Security Implications of SDI Jeffrey Simon,1990 *National Defense and Security* United States. Superintendent of Documents,1990 **Parameters** ,1990 **Current Military Literature** ,1986 Comment and abstracts citations of important articles from international military and defence periodicals **Ending the Cold War at Home** Sam Marullo,1993 After unveiling the individual and organizational values which support the Cold War s defense industry government agencies media language and ideology Marullo proposes reforms to end our domestic Cold War *Politics and Economics of the Soviet Union* G. P. Manat,1992 **Nexus** ,1999 Documents on Disarmament United States. Arms Control and Disarmament Agency,1986 **Documents on Disarmament** ,1986 *Bulletin of the Atomic Scientists* ,1987-11 **Ballistic Missile Defence and US National Security Policy** Andrew Futter,2013-04-12 This book examines the transformation in US thinking about the role of Ballistic Missile Defence BMD in national security policy since the end of the Cold War The evolution of the BMD debate after the Cold War has been complex complicated and punctuated As this book shows the debate and subsequent policy choices would often appear to reflect neither the particular requirements of the international system for US security at any given time nor indeed the current capabilities of BMD technology Ballistic Missile Defence and US National Security Policy traces the evolution of policy from the zero sum debates that surrounded the Strategic Defense Initiative as Ronald Reagan left office up to the relative political consensus that exists around a limited BMD deployment in 2012 The book shows how and why policy evolved in such a complex manner during this period and explains the strategic reasoning and political pressures shaping BMD policy under each of the presidents who have held office since 1989 Ultimately this volume demonstrates how relative advancements in technology combined with growth in the perceived missile threat gradually shifted the contours and rhythm of the domestic missile defence debate in the US towards acceptance and normalisation This book will be of much interest to students of missile defence and arms control US national security policy strategic studies and international relations in general **Launch of Strategic Target System Vehicles, Kauai Test Facility, Pacific Missile Range Facility** ,1992 **Social Sciences Index** ,1987 America's War Machine James McCartney,Molly Sinclair McCartney,2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation s political cultural and

intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience *America's War Machine* provides the context for today's national security state and explains what can be done about it *Bulletin of the Atomic Scientists* ,1987-11 CIS Annual ,1988 *CIS Annual* Congressional Information Service,1987 **CIS Index to Publications of the United States Congress** Congressional Information Service,1988

Rethinking International Relations Fred Halliday,1994-10-26 International Relations as an academic discipline is faced with three major convergent challenges a historical challenge from the end of the Cold War and from new forms of internationalism and fragmentation an institutional challenge from the growing preoccupation of other social sciences with the international and a theoretical challenge both from these cognate disciplines and from within Ranging widely over the discipline Fred Halliday's book powerfully reaffirms the specificity of International Relations and lays the basis for a long overdue reformulation Journal of the American Statistical Association ,2002
