**Geoff Craighead**

## **Security Of Buildings:**

Security and Safety in Los Angeles High-Rise Buildings After 9/11, 2002 1 9 11 RAISES MANY QUESTIONS ABOUT HIGH RISE BUILDING SECURITY PRACTICES IN Los Angeles 2 Building Owners and Managers Association commissioned a short study by RAND at the behest of Los Angeles City Attorney Rocky Delgadillo 3 Study to be presented as a documented briefing for building owners and managers building occupants and public officials 1 Identify generic threats 2 Identify exemplary practices 3 Discuss issues after an event and 4 Suggest potential public policy actions Building Security Rating System Mohammed Ettouney, 2015 Security and Safety in Los Angeles High-rise Buildings After 9/11 Rae W. Archibald, 2002 The Building Owners and Managers Association of Greater Los Angeles and the Office of the City Attorney Rocky Delgadillo asked RAND to provide a study on the threats to and possible responses from the owners and managers of Los Angeles high rise buildings in the aftermath of 9 11 The city attorney's office was also interested in potential public policy changes or programs that government might undertake to improve the security and safety of occupants of high rise buildings in Los Angeles This documented briefing identifies generic threats and exemplary practices in Los Angeles and elsewhere selecting Chicago as an example discusses potential actions after an event and suggests potential preparations that local government and the private sector might want to consider Recommendations for Los Angeles include reviewing evacuation plans and exercising them frequently conducting and regularly updating vulnerability and threat assessments establishing protocols and realistic drills for response educating tenants about their responsibilities and taking advantage of both low technology and high technology security measures **Safety and Security in Building Design** Ralph Sinnott, 1985 **Building Security** Bernard L. Ungar, 2002 In the wake of Sept 11 2001 this report discusses the response of 22 Fed agencies for the protection of the Fed bldgs they own whether security assessments of facilities had been completed the types of security forces and technologies used to secure and protect Fed bldgs funding for security over the coordination of security efforts within and among agencies to improve or enhance bldg security and impediments that make it difficult to tighten security at Fed bldgs Also provides the types and sources of security related guidance that are available for agencies to use in addressing bldg security vulnerabilities **Building Security** John S. Stroik, 1981 **Risk-based Security in Federal Buildings** United States. Congress. House. Committee on Transportation and Infrastructure. Subcommittee on Economic Development, Public Buildings, and Emergency Management, 2009 **High-Rise Security and Fire Life Safety** Geoff Craighead, 2003-04-15 High Rise Security and Fire Life Safety serves as an essential tool for building architects building owners and property managers security and fire safety directors security consultants and contract security firms Provides the reader with complete coverage of high rise security and safety issues Includes comprehensive sample documentation diagrams photographs to aid in developing security and fire life safety programs Serves as an essential tool for building owners and managers security and fire safety directors security consultants and contract security firms

**Security Planning and Design** The American Institute of Architects, 2003-11-03 This important reference from the American Institute of Architects provides architects and other design professionals with the guidance they need to plan for security in both new and existing facilities Security is one of the many design considerations that architects must address and in the wake of the September 11th 2001 events it has gained a great deal of attention This book emphasises basic concepts and provides the architect with enough information to conduct an assessment of client needs as well as work with consultants who specialise in implementing security measures Included are chapters on defining security needs understanding threats blast mitigation building systems facility operations and biochemical protection Important reference on a design consideration that is growing in importance Provides architects with the fundamental knowledge they need to work with clients and with security consultants Includes guidelines for conducting client security assessments Best practices section shows how security can be integrated into design solutions Contributors to the book represent an impressive body of knowledge and specialise in areas such as crime prevention blast mitigation and biological protection

**Security Risk Assessment and Management** Betty E. Biringer, Rudolph V. Matalucci, Sharon L. O'Connor, 2007-03-12 Proven set of best practices for security risk assessment and management explained in plain English This guidebook sets forth a systematic proven set of best practices for security risk assessment and management of buildings and their supporting infrastructures These practices are all designed to optimize the security of workplace environments for occupants and to protect the interests of owners and other stakeholders The methods set forth by the authors stem from their research at Sandia National Laboratories and their practical experience working with both government and private facilities Following the authors step by step methodology for performing a complete risk assessment you learn to Identify regional and site specific threats that are likely and credible Evaluate the consequences of these threats including loss of life and property economic impact as well as damage to symbolic value and public confidence Assess the effectiveness of physical and cyber security systems and determine site specific vulnerabilities in the security system The authors further provide you with the analytical tools needed to determine whether to accept a calculated estimate of risk or to reduce the estimated risk to a level that meets your particular security needs You then learn to implement a risk reduction program through proven methods to upgrade security to protect against a malicious act and or mitigate the consequences of the act This comprehensive risk assessment and management approach has been used by various organizations including the U S Bureau of Reclamation the U S Army Corps of Engineers the Bonneville Power Administration and numerous private corporations to assess and manage security risk at their national infrastructure facilities With its plain English presentation coupled with step by step procedures flowcharts worksheets and checklists you can easily implement the same proven approach and methods for your organization or clients Additional forms and resources are available online at [www.wiley.com/go/securityrisk](http://www.wiley.com/go/securityrisk)

**Handbook of Building Security Planning and Design** Peter S. Hopf, 1979 *Functional Safety and System Security in Building Automation* Thomas

Novak,2009-10 The importance of building automation and control systems BACS in modern automated buildings is constantly growing Increasingly these systems are responsible for functions directly or indirectly affecting people s safety security and health Thus the respective technology is supposed to be developed in a way that requirements of the two most important features are met functional safety and system security of both the network nodes and the communication protocols Hence a common approach to develop a safe and secure BACS is presented It is based on a lifecycle model that defines requirements for the different stages of the system life The common approach is harmonizing safety and security discipline by using methods specified in two international standards IEC 61508 for safety and Common Criteria for security The special focus of the thesis is on the commonalities between the development of safety and security systems and how to benefit from these commonalities in development There are similar goals requirements and related measures to safeguard the system And a way of dealing with inevitable contradictions is outlined by introducing a conflict resolution approach **Security in**

**Federal Buildings** United States. Congress. House. Committee on Transportation and Infrastructure.
