**Market Abuse Regulation in South Africa, the United States of America and the United Kingdom** Howard Chitimira, 2018-04-01 This book provides a concise comparison of the regulation and enforcement of the anti market abuse laws insider trading and market manipulation in South Africa the United States of America USA and United Kingdom UK Bringing together a number of previously published articles the book provides a novel discussion of the challenges associated with the enforcement of market abuse laws in both developing countries such as South Africa and developed ones such as the USA and the UK This is primarily done to examine and expose the current strengths and weaknesses of market abuse laws in relation to certain aspects of the corporate securities and financial markets environments in South Africa the USA and the UK Accordingly chapters two to five of the book unpack the regulation and enforcement of market abuse laws in South Africa and the USA in a comparative perspective Thereafter chapters six to eight of the book discuss the regulation and enforcement of market abuse laws Financial Markets Act 19 of 2012 and other related statutes in South Africa and the UK The book proposes some measures that could be utilised to enhance the enforcement of anti market laws in South Africa USA and the UK New market abuse related challenges that occurred during the global financial crisis are also briefly discussed The book further provides a relatively adequate overview of the comparative analysis of the regulation of market abuse in South Africa versus two key developed and respected jurisdictions namely the USA and the UK Accordingly it is hoped that the book can aid regulatory authorities financial market participants academics students and other interested readers to understand market abuse offences and possible measures that could be employed to combat such offences

**Understanding Institutional Shareholder Activism** Bo Gong, 2013-12-13 Institutional shareholder participation has long been considered as vital to good corporate governance yet its potential does not seem to have been realized The recent banking crisis exposed the passivity of some institutional shareholders many of whom appear to have chosen to sell their stakes in the banks rather than intervene or challenge the board when they realized the strategies followed by the banks were excessively risky Institutional shareholders role to scrutinize and monitor the decisions of boards and executive management in the banking sector in the UK is considered by many to be a failure resulting in the phenomenon of ownerless corporations as described by Lord Myners In China despite the fast rising of institutional investment in the securities market institutional shareholders have not yet played a contributory role in monitoring corporate managers in listed companies Drawing on empirical evidence this book seeks to systematically analyses institutional shareholders incentives to activism to explain when and why shareholder activism will occur The book puts forward a model which explains the factors that determine institutional shareholders

propensity for activism The model both elaborates the collective benefits of activism as a means of achieving managerial accountability asks whether and when shareholder activism is rational for any individual shareholder The book then goes on to apply these findings to both the UK and China in order to explain the varying levels of shareholder activism in each jurisdiction The book is the first to take an in depth look at institutional share holder activism in China providing prescriptions to promote greater shareholder engagement and exploring the potential it holds for improving corporate governance in the region
