quakerism in Britain, 1895-1930 Joanna Dales, 2020-07-20 Many Quakers who reached maturity towards the end of the nineteenth century found that their parents religion had lost its connection with reality New discoveries in science and biblical research called for new approaches to Christian faith Evangelical beliefs dominant among nineteenth century Quakers were now found wanting especially those emphasising the supreme authority of the Bible and doctrines of atonement whereby the wrath of God is appeased through the blood of Christ Liberal Quakers sought a renewed sense of reality in their faith through recovering the vision of the first Quakers with their sense of the Light of God within each person They also borrowed from mainstream liberal theology new attitudes to God nature and service to society The ensuing Quaker Renaissance found its voice at the Manchester Conference of 1895 and the educational initiatives which followed gave to British Quakerism an active faith fit for the testing reality of the twentieth century
