Branco, Flavius Caba-Maria, 2021-09-13 This book assesses Iran's role in contemporary geopolitics. In particular, it examines three main intertwining circles: Iran's development and political challenges, its relationships with neighbouring countries, as well as its relations with the major global powers: China, the European Union, Russia, and the United States. With contributions from over 20 authors, the book spans such critical aspects of contemporary geopolitics as modern history, natural resources, the economy, the social-political context, and strategic thinking. Particular focus is placed on Iran's relations with its neighbours: Afghanistan, Iraq, Israel, Pakistan, and the Persian Gulf States. Furthermore, the book offers both a bilateral and multilateral dimension on how nuclear sanctions imposed on Iran have impacted its strategic planning from the economic and military perspectives.

**Beyond Regionalism?** Matteo Legrenzi, 2016-04-15 Regional cooperation, regionalism, and regionalization in the Middle East are usually considered to be weak and rather ceremonial. However, since September 11, 2001, a new regional order is emerging, and the impact of geostrategic changes in the international environment has yet to be satisfactorily studied. With older regional organizations suffering from weaknesses, new forms appear to be developing and flourishing due either to European support or growing sub-regional identities. This volume offers refined theoretical models and approaches which are attuned to the new dynamics and contradictions of a wide range of regionalist projects in the contemporary Middle East. Case studies of the most important regional organizations in different policy fields offer comprehensive overviews of the main actors, institutions, historical development, and current issues.

**Territoriality of Radical Islamist Groups** Bohumil Doboš, Martin Riegl, Jakub Landovský, 2021-05-04 This book examines the issue of territorial control by violent jihadist groups.

using a comparative perspective The book argues that in many parts of the world the connection between a state and the control over territory is not as close as presented by conventional political maps and therefore it is necessary to analyse the territoriality of non state actors as well Based on a variety of case studies the work looks at different levels of connection between the violent Islamist groups and territory dividing them into non territorial semi territorial and territorial groups While the majority of the cases are located in the Middle East Islamic State Al Qaeda Al Qaeda at the Arabian Peninsula Hayat Tahrir al Sham Hamas and Hezbollah the book also draws cases from Africa groups in the western Sahel Al Shabaab and Boko Haram South Asia Taliban and East Asia Abu Sayyaf By providing in depth understanding of their respective approaches to territory the book identifies the specifics of each group s territoriality while also drawing more general conclusions This book will be of much interest to students of terrorism and political violence radical Islam Middle Eastern studies and International Relations in general *Britain and State Formation in Arabia 1962-1971* Clive Jones, 2018-12-07 Half a century ago Britain abandoned Aden its last colonial outpost in the Arab world as its attempt to establish a new polity foundered amid a rising tide of Arab nationalism tribal infighting and anti colonial sentiment that eventually gave rise to the establishment of South Yemen Yet just over three years later in 1971 a new state the United Arab Emirates emerged in Arabia formed from the old Trucial states over which Britain had long held sway At a time when state failure and fragmentation has become synonymous with much of the Middle East and where the very idea of sovereignty and legitimacy have become contested issues this comparative historical study of the varied British attempts at state creation on the Arabian peninsula offers important insights into the limits of external ambition as well as the possibilities that great power retrenchment offered to the peoples of the region The legacy of British influence in Aden and Abu Dhabi still very much resonates today this volume explains why This book was originally published as a special issue of Middle Eastern Studies

*Iranian Foreign Policy Since 2001* Thomas Juneau, Sam Razavi, 2013-07-24 Examining Iranian foreign policy with a focus on the years since 2001 this book analyses the defining feature of Iran s international and regional posture its strategic loneliness and the implications of this for the Islamic Republic s foreign policy Iranian Foreign Policy since 2001 offers an in depth analysis of the key drivers behind Iran s foreign

policy power strategic culture and ideology In addition the authors examine Iran's relations with key countries and regions including its often tenuous relations with China Russia and America as well as its bilateral relations with non state actors such as Hezbollah The common thread running throughout the volume is that Iran is alone in the world regardless of its political manoeuvrings the Islamic Republic's regional and international posture is largely one of strategic loneliness Assimilating contributions from the US Canada Europe and Iran this book provides an international perspective both at the theoretical and practical levels and is essential reading for those with an interest in Middle Eastern Politics International Relations and Political Science more broadly *The Echo of Iran*, 2008 **Oil Spaces** Carola Hein, 2021-08-23 Oil Spaces traces petroleum's impact through a range of territories from across the world showing how industrially drilled petroleum and its refined products have played a major role in transforming the built environment in ways that are often not visible or recognized Over the past century and a half industrially drilled petroleum has powered factories built cities and sustained nation states It has fueled ways of life and visions of progress modernity and disaster In detailed international case studies the contributors consider petroleum's role in the built environment and the imagination They study how petroleum and its infrastructure have served as a source of military conflict and political and economic power inspiring efforts to create territories and reshape geographies and national boundaries The authors trace ruptures and continuities between colonial and postcolonial frameworks in locations as diverse as Sumatra northeast China Brazil Nigeria Tanzania and Kuwait as well as heritage sites including former power stations in Italy and the port of Dunkirk once a prime gateway through which petroleum entered Europe By revealing petroleum's role in organizing and imagining space globally this book takes up a key task in imagining the possibilities of a post oil future It will be invaluable reading to scholars and students of architectural and urban history planning and geography of sustainable urban environments *The Shah, the Islamic Revolution and the United States* Darioush Bayandor, 2018-12-02 The Islamic Revolution in 1979 transformed Iranian society and reshaped the political landscape of the Middle East Four decades later Darioush Bayandor draws upon heretofore untapped archival evidence to reexamine the complex domestic and international dynamics that led to the Revolution Beginning with the socioeconomic transformation of the 1960s this book follows the Shah's rule through the 1970s tracing the emergence of opposition movements the Shah's blunders and miscalculations the influence of the post Vietnam zeitgeist and the role of the Carter administration The Shah the Islamic Revolution and the United States offers new revelations about how Iran was thrown into chaos and an ailing ruler lost control with consequences that still reverberate today *The Armies of Ancient Persia* Kaveh Farrokh, 2014-02-28 Throughout most of the classical period Persia was one of the great superpowers placing a limit on the expansion of Western powers It was the most formidable rival to the Roman empire for centuries until Persia by then under the Sassanians was overwhelmed by the Islamic conquests in the seventh century AD Yet the armies of ancient Persia have received relatively little detailed attention certainly in comparison to those of Rome This work is the first of

three volumes that will form the most comprehensive study of ancient Persian armies available The Sassanians the native Iranian dynasty that ousted their Parthian overlords in AD 226 developed a highly sophisticated army that was able for centuries to hold off all comers They continued the Parthians famous winning combination of swift horse archers with heavily armored cataphract cavalry also making much use of war elephants but Kaveh Farrokh interestingly demonstrates that their oft maligned infantry has been much underestimated The author born in Athens Greece and expert in ancient Persian languages and military history has been researching the military history and technology of Persia for a quarter of a century He draws on the latest research and new archaeological evidence focusing on the organization equipment and tactics of the armies that dominated the ancient Middle East for so long **The Thistle and the Drone** Akbar Ahmed,2013-03-07 Argues that the campaigns that fall under The War on Terror have exacerbated the already broken relationship between central Islamic governments and the tribal societies within their borders
